Together as One: Interfaith Relationships Between African Traditional Religion, Islam, and Christianity in Nigeria. Hyacinth Kalu,2011-06-16 The Nigerian religious landscape is characterized by series of violence leading to bloodshed loss of thousands of life and property worth billions of Naira This unfortunate situation raises much concern in the minds of well meaning Nigerians Hence this book raises such crucial questions as How can Nigeria remain a secular state and still maintain its plurality of religion and at same time survive disintegration because of religious violence conflict and intolerance How can followers of these different religions maintain their religious identity while at the same time co operating with one another in making Nigeria a home for all where all can worship God in freedom and peace This book offers hope in the midst of hopelessness it underscores the fact that though tribe and tongue may differ though religious differences exist Nigeria is still one sovereign nation Consequently the opening title Together as One resonates with the opening statements of the Constitution of the Federal Republic of Nigeria that professes unity harmony and peace as one indivisible and indissoluble sovereign nation under God This book finds the hope of reclaiming and rebuilding this unity and harmony threatened by religious violence in Interfaith Relationships between African Traditional Religion Islam and Christianity *Islamic Banking and Finance in the European Union* M. The Higher Objectives of Islamic Theology Mohammed Gamal Abdelnour, 2022 In The Higher Objectives of Islamic Theology Mohammed Gamal Abdelnour introduces a new field of inquiry to the Islamic tradition by basing it on a scheme of core values Truth Justice Beauty instead of a scheme of hudud penalties arguing that the tradition s current overemphasis on law justice has relegated both theology truth and Sufism beauty to the periphery of the tradition

Dialogue as an Imperative to

Ecumenical and Interreligious Problems in Nigeria Casmir Chimezie Obi, 2015-08-06 The Church is the Sacrament of Communion with God and unity among all men Cf Vatican II doc L G 1 Christ prayed for this unity amongst his adherents in accordance with the unity between him and God the Father Cf Jn 17 21 This unity will be a sign by which the outside world is to believe in him hence calling on the Church to rise up to this demand Efforts were made by the Church to respond to this demand but it was at the Second Vatican Council that the search for unity became an imperative With this Council the Church acknowledged the possibility of Salvation for the members of other Christian traditions and people of other religions The Church has done a lot to promote this unity through the teachings of the Magisterium and the activities of the recent Popes It is then important to study the situation of Nigeria where this call of the Vatican II has received scant response both in ecumenical and interreligious relations Having done pastoral work in places with interdenominational and interreligious rivalry in Nigeria I became concerned and worried The present religious crises in Nigeria has escalated to an issue of grave concern with the Boko Haram insurgency My motivation is to demonstrate the teaching of the Church regarding interdenominational and interreligious dialogue within Nigeria There has been no sustained effort to build bridges of religious unity in the country This research will demonstrate the necessity of ecumenical dialogue as a prelude to interreligious dialogue in Nigeria On the global level the need for various religions to foster relationships has become an imperative Two important bodies CAN and NIREC will be studied in this book The work aims at demonstrating the involvement of the Nigerian Christians and Muslims in ecumenical and interreligious dialogue Essentially concerned with the Catholic view of ecumenical and interreligious dialogue its application to the Nigerian situation No in depth study of the religions involved It is rather the fact of their existence the role dialogue will play with them to solve religious problems in Nigeria Though ATR was considered in this work but the issue of dialogue will only involve Nigerian Muslims Christians The research wishes to provoke further study on dialogue between ATR and any of the other two religions Two issues involved the reality importance of the Catholic teachings on ecumenical interreligious dialogue and their application to the Nigerian situation Key methods involved in this work are literary research and analysis through theological historical critical descriptive analytical expository approaches

Observing the Observer Zahid Bukhari, Sulayman Nyang, 2012-01-01 THE collection of papers in this volume documents the study of Islam in American Universities Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U S with Muslim countries migration of Muslims into the country conversion of Americans to Islam U S interests in Arab oil resources involvement of Muslims in the American public square and the tragic events of 9 11 Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration multiculturalism and political turmoil nevertheless the state of Islamic Studies in America is far from satisfactory The issue needs to be addressed particularly as the need for intelligent

debate and understanding is continuously stifled by what some have termed an Islam industry run primarily by fly by journalists think tank pundits and cut and paste experts *Religious Studies: The Key Concepts* Carl Olson, 2010-09-28 Religious Studies The Key Concepts is an accessible A Z resource defining and explaining key terms and ideas central to the study of religion Exploring broad and recurring themes which are applicable in both eastern and western religions cross cultural examples are provided for each term to give a comprehensive overview of the subject Subjects covered include afterlife comparative religion festivals ethics gender monotheism world religions modernity pilgrimage theism secularization With cross referencing and further reading provided throughout this book provides an inclusive map of the discipline and is an essential reference for all students academics and researchers *Comparative Law and Anthropology* James A.R. Nafziger, 2017-12-29 The topical chapters in this cutting edge collection at the intersection of comparative law and anthropology explore the mutually enriching insights and outlooks of the two fields Comparative Law and Anthropology adopts a foundational approach to social and cultural issues and their resolution rather than relying on unified paradigms of research or unified objects of study Taken together the contributions extend long developing trends from legal anthropology to an anthropology of law and from externally imposed to internally generated interpretations of norms and processes of legal significance within particular cultures The book s expansive conceptualization of comparative law encompasses not only its traditional geographical orientation but also historical and jurisprudential dimensions It is also noteworthy in blending the expertise of long established acclaimed scholars with new voices from a range of disciplines and backgrounds Traditional Islamic Environmentalism Tarik M. Quadir, 2013-09-16 This work examines the relevance of traditional Islamic thought and practices for a lasting solution to the current environmental crisis Quadir describes how Seyyed Hossein Nasr challenges Muslims to reclaim their traditional intellectual and Sufi heritage as powerful means toward a most thoughtful approach to the crisis In so doing Nasr urges us to take a critical look at the consequences of the worldviews generated by modern science and technology and offers bold solutions for a more caring relationship between man and nature The book argues that only a revival of the traditional worldview which perceives all entities of nature as signs of God can effectively respond to the crisis our planet faces *Religion in America* John Corrigan, Winthrop Hudson, 2015-08-07 This comprehensive narrative account of religion in America from 1607 through the present depicts the religious life of the American people within the context of American society It addresses topics ranging from the European Puritan origins of American religious thought the ramifications of the Great Awakening the effect of nationhood on religious practice and the shifting religious configuration of the late 20th century
