Anthologie Michèle Bourdeau, 2004 *Anthologie* Fran Catenacci, Robert Hart, 2002-01-01 *Anthologie* Robert Hart, Fran Catenacci, Pauline Cyr, 2002-01-01 **Préhistoire. Nouvelles frontières** Collectif, 2023-07-25

L'archéologie préhistorique invente et il y a peine deux siècles est une science récente c'est également une science en constante évolution dont les frontières restent indéterminées. Ce qu'elle est aujourd'hui devenue n'a plus grand-chose à voir avec ce qu'elle a pu être progressant vite cette discipline rassemble autour d'elle des compétences exceptionnellement nombreuses géologiques zoologiques paléoanthropologiques etc. L'ambition de cet ouvrage est donc multiple. Interrogeant la provenance de cette discipline et l'évolution de ses rapports avec d'autres sciences il propose tout d'abord une cartographie des avancées en cours. Et pour cela quelques uns des meilleurs spécialistes de la discipline ont été sollicités. Mais il s'agit tout autant d'une part de porter un regard critique sur l'épistémologie qu'elle déploie et d'autre part de mener une réflexion sur les défis qu'il lui faut relever afin de se rendre pleinement visible. C'est pourquoi quatre axes de questionnement ont ici été privilégiés : le rapport au temps et l'histoire plus récente l'vocation de recherches scientifiques la confrontation aux autres sciences humaines le partage du savoir au-delà des cercles savants. En cela cet ouvrage l'instar de ce qu'a finalement toujours été la préhistoire se veut résolument interdisciplinaire. Aussi mobilise-t-il en plus d'archéologues aux compétences multiples des anthropologues des historiens des philosophes. Seule une telle interdisciplinarité peut nous permettre d'esquisser à petites touches les nouvelles frontières dynamiques mouvantes et toujours prometteuses de la préhistoire.

Nouvelles frontières et frontières anciennes dans le monde anglophone Centre d'études des relations interculturelles (France), 1992 *Les nouvelles frontières de la société française* Didier Fassin, 2020-04-09

Frontières extérieures et frontières internes la question de l'immigration et l'enjeu de la racialisation sont étroitement liés. Un ouvrage de référence qui restitue la recherche conduite pendant quatre ans par une équipe de sociologues anthropologues historiens politistes juristes psychiatres et psychanalystes. Au cours des dernières décennies les frontières du territoire français se sont refermées pour celles et ceux d'origine indésirables en provenance des pays non communautaires qu'ils soient travailleurs étudiants demandeurs d'asile enfants ou conjoints d'étrangers. Mais parallèlement ce phénomène ne d'autant plus manifeste qu'il est devenu objet de surenchère politique. D'autres frontières moins visibles se sont constituées à l'intérieur de l'espace national. Raciales ethniques ou religieuses elles définissent des lignes de partage que la reconnaissance tardive des discriminations et la montée de revendications minoritaires ne permettent plus d'ignorer. Longtemps pensées séparément les unes travers la question d'immigrés les autres en termes de racialisation ces frontières extérieures et intérieures sont toutefois étroitement liées tant dans les histoires familiales que dans les discours publics. Résultat de quatre années d'enquête menées par une équipe de sociologues anthropologues historiens politistes juristes psychiatres et psychanalystes cet ouvrage met au jour les transformations contemporaines des identités et des altérités dans la société française.

The Gender of Borders Jane Freedman, Alice Latouche, Adelina Miranda, Nina Sahraoui, Glenda Santana de Andrade, Elsa Tyszler, 2023-02-27 This book brings an intersectional perspective to border studies drawing on case studies from across the world to consider the ways in which notably gender and race dynamics change the ways in which people cross international borders and how diffuse and virtual borders impact on migrants' experiences By bringing together 11 ethnographies the book demonstrates the necessity for in depth empirical research to understand the class gender and race inequalities that shape contemporary borders In doing so the volume sheds light on how migration control produces gendered violence at physical borders but also through the politics of vulnerability across borders and social boundaries It places embodied narratives at the heart of the analysis which sheds light on the agency and the many patterns of resistance of migrants themselves As such it will appeal to scholars of migration and diaspora studies with interests in gender
