A First Nations Perspective Steven Kelly,2025-05-30 This book is an extrapolation of the research I conducted for my doctoral thesis about my people s struggle to come to terms with native title claim processes in which we are required to prove our connection to land culture and kin This book offers a compelling and profound journey of Nanda people s existence over time It gives a robust understanding of the kinship and culture of my family group It differs from others in the same field as it has been produced from an insider s perspective it is about my family who are of the Murchison region of Western Australia The book presents the ways in which my family continues to hold strong connection to kin and Country through traditional practices that have survived and flourished regardless of colonialism This has been achieved through the privileging of my family s lived experiences and perceptions as told by Elders In addition I focus on the small details of our everyday lives to capture aspects of Country and kin Further insider positioning is incorporated in a critically reflexive way based on auto ethnographic accounts Each chapter of the book focuses on particular ideas that were developed over the course of the study The research provides examples of the historical and contemporary struggle of this Nanda family group s survival and recognition as traditional owners in a native title claim Particular themes were recurrent features in many of my conversations with Elders The theme of identity pertaining to how members of this family group identify with each other and with others was consistent throughout the process and is based on the love and respect between family members Readers interested in Australian history anthropology cultural studies and Indigenous studies will appreciate this book

Ancestry and Sex in Human Crania Robert W. Mann,2021-08-11 This atlas consists of 29 male and 21 female crania and is intended to serve as a reference source of documented identity crania in the Mann Labrash Osteology Collection at the John A Burns School of Medicine JABSOM of the University of Hawaii Manoa It is intended to add to our knowledge of the complexity and range of cranial variation and to provide examples based on contemporary known identity individuals Large color photographs are provided for researchers to reference when estimating ancestry sex and to a limited extent age This atlas increases our comparative reference samples and diversity to include individuals of Asian and Pacific Islander ancestry Most crania in this atlas are presented using six anatomical views anterior right lateral left lateral inferior basilar superior and posterior occipital in the Frankfort horizontal plane A superior view of each mandible is included to provide the reader with size and shape features of the teeth and bone Additional photos are included to highlight other features such as dental morphology and anatomical variants Many photographs are labeled to identify specific features while others are not leaving interpretation to the reader Figure captions reflect the author s opinion

but are intended to allow readers to interpret features for themselves and draw their own conclusions based on the photographs of each cranium. The photographs are intended to provide readers with the most holistic and integrated perspective of each feature. Each feature is viewed as part of the whole without requiring the reader to place them along a fixed continuum or sequence based on size or shape. Photographs also allow readers to examine each feature as an integrated piece of the puzzle.

Getting Real About Race Stephanie M. McClure, Cherise A. Harris, 2017-08-24 This popular reader is an edited collection of short essays that address the most common myths and misconceptions about race and racism held by students and by many in the United States in general. In the updated Second Edition of *Getting Real About Race* editors Stephanie M. McClure and Cherise A. Harris continue to enlist leading experts and educators to address the arguments about topics that students will recognize from private conversations and public discourse including colorblindness, meritocracy, educational attainment, and definitions of citizenship. Each essay considers the evidence against one particular racial myth and is written in clear, jargon-free language. The unique format of this book makes it especially conducive to productive discussions about race.

Kinship and Gender Linda Stone, Diane E. King, 2025-07-31 This fully revised seventh edition of *Kinship and Gender: An Introduction* explores kinship in today's globalized, increasingly mobile world and how family structures continue to influence the varied roles that men and women play in different cultures. Written to engage students, each chapter provides key terms and useful generalizations gleaned through research on the interplay of kinship and gender in both traditional societies and contemporary communities. Detailed case studies and cross-cultural examples help students understand how such generalizations are experienced in real life. The authors also consider the ramifications of current social problems and recent developments in reproductive technology as they demonstrate the relevance of kinship and gender to students' lives. The new edition contains a revised introduction highlighting the disaggregation of marriage and reproduction, new sections on third gender, nonbinary, and trans identities, new case studies on spiritual kinship, as well as explorations of genetic and ancestral kinship, paradigms, new reproductive technologies, and a more robust global perspective throughout. Pedagogical features include suggestions for classroom media, a glossary, an appendix, and downloadable PowerPoint slides. *Kinship and Gender: An Introduction* provides a broad yet nuanced introduction to the field and is essential reading for students taking their first steps into anthropology, gender studies, and sociology.

