Iconophages Jérémie Koering, 2024-08-20 An unprecedented art historical account of practices of image ingestion from ancient Egypt to the twentieth century Eating and drinking images may seem like an anomalous notion but since antiquity in the European and Mediterranean worlds people have swallowed down frescoes icons engravings eucharistic hosts stamped with images heraldic wafers marzipan figures and other sculpted dishes Either specifically made for human consumption or diverted from their original purpose so as to be ingested these figured artifacts have been not only gazed upon but also incorporated taken into the body as solids or liquids How can we explain such behavior Why take an image into one's own body devouring it at the risk of destroying it consuming rather than contemplating it wisely from a distance What structures of the imagination underlie and justify these desires for incorporation What are the visual configurations offered up to the mouth and what are their effects What therapeutic religious symbolic and social functions can we attribute to these forms of relations with icons These are a few of the questions raised in this investigation into iconophagy *Iconophages* aims to retrace for the first time the history of iconophagy Jérémie Koering examines this unexplored facet of the history of images through an interdisciplinary approach that ranges across art history cultural and material history anthropology philosophy and the history of the body and the senses He analyzes the human investment in terms of culture and imagination at stake in this seemingly paradoxical way of experiencing images Beyond the hidden knowledge unearthed here these pages bring to light a new way of understanding images just as they illuminate the occasionally outlandish relations we maintain with them
