The Anthropology of Religion, Magic, and Witchcraft Rebecca L. Stein, Philip L. Stein, Benjamin R. Kracht, Marjorie M. Snipes, 2024-07-16 This concise and accessible textbook introduces students to the anthropological study of religion. It examines religious expression from a cross-cultural perspective and exposes students to the complexities of religion in small-scale and complex societies. The chapters incorporate key theoretical concepts and a wide range of ethnographic material. The fifth edition of *The Anthropology of Religion Magic and Witchcraft* offers a revised introduction covering the foundations of the anthropology of religion, anthropological methods, and a push toward decolonizing the anthropology of religion. It includes expanded coverage of symbols, healing, wizardry, and the intersections of religion with other social institutions. New case study material with examples drawn from around the globe, especially from Indigenous communities, is included. Marginalia in each chapter introducing provocative small case examples related to the chapter; many of these can be used as prompts for further research. Small in-class case studies or examples for hands-on learning. A new chapter on religion and healing, especially useful for Anthropology programs without representation of four fields, as it provides a wider and more interdisciplinary application of the discipline. A consistent review of foundations from chapter to chapter, linking material and enabling students to connect what they are learning throughout the course and further resources via a comprehensive companion website including interactive activities, critical case studies, updated study questions, bibliographical suggestions, including video and color images. This is an essential guide for students encountering the anthropology of religion for the first time and also for those with an ongoing interest in this fascinating field.

Wordsworth, Shelley and Keats Firat Karadas, 2008 The book studies metaphor myth and their imaginative aspects in the poetry of William Wordsworth Percy Bysshe Shelley and John Keats Relying on Kantian Romantic Neo Kantian and modern ideas of imagination metaphor and myth the book proposes that imagination is an inherently metaphorizing and mythologizing faculty because the act of perception is an act of giving form to natural phenomena and seeing similitude in dissimilitude which are basically metaphorical and mythological acts Studying selected poems the author explores how in its form giving activity the imagination of the speaking subject mythologizes and metaphorizes by seeing objects of nature as spiritual animate or divine beings and thus transforming them into the alien territory of myth Myth and metaphor are analyzed in these poems mainly in two regards first myth and metaphor are handled as inborn aspects of imagination and

perception and the interaction between nature and imagination is presented as the origin of all mythology second to show how myth is re created time and again by poetic imagination Romantic mythography and re creation of precursor mythologies are analyzed *Invitation to Anthropology* Luke Eric Lassiter, 2008-12-16 A newer edition of this book is available for ordering at the following web address <https://rowman.com> ISBN 9780759122543 Luke Eric Lassiter s concise introductory text to cultural anthropology offers a fresh and accessible approach for students His message about the relevance of anthropology is timely and engaging and illustrates the varied and valuable applications of the anthropological perspective for real world problems on the local regional and global scale This book is an ideal text for undergraduate students and can be easily supplemented with case studies in anthropology
