However they can only unfold their full potential once they are reconciled with core legal principles Eventually in this way fair behaviour may even be legally promoted German description Verhaltensökonomisch basierte Regulierung von Nudging bis Debiasing hat längst auch Deutschland und Europa erreicht Doch die Implikationen der Verhaltensökonomik für Normsetzung sind nicht immer so eindeutig wie sie auf den ersten Blick erscheinen mögen Auf empirischer Ebene herrscht Unsicherheit über den tatsächlichen Rationalitätsgrad von Marktakteuren auf normativer Ebene Unklarheit darüber welche rechtspolitischen Ziele mithilfe der neuen Techniken verfolgt werden sollen Philipp Hacker nimmt sich dieser Herausforderungen an begründet entscheidungstheoretisch die Relevanz der Verhaltensökonomik für das Privatrecht und macht sich für ihren Einsatz zur Steigerung von Fairness in Marktkontexten stark besonders im Verbraucher und Kapitalmarktrecht Auf dieser Grundlage erfährt das Informationsmodell das zentrale europäische Regulierungsparadigma eine Neukonzeption *Wie denkst du Politik* Andreas Kegel, 2017-06-27 Andreas Kegel entwickelt einen didaktischen Politikbegriff Originär an diesem Begriff ist dass konkrete Politikvorstellungen von Schülerinnen und Schülern mit fachwissenschaftlichen Politikvorstellungen verknüpft werden Politik ist dadurch nicht mehr allein der Transformationsprozess von Partikularinteressen zu allgemeingültigen Entscheidungen Vielmehr erweitert sich Politik um das regelungsbedingte Verhältnis zwischen Individuum und Gesellschaft und konkretisiert sich durch die Konzepte Mitbestimmung Meinungsvielfalt soziale Gerechtigkeit und alltägliches Zusammenleben *Global Political Philosophy* M. Risse, 2016-04-30 Risse takes a refreshingly different approach to understanding the important and topical debates in the subject through the lens of issues of global reach such as justice human rights fair trade and immigration focusing on normative questions that arise about globalization *Political Philosophy* David Miller, 2006-06-01 *The Shorter Routledge Encyclopedia of Philosophy* Edward Craig, 2005-11-29 The Shorter REP presents the very best of the acclaimed ten volume Routledge Encyclopedia of Philosophy in a single volume It makes a selection of the most important entries available for the first time and covers all you need to know about philosophy from Aristotle to Wittgenstein and animals and ethics to scientific method Comprising over 900 entries and covering the major philosophers and philosophical topics The Shorter REP includes the following special features Unrivalled coverage of major philosophers themes movements and periods making the volume indispensable for any student or general reader Fully cross referenced Revised versions of many of the most important entries including fresh suggestions for further reading Over twenty brand new entries on important new topics such as Cloning and Sustainability entries by many leading philosophers such as Bernard Williams Martha Nussbaum Richard Rorty Onora O'Neill T.M. Scanlon and Anthony Appiah Striking new text design to help locate key entries quickly and easily An outstanding guide to all things philosophical The Shorter Routledge Encyclopedia of Philosophy provides an unrivalled introduction to the subject for students and general readers alike **Nietzsche & Anarchism: An Elective Affinity and a Nietzschean reading of the December '08 revolt in Athens** Christos Iliopoulos, 2019-10-15 This book

aims to establish the bond between Friedrich Nietzsche and the anarchists through the apparatus of elective affinity and to challenge the boundaries of several anarchist trends especially classical and post anarchism and ideologies like anarchism and libertarian Marxism Moreover it highlights the importance of reading Nietzsche politically in a radical way to understand his utility for the contemporary anarchist movement The review of the literature concerning the Nietzsche anarchy relationship shows the previously limited bibliography and stresses the possibility of exploring this connection with the methodological help of Michael L wy s concept of elective affinity The significance of this finding is that the relevant affinity may contribute to an alternative to the dominant perception of anarchism as an ideology It may also designate its special features together with its weaknesses meaning the objections of Nietzsche to certain aspects of the anarchist practices and worldview violence resentment bad conscience thus opening a whole new road of self criticism for the anarchists of the twenty first century In addition the location and analysis of the elective affinity serves the debunking of the Nietzschean concepts used by conservative and right wing readings in order to appropriate Nietzsche and of the accusations that the German philosopher had unleashed against anarchists which reveals his misunderstanding of anarchist politics The final part of this book applies the whole analysis above on a Nietzschean reading of the December 08 revolt in Athens based on the Of the Three Metamorphoses discourse from Thus Spoke Zarathustra offering an alternative view of the events that shook Greece and also had an important global impact

Africa beyond Liberal Democracy Reginald M.J. Oduor, 2022-06-21 A 2023 Choice Reviews Outstanding Academic Title *Africa beyond Liberal Democracy* In Search of Context Relevant Models of Democracy for the Twenty First Century explores possible future trajectories of democratization on the continent At the dawn of political independence in the late 1950s and early 1960s many countries in Africa set out with liberal democratic constitutions However these were quickly dismantled by civilian regimes that turned their countries into one party autocracies or by military coups that set aside the constitutions altogether The 1990s saw an attempt at reverting to competitive multi party politics through the so called second generation constitutions but these are again being dismantled by civilian autocracies and military juntas In this collection edited by Reginald M J Oduor African and Africanist scholars examine the view that what has failed in Africa is liberal democracy rather than democracy as such because liberal democracy arose in an individualist socio political Western context that is significantly different from the communalist milieu of African societies The contributors from a variety of disciplines in the humanities and social sciences and based in South Africa Zimbabwe Kenya Uganda Tanzania Nigeria Ghana India Sweden and Finland present a range of perspectives on possible directions for context relevant models of democracy in the various countries of Africa in the twenty first century

Islam, Secularism, and Liberal Democracy Nader Hashemi, 2009-04-08 Islam s relationship to liberal democratic politics has emerged as one of the most pressing and contentious issues in international affairs In *Islam Secularism and Liberal Democracy* Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal

democratic development are structurally incompatible This book argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy In the process it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies Moderne politische Theorie Bernd Ladwig,2022-09-05 Dieses Lehrbuch bietet eine kritische Einführung in die moderne politische Theorie nach dem Vorbild amerikanischer Studienbücher Die Theorien für und über die moderne Gesellschaft geben Aufschluss über die politische Situation in der wir leben Das Buch spannt den Bogen von Theorien von Jürgen Habermas und Niklas Luhmann bis hin zum Feminismus Religion in Development Séverine Deneulin,2013-07-18 Development practice is full of examples of the importance of religion in the lives of people in developing countries However religion has largely remained unexplored in development studies This timely new book aims to fill that gap The authors expertly review how religion has been treated in the evolution of development thought how it has been conceptualised in the social sciences and highlights the major deficiencies of the assumption of secularism The book argues that development theory and practice needs to rewrite its dominant script regarding its treatment of religion a script which has so far been heavily inscribed in the secular tradition It puts forward an understanding of religions as traditions that religions rest on central thesis and teachings which never cease to be re interpreted in the light of the social political and historical context In addition to providing a conceptual framework for analysing the role of religion in development the book provides numerous empirical examples drawn from the Christian and Islamic religious traditions This comprehensive new guide to this key issue is essential for students development thinkers and practitioners who wish to understand better the role that religion plays in development processes and outcomes **The Ethics of Assistance** Deen K.