The Human Right to Water: Justice . . . or Sham? Evelyne Fiechter-Widemann, 2017-05-05 Water is a matter of life and death. Advanced technology and engineering enable humans to gain better access to it. Nonetheless, the conditions and effort required to reach this goal remain colossal in many countries. Building a lasting infrastructure for adequate treatment before and after use is costly. Therefore, the author believes that a radical change of thinking among people around the world, from the domestic to the large-scale users, becomes a priority. Even if the United Nations entitles all people to justice for water, more responsible and ethical use of it by all interested parties is more important than the spreading of promises which, in practice, may turn out to be a sham. Only a

better understanding that access to water rests on the efforts of everyone without exception will reduce overuse waste and pollution of the indispensable resource This volume while written from a theological philosophical and legal perspective focusing on John Calvin John Rawls and Paul Ricoeur demonstrates that water cannot be merely understood as a human right but also has to be dealt with from an economic point of view as well as under the authority of the Golden Rule **Exploring women's empowerment using a mixed methods approach** Doss, Cheryl, Rubin, Deborah, 2021-07-19 Interest in the meaning and measurement of women's empowerment has become a stated goal of many programs in international development This paper explores a collaborative process of studying women's empowerment in agricultural research for development using both quantitative and qualitative methods It draws on three bodies of research around empowerment growing interest in qualitative methods and measurement research especially the conceptualization and adaptations of the Women's Empowerment in Agriculture Index Employing mixed methods over more than a decade of cooperation among researchers from the Global South and the Global North has challenged the methods and findings of each approach The work has led to new insights about gender differences in what empowerment means to women and to men the importance of context interrelationships among dimensions of empowerment and the need for greater precision in terms and measures particularly around decision making asset ownership and time use Such collaborative research benefits from a long timeframe to build trust and shared understandings across disciplines The paper concludes with suggestions for the next phase of research Latin America at 200 Phillip Berryman, 2016-04-26 Between 2010 and 2025 most of the countries of Latin America will commemorate two centuries of independence and Latin Americans have much to celebrate at this milestone Most countries have enjoyed periods of sustained growth while inequality is showing modest declines and the middle class is expanding Dictatorships have been left behind and all major political actors seem to have accepted the democratic process and the rule of law Latin Americans have entered the digital world routinely using the Internet and social media These new realities in Latin America call for a new introduction to its history and culture which Latin America at 200 amply provides Taking a reader friendly approach that focuses on the big picture and uses concrete examples Phillip Berryman highlights what Latin Americans are doing to overcome extreme poverty and underdevelopment He starts with issues facing cities then considers agriculture and farming business the environment inequality and class race and ethnicity gender and religion His survey of Latin American history leads into current issues in economics politics and governance and globalization Berryman also acknowledges the ongoing challenges facing Latin Americans especially crime and corruption and the efforts being made to combat them Based on decades of experience research and travel as well as recent studies from the World Bank and other agencies Latin America at 200 will be essential both as a classroom text and as an introduction for general readers *The Anthropology of Parliaments* Emma Crewe, 2021-05-13 The Anthropology of Parliaments offers a fresh comparative approach to analysing parliaments and democratic politics drawing together rare

ethnographic work by anthropologists and politics scholars from around the world Crewe's insights deepen our understanding of the complexity of political institutions She reveals how elected politicians navigate relationships by forging alliances and thwarting opponents how parliamentary buildings are constructed as sites of work debate and the nation in miniature and how politicians and officials engage with hierarchies continuity and change This book also proposes how to study parliaments through an anthropological lens while in conversation with other disciplines The dive into ethnographies from across Africa the Americas Asia Europe the Middle East and the Pacific Region demolishes hackneyed geo political categories and culminates in a new comparative theory about the contradictions in everyday political work This important book will be of interest to anyone studying parliaments but especially those in the disciplines of anthropology and sociology politics legal and development studies and international relations **Exploring Political Ecology** Alexander M.

Ervin, 2024-08-30 This book explores some of the conditions and underlying causes of the multiple environmental crises facing humanity Rooted in anthropology but multidisciplinary in scope it surveys the many socio cultural and socio economic errors foibles and follies that brought us to these circumstances Crucially and uniquely it outlines an array of viable and practical solutions some of which are radically different from the current status quo and cultural expectations The first chapter canvasses the emerging interdisciplinary field of political ecology then Part I examines details and trends in agriculture Part II portrays the threats posed by carbon dependent and combusive technologies as well as the hydro and nuclear energy systems now powering the majority of human actions in developed parts of the world and expanding beyond The third part turns to consider solutions including green new deals de growth policies localization agroecology alternative energy systems and many more possibilities The conclusions engage with urgent moral and legal issues and outline social movement strategies all related to our collective neglect of climate change and then finally speculate upon possible futures This book is key reading for researchers and students interested in climate change across the social and physical sciences and humanities **Educational Psychology Australian Edition** Anita Woolfolk, Kay Margetts, 2012-07-25 Learning and teaching is an integrated process and theory and practice cannot be separated As in the previous Australasian edition Educational Psychology 3e continues to emphasise the educational implications and applications of child development cognitive science learning and teaching Recurring themes throughout the text include ideas about education social and socio cultural aspects of education schools families and community development learning and curriculum and effective teaching Author Kay Margetts incorporates Australasian perspectives and applications using the work of Australasian researchers and teachers Numerous examples case studies guidelines and practical tips from experienced teachers are used in the text to explore the connections between knowledge understanding and practice **Digination** Robert C. MacDougall, 2011-11-21

