Crusading Against Christians in the Middle Ages Mike Carr, Nikolaos G. Chrissis, Gianluca Raccagni, 2024-03-27 This is the first book length study into crusading against Christians examining this complex phenomenon from the twelfth to fifteenth centuries and across numerous regions from France to Russia and from southern Italy to the Baltic Whilst the crusades are an immensely popular topic those launched against Christian rulers and communities have been comparatively overlooked in the past with existing studies typically focusing on a particular area period or campaign This volume brings together the expertise of thirteen scholars on a variety of primary and secondary sources not often accessible to Anglophone readership as well as their knowledge of national discourses which have often shaped historiography It aims to serve as the first port of call for anyone who wishes to approach crusades against Christians within and without the specialism of crusader studies and to provide the basis for a thorough comparative analysis of this phenomenon covering its variety as comprehensively as possible

In Distant Lands Lars Brownworth, 2017-04-16 In the late fall of 1095 Pope Urban II gave a speech in Clermont France and set all of Europe into motion As many as a hundred and fifty thousand people eventually responded to the call leaving everything they knew behind to undertake what appeared to be a fool s mission marching several thousand miles into enemy territory to reconquer Jerusalem for Christendom Against all odds they succeeded creating a Christian outpost in the heart of the Islamic world that lasted for the better part of two centuries Perhaps no other period in history is as misunderstood as the Crusades and in this fast paced account bestselling author Lars Brownworth presents the entire story from the first clash of Christendom and Islam in the dusty sands of Yarmouk to the fall of the last crusader state Along the way he introduces the reader to an exotic world peopled by mighty emperors doomed Templars grasping generals and ambitious peasants Some of the most famous names of the Middle Ages Richard the Lionheart Saladin Eleanor of Aquitaine and the legendary Prester John illuminate this era of splendor adventure and faith Assassinations

Sicily and the Unification of Italy Lucy Riall,1998-03-12 This is the first in depth analysis of the impact of Italian unification on the hitherto isolated communities of rural Sicily Traditional explanations of Sicily s instability depict a society trapped by a feudal past Lucy Riall finds instead that many areas of the island were experiencing a period of rapid modernization as local government increased their organizational efforts Beginning with the period prior to the revolution of 1860 Dr Riall shows why successive attempts at political reform failed and analyses the effects of this failure She describes the bitter and violent conflict between rival elites and the mounting tide of peasant unrest which together threatened the status quo within the isolated communities of the Sicilian interior Through an examination of the problems of local government tax collection conscription the organization of policing and of attempts to suppress peasant disturbances and control crime she shows that the modernization of the Sicilian countryside both undermined the control of the central government and made the countryside itself more unstable
