**Alternative Investments** CFA Institute, 2021-11-04 The complete guide to alternative investments from experts working with CFA Institute. *Alternative Investments* is the definitive guide to understanding non-traditional asset classes. Alternatives are a disparate group of investments that are distinguished from long-only publicly traded investments in stocks, bonds, and cash, often referred to as traditional investments. Alternative investments include real estate, commodities, infrastructure, and other non-traditional investments such as private equity or debt and hedge funds. They are attractive to investors because of the potential for portfolio diversification, resulting in a higher risk-adjusted return for the portfolio. *Alternative Investments* and its accompanying workbook, sold separately, lead students and investment professionals through the many characteristics of non-traditional assets, including:

- Narrow specialization of the investment managers
- Relatively low correlation of returns with those of traditional investments
- Less regulation and less transparency than traditional investments
- Limited historical risk and return data
- Unique legal and tax considerations
- Higher fees, often including performance or incentive fees
- Concentrated portfolios
- Restrictions on redemptions, i.e. lockups and gates

CFA Institute is the world's premier association for investment professionals and the governing body for the CFA Program, CIPM Program, CFA Institute ESG Investing Certificate, and Investment Foundations Program.
