Information Technology Peter Zorkoczy, 1984

Comparative Information Technology Joseph Zajda, Donna Gibbs, 2009-04-21 Comparative Information Technology Languages Societies and the Internet which is the fourth volume in the 12 volume series Globalisation Comparative Education and Policy Research offers a critique of the nexus between ICT and its impact on society individuals and educational institutions One of the most signification dimensions of globalisation has been the rapid development of information and communications technologies ICTs Our lives have been changed by this in numerous ways and the

implications for education are enormous The ICTs have transformed the linguistic cognitive and visual dimensions of human communication as well as our perceptions of the self and social identity in the global culture The ICTs have facilitated the development of new dimensions of digital literacy such as blogging and sms messaging In this sense cyberlanguage continues to evolve by borrowing and adapting familiar words coining new expressions and embracing particular styles Gibbs Krause 2006 2007 However information technology can be both empowering and disempowering Individuals use the Internet notebooks and their BlackBerries and communicate via email If clothing is an extension of one's skin then the ICT has become an extension of our bodies In a globalised world linked through the Internet a formed identity can lead to a multiplicity of identities some contradictory to each other and some taking place primarily in the virtual communities of cyberspace
