Britannica Book of the Year 2014 Encyclopaedia Britannica, Inc., 2014-03-01 The Britannica Book of the Year 2014 provides a valuable viewpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world It is an accurate and comprehensive reference that you will reach for again and again Mildred Trotter and the Invisible Histories of Physical and Forensic Anthropology Emily Wilson, 2022-04-11 In the wake of World War II anatomist and anthropologist Mildred Trotter left the Midwest for a temporary post as the forensic anthropology expert for the Army in the Territory of Hawaii Her formidable task was to identify the remains of war dead in order to return them to their families in a national effort that continues to this day Mildred Trotter and the Invisible Histories of Physical and Forensic Anthropology is the first long overdue biography on this woman of immense stature in her field She was the first woman to serve as President of the American Association of Physical Anthropologists and the first woman to be full professor at the Washington University School of Medicine in St Louis While primarily a biography of Trotter this book also examines aspects that are so often left out of retrospectives of science and scientific figures This includes scientific error the historical experiences of the few women and individuals from other marginalized groups active in the discipline sexism and scientific and social racism This

book also provides novel historical context regarding her major and now well known tibia mismeasurement Mildred Trotter and the Invisible Histories of Physical and Forensic Anthropology is a must read for anyone interested in the history of science and women in science and for all practicing and aspiring biological and forensic anthropologists *How Real Is Race?* Carol C. Mukhopadhyay, Rosemary Henze, Yolanda T. Moses, 2013-12-11 How real is race What is biological fact what is fiction and where does culture enter What do we mean by a colorblind or postracial society or when we say that race is a social construction If race is an invention can we eliminate it This book now in its second edition employs an activity oriented approach to address these questions and engage readers in unraveling and rethinking the contradictory messages we so often hear about race The authors systematically cover the myth of race as biology and the reality of race as a cultural invention drawing on biocultural and cross cultural perspectives They then extend the discussion to hot button issues that arise in tandem with the concept of race such as educational inequalities slurs and racialized labels and interracial relationships In so doing they shed light on the intricate dynamic interplay among race culture and biology For an online supplement to How Real Is Race Second Edition click here *Annual Editions Anthropology* Elvio Angeloni, 2002

**Zeroing In on the Year 2000** George E. Marcus, 2000-09-15 Late Editions 8 is the final volume in the annual series devoted to documenting the diverse social and cultural transitions of the fin de si cle just past into the twenty first century Through the innovative use of conversations and interviews this series has ranged over many topics in many places including corporations media science and technology government political culture journalism and social movements always offering access to the points of view and experiences of people engaged in crucial processes of change The book begins with a fascinating at times poignant look back at the inception and progress of the series in which the contributors reflect on how the shifting contexts for the production and reception of the series has been a reliable barometer of the profound ways in which traditional forms of knowledge about society are changing Then appropriate to the end of the century and of the series the focus turns to pieces that deal with social phenomena that evoke the value of zero They explore the idea of a zero state as it relates to artificial intelligence euthanasia cryonics money and the disappearing idea of society itself in the discourse of contemporary politics Far from being the loss of meaning the consideration of zero entails the proliferation of meaning in the face of voids absences and ultimately of puzzles like the contemplation of death in life In this way so many of the fin de si cle conditions that have been documented in this series have exemplified precisely this quest for meaning at or near zero points of change of ends and beginnings in social life [RRB Junior Stenographer Recruitment Exam Book \(English Edition\) |](#)
