Hypertheatre Olga Kekis, 2019-07-19 Hypertheatre Contemporary Radical Adaptation of Greek Tragedy investigates the adaptation of classical drama for the contemporary stage and explores its role as an active polemical form of theatre which addresses present day issues The book's premise is that by breaking drama into constituent parts revising reinterpreting and rewriting to create a new culturally and politically relevant construct the process of adaptation creates a hyperplay newly repurposed for the contemporary world This process is explored through a diverse collection of postmodern adaptations of Antigone Medea and The Trojan Women analysing their adaptive strategies and the evidence of how these remakings reflect the cultures of which they are a part Central to this study is the idea that each of these adaptations becomes an entirely new play redefining its central female figures and invoking reconfigurations of femininity which emphasise individual women's strengths and female solidarity Written for scholars of Theatre Adaptation Performance Studies and Literature Hypertheatre places the Greek classics firmly within a contemporary feminist discourse
