Nepal's 2072 federal constitution: Implications for the governance of the agricultural sector Kyle, Jordan, Resnick, Danielle, 2016-12-22. In this paper we explore the implications of Nepal's new federal Constitution passed in September 2015 for governance of the agricultural sector. Agriculture is the backbone of the Nepali economy providing a livelihood for approximately two thirds of the population contributing one third of the country's GDP and constituting more than half of the country's exports. In transitioning from a unitary to a federal republic with greater authority and autonomy granted to subnational units of government it is of paramount importance to ensure that the agricultural sector is guided by coordinated planning, retains sufficient human capacity and receives adequate fiscal resources. These considerations are particularly important given that the governance of Nepal's agricultural sector already suffers from poor coordination, low human resources capacity and inadequate financial resources. Addressing these issues may become more difficult under a federal structure. This paper begins by laying out the main challenges for agricultural governance in Nepal under the current structure. To do so it relies on an original survey of 100 district agricultural and livestock officers in charge of local agricultural service delivery in Nepal as well as perspectives collected through more than two dozen semi-structured interviews with officials from the Ministry of Agricultural Development, the Ministry of Livestock Development, civil society, the private sector and donors. Because Nepal is embarking on a pathway to more decentralized governance which has been well trodden by a number of other countries, the paper proceeds by examining five case studies drawing lessons from India, Indonesia, Kenya, Malaysia, and South Africa. Based on these analyses, the paper offers policy recommendations on how the sector can be restructured to meet the constitutional provisions while simultaneously ensuring that the government can deliver on its long term objectives to develop the agricultural sector.

Routledge Handbook on Elections in the Middle East and North Africa Francesco Cavatorta, Valeria Resta, 2023-03-31. This Handbook analyzes elections in the Middle East and North Africa and seeks to overcome normative assumptions about the linkage between democracy and elections. Structured around five main themes, contributors provide chapters detailing how their case studies illustrate specific themes within individual country settings. Authors disentangle the various aspects informing elections as a process in the Middle East by

taking into account the different contexts where the electoral contest occurs and placing these into a broader comparative context The findings from this Handbook connect with global electoral developments empirically demonstrating that there is very little that is exceptional about the Middle East and North Africa when it comes to electoral contests Routledge Handbook on Elections in the Middle East and North Africa is the first book to examine all aspects related to elections in the Middle East and North Africa Through such comprehensive coverage and systematic analysis it will be a key resource for students and scholars interested in politics elections and democracy in the Middle East and North Africa **Probing Galaxy**

Evolution by Unveiling the Structure of Massive Galaxies Across Cosmic Time and in Diverse Environments

Timothy Weinzirl,2014-07-17 Awarded the American Astronomical Society AAS Rodger Doxsey Travel Prize and with a foreword by thesis supervisor Professor Shardha Jogee at the University of Texas at Austin this thesis discusses one of the primary outstanding problems in extragalactic astronomy how galaxies form and evolve Galaxies consist of two fundamental kinds of structure rotationally supported disks and spheroidal triaxial structures supported by random stellar motions Understanding the balance between these galaxy components is vital to comprehending the relative importance of the different mechanisms galaxy collisions gas accretion and internal secular processes that assemble and shape galaxies Using panchromatic imaging from some of the largest and deepest space based galaxy surveys an empirical census of galaxy structure is made for galaxies at different cosmic epochs and in environments spanning low to extremely high galaxy number densities An important result of this work is that disk structures are far more prevalent in massive galaxies than previously thought The associated challenges raised for contemporary theoretical models of galaxy formation are discussed The method of galaxy structural decomposition is treated thoroughly since it is relevant for future studies of galaxy structure using next generation facilities like the James Webb Space Telescope and the ground based Giant Magellan Telescope with adaptive optics **Phrase Structure in Natural Language** M.J. Speas,2012-12-06 **Peace Guerilla** Ben Hoffman,2009

Peace Guerilla is a vivid memoir that illuminates the process of dealing with fearsome brutal leaders one would be afraid to have dinner with and why we should do so There is tension when Hoffman as President Jimmy Carter s representative travels deep into the African bush in Sudan to meet face to face with Joseph Kony a violent war lord who was abducting children in Uganda to be soldiers in his Lord s Resistance Army and terrorizing the population There are insights on every page on topics ranging from negotiating techniques US diplomacy and the emotional intellectual and technical effort required to mediate high stakes peace agreements And there is the heartbreak of failure and its tragic consequences Hoffman discovers that a mediator must discard neutrality in favour of a bias for peaceful agreement A mediator must wage peace with the same intensity and creative tactics as the guerilla fighter pursues violent domination At the heart of it all is the challenge of transforming power from violence to peace and that in turn brings our values into sharp focus Peace Guerilla is exciting instructive and conveys a sense of immediacy which is nearly cinematic Some parts of Ben Hoffman s story will be featured in

Their findings weigh the successes and failures of this particular approach to conflict resolution and draw conclusions about the conditions under which such interactive approaches work as well as assess the audience and the methodologies used This work features research conducted in conjunction with the Working Group on Preventing and Rebuilding Failed States convened by the Wilson Center s Project on Leadership and Building State Capacity