The shift from orality to literacy that began with the invention of the phonetic alphabet and which went into high gear with Gutenberg's printing press more than 500 years ago helped make the modern world Some commentators have argued that

this shift from orality to literacy marked a much broader cultural shift of cataclysmic proportions Today with everything from e mail to blogs iPods and podcasts through Google Yahoo eBay and with cutting edge smart phones we find ourselves developing relationships with these newest communication tools that aren t simply allowing us to communicate faster farther and with more ease than ever before We aren t just moving around ideas data and information at unimaginable speed and scale Our interminglings and fusions with digital communication technologies are also altering both individual and group consciousness in fundamental ways how we form and sustain relationships how we think and perceive what it means to see and to feel We are remaking human identity once more and manufacturing a new kind of culture along the way The processes bound up in our digination may well be consequential to the trajectory of human evolution That time honored trope the notion that technology is not the problem rather it s how people use technology that s the problem is shown to be wanting Highlighting Marshall McLuhan s tetrads or laws of media as a primary tool of analysis R C MacDougall argues in line with other media ecologists that it s not so much how we use certain tools that matters it s that we use them More than any other technological form perhaps communication technologies play particularly powerful and systemic roles in our culture or any culture for that matter Late adopters and even abstainers are not exempt from the psychological social and cultural effects and side effects of modern digital communication technology While there are certainly varying degrees of immersion that is to say while some of us live in the high rise downtown district some at the city limits and still others out in the proverbial woods we all live in Digation today

Sex, Sexuality, Law, and (In)justice Henry F. Fradella, Jennifer M. Sumner, 2016-02-26 Sex Sexuality Law and In Justice covers a wide range of legal issues associated with sexuality gender reproduction and identity These are critical and sensitive issues that law enforcement and other criminal justice professionals need to understand The book synthesizes the literature across a wide breadth of perspectives exposing students to law psychology criminal justice sociology philosophy history and where relevant biology to critically examine the social control of sex gender and sexuality across history Specific federal and state case law and statutes are integrated throughout the book but the text moves beyond the intersection between law and sexuality to focus just as much on social science as it does on law This book will be useful in teaching courses in a range of disciplines especially criminology and criminal justice history political science sociology women and gender studies and law

Robotic Persons Joshua K. Smith, 2021-02-26 Robotic Persons will introduce the evangelical community to the journey of Robotic Futurism and how current and forthcoming AI driven robots will impact human value and dignity This book will consider three key areas of robotic development and the existential risks on the horizon for humans in the fields of work war and sex There are risks in the fields of work because there is a temptation to replace human workers with automation Current arguments for the benefit of war fighting robots posit that these robots will eliminate war and the risk of war but there is much more to the story Arguments for sex and companion robots proffer that they will benefit the fringe community or help those who do not

have a relative to care for them but again there are many ethical and philosophical problems with these arguments Robotic Persons not only introduces the reader to these issues but also gives an evangelical response to each There is presently no evangelical work addressing these critical issues Robotic Persons will argue that granting legal personhood to qualified robots will further prevent dehumanizing use of robots and protect human dignity and value **Prempeh: Gender, Sexuality and Decolonization in** ,2023-06-02 Since the turn of the millennium in Ghana and in other African countries there has been a vociferous *Social Issues in Contemporary Native America* Hilary N. Weaver,2016-04-01 Hilary Weaver has drawn together leading Native American social workers researchers and academics to provide current information on a variety of social issues related to Native American children families and reservations both in the USA and in Canada Divided into four major sections each containing an introduction this book places the historical foundations of Native American social work in context in order to fully provide the reader with a comprehensive survey on various aspects of working with Native American families community health and wellness and community revitalization and decolonization This groundbreaking volume should be read by both educators and students in social work and other helping professions in the USA and Canada as well as all human service professionals working with Native Americans *The Personal and the Professional in Aid Work* Anne-Meike Fechter,2016-03-16 This book considers how the personal and the professional dimensions are related and how they matter for aid work The contributions to this edited volume are based on the assumption that all actors are relevant in development including national and international aid workers A key question which the book explores is why the personal so often remains unacknowledged in development studies even though its salience for aid workers is well documented One possible reason is an implicit narrative of aid work as altruistic and self sacrificing which renders it inappropriate to devote much attention to the experiences of development professionals themselves In order to redress this this book critically considers the kind of difference they make and aims to understand how they respond to the challenges of their work The book explores their efficacy as human beings and employees with individual subjectivities social and cultural beliefs and practices and documents how these shape their involvement in development processes This book was published as a special issue of Third World Quarterly
