Anthony D Smith On Nations And National Identity A:

National Identity Anthony D. Smith, 1991 National identity is often cited as a contributing factor to many of the world's worst trouble spots for example the troubles in Israel Afghanistan and Bangladesh This book addresses the issue of how national identity differs from racial ethnic and regional identity *Anthony D. Smith on Nations and National Identity* Monserrat Guibernau, 2004 Rethinking Stateless Nations and National Identity in Wales and the Basque Country Sophie Williams, 2018-08-10 This book looks at the fundamental components of national identity as understood by ordinary nation members and the way in which it is mobilised by political elites Drawing on an original case comparison between Wales and the Basque Country the author suggests there are many commonalities between these two nations particularly around the fundamentals of their national identities However differences occur in terms of degree of intensity of feeling and around the politicisation of identity with more entrenched and hostile political positioning in the Basque Country than Wales Through a multi level comparison the book generates insights into national identity as a theoretical concept and in a stateless nation context It argues for national identity's intangible yet polemical nature looking at the primordialist way it is understood its permanence and importance coupled with its lack of everyday salience and consequent obligations **The Nation in History** Anthony D. Smith, 2014-01-23 In this thought provoking new book Anthony Smith analyses key debates between historians and social scientists on the role of nations and nationalism in history In a wide ranging analysis of the work of historians sociologists political scientists and others he argues that there are three key issues which have shaped debates in this field first the nature and origin of nations and nationalism second the antiquity or modernity of nations and nationalism and third the role of nations and nationalism in historical and especially recent social change Anthony Smith provides an incisive critique of the debate between modernists perennialists and primordialists over the origins development and contemporary significance of nations and nationalism Drawing on a wide range of examples from antiquity and the medieval epoch as well as the modern world he develops a distinctive ethnosymbolic account of nations and nationalism This important book by one of the world's leading authorities on nationalism and ethnicity will be of particular interest to students and scholars in history sociology and politics Raum und Nation in der polnischen Westforschung 1918-1948 Briesewitz, Gernot, 2014-01-01 Nationale Grenzkonflikte betreffen häufig nicht nur die politische Zugehörigkeit eines geographischen Raums sie betreffen auch dessen geistige Aneignung durch Akteure nationaler Diskurse als Teil der nationalen Identitätsstiftung Die vorliegende Monographie beschäftigt sich mit einem Beispiel an dem sich solche Konstruktionsprozesse von Raum entlang nationaler Kategorien gut beobachten lassen der polnischen Westforschung Vor dem Hintergrund der konfliktreichen Beziehungen zwischen Deutschland und Polen in der ersten Hälfte des 20. Jahrhunderts untersucht der Autor sowohl die Konstruktion wie auch Dekonstruktion nationalen Raums und nationaler mental maps durch den geographischen und historischen Zweig der zeitgenössischen polnischen Westforschung Thematisiert werden nicht nur bekannte

Raumkonstrukte wie das natürliche Polen oder die Mutterländer Polens sondern auch mental maps die sich auf einzelne Grenzregionen beziehen und deren Entwicklung bisher in der Forschung kaum behandelt worden ist. Der Autor arbeitet dabei die unterschiedlichen Entstehungsbedingungen und Funktionsgefüge der verschiedenen Raumkonzepte heraus und ordnet sie in ihren wissenschaftsgeschichtlichen Kontext ein. Die Arbeit verdeutlicht, dass die Westforschung zunächst von einem sehr heterogenen Raumdiskurs geprägt wurde, der sich erst im Zuge der Westverschiebung Polens homogenisierte. Die Untersuchung setzt darüber hinaus die Westforschung sowohl in Bezug zur zeitgenössischen polnischen wie auch zur deutschen Politischen Geographie und Geopolitik. Dadurch gelingt es, den untersuchten Raumdiskurs in eine transnationale Wissenschaftslandschaft einzuordnen und seine Spezifika aufzuzeigen, die ihn von der deutschen Geopolitik und Politischen Geographie unterscheiden.

Nationalism and Modernism Prof. Anthony D. Smith, 2013-04-15. The first major study in over three decades to explore the essential arguments of all the major theoretical interpretations of nationalism from the modernist approaches of Gellner, Nairn, Breuilly, Giddens and Hobsbawm to the alternative paradigms of van den Berghe and Geertz. Armstrong and Smith himself. In a style accessible to the student and the general reader, Smith traces the changing view of this hotly discussed topic within the current political, cultural and socioeconomic arena. He also analyses the contributions of such historians, sociologists and political scientists as Seton Watson, Reynolds, Hastings, Horowitz and Brass. The survey concludes with an analysis of post-modern approaches to national identity, gender and nation making. It is indispensable reading to all those interested in gaining full and authoritative knowledge of nationalism.

