## **Animals In The Quran Cambridge Studies In Islamic Civilization:**

**Animals in the Qur'an** Sarra Tlili, 2012-08-13 The Islamic tradition has always held animals in high esteem deserving the same level of consideration as humans The Qur'an opines that there is not an animal in the earth nor a flying creature flying on two wings but they are people like you This fascinating and highly original book examines the status and nature of animals as they are portrayed in the Qur'an and in adjacent exegetical works in which animals are viewed as spiritual moral intelligent and accountable beings In this way the study presents a challenge to the prevalent view of man's superiority over animals and suggests new ways of interpreting the Qur'an By placing the discussion within the context of other religions and their treatment of animals the book also makes a persuasive case for animal rights from an Islamic perspective [Fallen Animals](#) Zohar Hadromi-Allouche, 2017-10-05 The premise of Fallen Animals is that somehow and in some way The Fall of Adam and Eve as related in the Bible has affected all living beings from the largest to the smallest from the oldest to the youngest regardless of gender and geography The movement from the blissful arena of the Garden of Eden to the uncertain reality of exile altered in an overt or nuanced fashion the attitudes perceptions and consciousness of animals and humanity alike Interpretations of these reformulations as well as the original story of the Paradise Garden have been told and retold for millennia in a variety of cultural contexts languages societies and religious environments Throughout all those retellings animals have been a constant presence positively and negatively actively and passively from the creation of birds fish and mammals to the agency of the serpent in the Fall narrative The serpent in the Garden of Eden is but one example of the ambivalence which has characterized the human animal relationship over the centuries both across and within cultures societies and traditions The book examines the interpretations functions and interactions of the Fall physical moral artistic and otherwise as represented through animals or through human animal interactions [Animal Sacrifice and the Origins of Islam](#) Brannon Wheeler, 2022-06-23 Islam is the only biblical religion that still practices animal sacrifice Indeed every year more than a million animals are shipped to Mecca from all over the world to be slaughtered during the Muslim Hajj This multi disciplinary volume is the first to examine the physical foundations of this practice and the significance of the ritual Brannon Wheeler uses both textual analysis and various types of material evidence to gain insight into the role of animal sacrifice in Islam He provides a thick description of the elaborate camel sacrifice performed by Muhammad which serves as the model for future Hajj sacrifices Wheeler integrates biblical and classical Arabic sources with evidence from zooarchaeology and the rock art of ancient Arabia to gain insight into an event that reportedly occurred 1400 years ago His book encourages a more nuanced and expansive conception of sacrifice in the history of religion **Forced Conversion in Christianity, Judaism and Islam** Mercedes García-Arenal, Yonatan Glazer-Eytan, 2019-10-21 Focusing on the Iberian Peninsula but examining related European and Mediterranean contexts as well Forced Conversion in Christianity Judaism and Islam traces how Christians Jews and Muslims grappled with the contradictory phenomenon of faith brought about by

constraint and compulsion Forced conversion brought into sharp relief the tensions among the accepted notion of faith as a voluntary act the desire to maintain pure communities and the universal truth claims of radical monotheism Offering a comparative view of an important yet insufficiently studied phenomenon in the history of religions this collection of essays explores the ways in which religion and violence reshaped these three religions and the ways we understand them today

**Die Koranhermeneutik von Günter Lüling** Georges Tamer, 2018-12-17 Der koranhermeneutische Ansatz des Islamwissenschaftlers Günter Lüling 1928-2014 wurde jahrzehntelang von Fachvertretern totgeschwiegen was Nahrung für Verschwörungstheorien lieferte Seine Theorie dass der Koran seinen Ursprung im alten Christentum habe widersprach der traditionellen Wissenschaft seiner Zeit Der Band enthält Forschungsbeiträge in denen Lülings Werk erstmals kritisch gewürdigt wird
