Sen,1893 **An Introduction to International Relations and Religion** Jeffrey Haynes,2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics Die Geburt des 'Christentums' als 'Religion' am Ende des 19. Jahrhunderts Mathias Thurner,2021-06-08 In der gegenw rtigen religionswissenschaftlichen Diskussion ist die Frage einer angemessenen Historisierung ihrer Gegenst nde hoch umstritten Die Begriffe Religion und Christentum

gelten als Produkte der europäischen Geistesgeschichte des 18. Jahrhunderts. Andererseits hat die Postkolonialismus-Forschung und die Globalgeschichtsschreibung die Entstehung eines globalen Religionsdiskurses im 19. Jahrhundert herausgearbeitet, in dessen Verlauf sich Buddhismus, Hinduismus und Islam als Religionen konstituierten. Bisher fehlt eine detaillierte historische Untersuchung zur Frage, ob sich auch das Verständnis des Christentums als Religion in diesen globalen Aushandlungsprozess in der zweiten Hälfte des 19. Jahrhunderts eintragen ließe. Die vorliegende Studie fokussiert auf die Religionstheologie Ernst Troeltschs (1865–1923), der von der liberalen Theologie für die Kontinuität von Religion und Christentum seit dem 18. Jahrhundert in Anspruch genommen wird. Die historische Kontextualisierung der Religionstheologie Troeltschs und ihrer Quellen zeigt, dass hier ein Verständnis vom Christentum als Religion entwickelt wird, das nur im Rahmen des neuen globalen Religionsdiskurses im ausgehenden 19. Jahrhundert zu verstehen ist.

The Geography of Religion Roger W. Stump, 2008-04-04. The only book of its kind, this balanced and accessibly written text explores the geographical study of religion. Roger W. Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space. He begins by analyzing the factors that have shaped the spatial distributions of religious groups, including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs. The author then assesses how major religions have diversified as they have become established in disparate places, producing a variety of religious systems from a common tradition. Stump explores the efforts of religious groups to control secular space at various scales, relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities. Examining sacred space as a diverse but recurring theme in religious belief, the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups. Refreshingly jargon-free and impartial, this text provides a broad comparative view of religion as a focus of geographical inquiry.