Nation and Identity Ross Poole, 2012-11-12. Nation and Identity provides a concise and comprehensive account of the place of national identity in modern life. Ross Poole argues that the nation became a fundamental organising principle of social, political and moral life during the period of early modernity and that it has provided the organising principle of much liberal, republican and democratic thought. Ross Poole offers us a new and urgently needed analysis of the concept of identity, arguing that we are now in a position to envisage the end of nationalism. We see that the impact of issues like multiculturalism, republicanism and indigenous rights have made it very difficult to see how the possibility of a postnational cosmopolitanism could not degenerate into a nihilistic moral universe. Nation and Identity will be a fascinating read for all those interested in issues of national identity, both politically and philosophically.

Zionismus und Authentizität Manja Herrmann, 2018-08-21. Das Konzept der Authentizität ist eines der zentralsten der Neuzeit. Die kulturhistorische Studie untersucht die Vorstellungen von einem authentischen jüdischen Selbst und einem authentischen Judentum im frühen deutschen zionistischen Diskurs. Entgegen der konventionellen Sicht, authentisch Jüdisches in die geokulturelle Einheit Ostens zu verorten, belegt sie das Vorhandensein distinkter jüdischer Authentizität im deutschsprachigen Raum. Die Darstellung beginnt mit der Veröffentlichung von Rom und Jerusalem von Moses Hess 1862 und reicht bis in das zweite Jahrzehnt des 20. Jahrhunderts. Diese Epoche ist besonders interessant, da in ihr die entscheidenden Begriffe für die Konstruktion einer deutsch-zionistischen Authentizität geprägt wurden.

wurden Die Konzepte von Authentizität kreisen um die Themen Antisemitismus Emanzipation und Anerkennung wurden jedoch auch politisiert und geschlechtsspezifisch ausgerichtet

Tod und Auferstehung einer Nation Marek Nekula, 2017-03-13 Das Pantheon verstanden als Gedächtnisort für die Großen eines Volkes spielt bei der Konstruktion und symbolischen Konstituierung von Nation eine bedeutende Rolle Das Buch untersucht die konkurrierenden und variierenden sprachnationalen und transethnischen Pantheons in den böhmisches Ländern Ruhmeshallen Begründungen und Denkmäler werden zu literarischen Pantheons in Beziehung gesetzt Funktion und Komposition von architektonischen Pantheons und Sammlungen von Biographien sind durchaus vergleichbar Dies gilt auch für die nationale Literaturgeschichte des 19. War, Nation and Europe in the Novels of Storm Jameson Katherine Cooper, 2020-04-16 The novels of Storm Jameson and their depictions of Britain's relationship to Europe around the Second World War represent a crucial departure from the work of her contemporaries As the first female President of English PEN Jameson led her country's wartime literary community through turbulent times in history by focusing on European rather than pointedly British experiences of war War Nation and Europe in the Novels of Storm Jameson is a timely critique situated within the historical and theoretical contexts so fundamental to understanding her work Presenting previously unpublished archival material that documents her work as an ambassador for British writers during a time of national upheaval Katherine Cooper reveals how the novelist's pacifism and evolving attitudes to war and peace were underpinned by her overarching vision for the post war world Drawing comparisons to the works of Virginia Woolf Arthur Koestler Graham Greene and others this study shows how Jameson's novels gesture towards prevalent internationalist perspectives and reshapes how we view the literary history of the period

Vikings across the Atlantic Daron W. Olson, 2012-12-11 Around the year 1000 a Viking ship landed on the Atlantic coast of what would one day be North America Nearly a millennium later on June 7 1945 Norway's King Haakon VII returned from exile under guard of the American Ninety ninth or Viking Battalion In *Vikings across the Atlantic* Daron W Olson reveals how these two moments form narrative poles for the vision of a Greater Norway that expanded the boundaries of the Norwegian nation Looking at matters of religion literature media and ethnicity Olson explores how Norwegian Americans

myths about themselves changed over time in relation to a broader Anglo American culture while at the same time influencing and being influenced by the burgeoning national culture of their homeland Beginning in the 1920s homeland Norwegian identity makers framed the concept of the Greater Norway which viewed the Norwegian nation as having two halves Norwegians who resided in the homeland and those who had emigrated from Norway especially those in America Far from being merely symbolic this idea Olson shows was actually tested by the ordeal of World War II when Norwegians the world over demonstrated their willingness to sacrifice and even die for the Greater Norway In its transnational approach Olson s book brings a new perspective to immigrant studies and theories of nationalism Vikings across the Atlantic depicts the nation as a larger community in which membership is constructed or imagined a status of belonging defined not by physical proximity but through qualities such as culture and shared traditions

Nationalism in Contemporary Europe Andrzej Marcin Suszycki, 2021 This book proposes a conceptualisation of nationalism with a multilevel operational character It offers three different perspectives on nationalism that consider both the discursive structure and the discursive agency of nationalism It also demonstrates a number of intra phenomenal and extra phenomenal constraints on nationalism This book underlines that nationalism in contemporary Europe should not be regarded in terms of methodological homogeneity and conceptual uniformity ideological rigidity or strategic consistency but rather as a contested segmented bounded and contextual phenomenon
