Ang munting prinsipe Antoine de Saint-Exupéry,1969 **Grammatikalisierung und grammatische Kategorien** Thomas Stolz,2008 **Bibliography of Filipino Novels, 1901-2000** Patricia May B. Jurilla,2010 The most comprehensive bibliography of Filipino novels compiled so far this book lists novels in Tagalog Filipino Tagalog Filipino translation and English published in the Philippines during the twentieth century **Postcolonial Language Varieties in the Americas** Danae Maria Perez,Eeva Sippola,2021-06-08 In the Americas both indigenous and postcolonial languages today bear witness of massive changes that have taken place since the colonial era However a unified approach to languages from different colonial areas is still missing The present volume studies postcolonial varieties that emerged due to changing linguistic and sociolinguistic conditions in different settings across the Americas The studies cover indigenous languages that are undergoing lexical and grammatical change due to the presence of colonial languages and the emergence of new dialects and creoles due to contact The contributions showcase the diversity of approaches to tackle fundamental questions regarding the processes triggered by language contact as well as the wide range of outcomes contact has had in postcolonial settings The volume adds to the documentation of the linguistic properties of postcolonial language varieties in a socio historically informed framework It explores the complex dynamics of extra linguistic factors that brought about the processes of language change in them and contributes to a better understanding of the determinant factors that lead to the emergence and evolution of such codes **Pass or Fail 2** Ronald Molmisa,2015-09-15 After makuha ang diploma ano na OK lang na pagkagraduate ay bumawi ka muna sa tulog from your many sleepless nights kakatapos ng requirements pero wag maiwang natutulog sa pansitan Young person welcome to the real world of getting no more allowance and paying your own bills Eto na ang moment mo to shine Prove to yourself and to others na kaya mo nang tumayo sa sarili mong mga paa And with God by your side who knows kung gaano kalayo ang mararating mo *Japanese Animation in Asia* Marco Pellitteri,Wong Heung-wah,2021-09-28 Anime is a quintessentially Japanese form of animation consisting of both hand drawn and computer generated imagery and is often characterised by colourful graphics vibrant characters and fantastical themes As an increasingly globalising expression of popular art and entertainment and distributed through cinema television and over the internet anime series and films have an enormous following not only in Japan but also in Asia This book provides a comprehensive survey of the historical development industrial structure and technical features of Japanese animation and of the overall dynamics of its globalisation in key contexts of the Asian region Specific chapters cover anime s production logics its features as an emotion industry and the involvement of a range of Asian countries in the production consumption and cultural impact of Japanese animation *Nimble Tongues* Steven G. Kellman,2020-02-15 *Nimble Tongues* is a collection of essays that continues Steven G Kellman s work in the fertile field of translingualism focusing on the phenomenon of switching languages A series of investigations and reflections rather than a single thesis the collection is perhaps more akin

in its aims if not accomplishment to George Steiner's Extraterritorial Papers on Literature and the Language Revolution or Umberto Eco's Travels in Hyperreality Topics covered include the significance of translingualism translation and its challenges immigrant memoirs the autobiographies that Ariel Dorfman wrote in English and Spanish respectively the only feature film ever made in Esperanto Francesca Marciano an Italian who writes in English Jhumpa Lahiri who has abandoned English for Italian Ilan Stavans a prominent translingual author and scholar Hugo Hamilton a writer who grew up torn among Irish German and English Antonio Ruiz Camacho a Mexican who writes in English and the Universal Declaration of Human Rights as a multilingual text

Spatial Interrogatives in Europe and Beyond Thomas Stolz, Nataliya Levkovych, Aina Urdze, Julia Nintemann, Maja Robbers, 2017-08-07 The extant generalizations about the grammar of space rely heavily on the analyses of declarative sentences There is a need to check whether these generalizations also hold in the domain of interrogation To this end this book analyzes data from some 450 languages including non standard varieties The focus is on paradigms of spatial interrogatives such as English where whither and whence and their internal organization These paradigms are checked for recurrent patterns of morphological mismatches such as syncretism and different degrees of complexity e.g. the number of segments The data base consists of a large parallel literary corpus Le petit prince and translations thereof which is complemented by further sources of information such as descriptive grammars The data are analyzed from a synchronic perspective However diachronic issues are addressed unsystematically too It is shown that the distribution of phenomena which characterize paradigms of spatial interrogatives are subject to areal linguistic factors This is the first typological study of spatial interrogatives It provides new insights for students of the grammar of space morphological paradigms and language typology

Here - Hither - Hence and Related Categories Julia Nintemann, Maja Robbers, Nicole Hober, 2020-07-20 As a follow up study to the global comparison of spatial interrogatives *Studia Typologica* 20 the present book examines the spatial declarative counterparts which are provided by the expression class of spatial deictic adverbs In a functionally motivated typological approach equivalents of Early Modern English here hither hence and there thither thence are identified across a sample of 250 languages from all macro areas These are also quantitatively assessed to extrapolate areal and global trends of coding patterns The formal relationships between spatial interrogative and spatial declarative paradigms are analyzed with a focus on the syncretism of categories and of individual cells Qualitative discussions of patterns precede in depth treatments of problematic cases and other relevant issues related to the research topic The quantitative results strongly point to areal linguistic trends concerning the distribution of distinct and non distinct coding of the three spatial relations Place Goal and Source Additional aspects such as quantitative evaluations of constructional complexity are addressed subsequently

Competing Comparative Constructions in Europe Thomas Stolz, 2013-10-24 This in depth areal typological study analyzes the grammatical means which are employed in the languages of Europe to express the comparative of inequality superiority The extant theories and hypotheses about the morphosyntactic

structure and the cross linguistic distribution of construction types are reviewed The behavior of comparatives under the conditions of language contact is discussed Data from more than 170 standard and nonstandard varieties of European languages are scrutinized systematically The synchronic picture is complemented by a chapter on the diachrony of comparative constructions The European facts are compared to those of the geographically adjacent Asian and African regions It is argued that cross linguistic investigations must take account also of so called secondary options These secondary options suggest strongly that the supposedly dominant role of the particle comparative cannot be upheld for Europe Moreover only the secondary options allow us to draw isoglosses which cross the borders between Europe and Asia and Africa
