Britannica Book of the Year 2014 Encyclopaedia Britannica, Inc., 2014-03-01 The Britannica Book of the Year 2014 provides a valuable viewpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world It is an accurate and comprehensive reference that you will reach for again and again Mildred Trotter and the Invisible Histories of Physical and Forensic Anthropology Emily Wilson, 2022-04-11 In the wake of World War II anatomist and anthropologist Mildred Trotter left the Midwest for a temporary post as the forensic anthropology expert for the Army in the Territory of Hawaii Her formidable task was to identify the remains of war dead in order to return them to their families in a national effort that continues to this day Mildred Trotter and the Invisible Histories of Physical and Forensic Anthropology is the first long overdue biography on this woman of immense stature in her field She was the first woman to serve as President of the American Association of Physical Anthropologists and the first woman to be full professor at the Washington University School of Medicine in St Louis While primarily a biography of Trotter this book also examines aspects that are so often left out of retrospectives of science and scientific figures This includes scientific error the historical experiences of the few women and individuals from other marginalized groups active in the discipline sexism and scientific and social racism This

book also provides novel historical context regarding her major and now well known tibia mismeasurement Mildred Trotter and the Invisible Histories of Physical and Forensic Anthropology is a must read for anyone interested in the history of science and women in science and for all practicing and aspiring biological and forensic anthropologists *How Real Is Race?* Carol C. Mukhopadhyay, Rosemary Henze, Yolanda T. Moses, 2013-12-11 How real is race What is biological fact what is fiction and where does culture enter What do we mean by a colorblind or postracial society or when we say that race is a social construction If race is an invention can we eliminate it This book now in its second edition employs an activity oriented approach to address these questions and engage readers in unraveling and rethinking the contradictory messages we so often hear about race The authors systematically cover the myth of race as biology and the reality of race as a cultural invention drawing on biocultural and cross cultural perspectives They then extend the discussion to hot button issues that arise in tandem with the concept of race such as educational inequalities slurs and racialized labels and interracial relationships In so doing they shed light on the intricate dynamic interplay among race culture and biology For an online supplement to *How Real Is Race* Second Edition click here *Annual Editions Anthropology* Elvio Angeloni, 2002
