Animal Rights And Human Obligations By Tom Regan:

Animal Rights and Human Obligations Tom Regan, Peter Singer, 1976 Collection of historical theoretical and applied articles on the ethical considerations in the treatment of animals by human beings *Defending Animal Rights* Tom Regan, 2001 He puts the issue of animal rights in historical context drawing parallels between animal rights activism and other social movements including the anti slavery movement in the nineteenth century and the gay lesbian struggle today He also outlines the challenges to animal rights posed by deep ecology and ecofeminism to using animals for human purposes and addresses the ethical dilemma of the animal rights advocate whose employer uses animals for research BOOK JACKET

The Animal Rights/Environmental Ethics Debate Eugene C. Hargrove, 1992-01-01 Reprints 11 articles and chapters of books that document the environmental ethics view of the animal rights movement exploring whether animal welfare considerations can provide a basis for an environmental ethic Offered as a view of wildlife to complement and challenge at times the animal rights literature which focuses on domestic animals and subjects of experiments Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR *The Feminist Care Tradition in Animal Ethics* Josephine Donovan, Carol J. Adams, 2007 In *Beyond Animal Rights* Josephine Donovan and Carol J Adams introduced feminist ethic of care theory into philosophical discussions of the treatment of animals In this new volume seven essays from *Beyond Animal Rights* are joined by nine new articles most of which were written in response to that book and a new introduction that situates feminist animal care theory within feminist theory and the larger debate over animal rights Contributors critique theorists reliance on natural rights doctrine and utilitarianism which they suggest have a masculine bias They argue for ethical attentiveness and sympathy in our relationships with animals and propose a link between the continuing subjugation of women and the human domination of nature Beginning with the earliest articulation of the idea in the mid 1980s and continuing to the theory's most recent revisions this volume presents the most complete portrait of the evolution of the feminist care tradition *The Philosophy of Animal Rights*, **Teaching the Animal**, *Animal Rights* Clare Palmer, 2017-05-15 Do animals have moral rights If so which ones How does this affect our thinking about agriculture and experimentation If animals have moral rights should they be protected by law These are some of the questions addressed in this collection which contains more than 30 papers spanning nearly 40 years of debates about animal rights It includes work by leading advocates of animal rights both in philosophy and law as well as contributions by those resolutely opposed to the very idea of animal rights A substantial Introduction surveys key arguments in the area and puts the papers in context

Mensch - Tier - Ethik im interdisziplinären Diskurs Annette Förster, Wulf Kellerwessel, Carmen Krämer, 2016 Die Beziehungen zwischen Menschen und nichtmenschlichen Tieren sind außerordentlich wichtig und vielschichtig Es gab und gibt Beziehungen zu beiderseitigem Vorteil aber überwiegend waren und sind diese Relationen mit schwerwiegenden Nachteilen für die Tiere verbunden Diese Beziehungen stehen im Mittelpunkt der Human Animal Studies rücken aber zu

Recht zunehmend auch in den Fokus der Tierethik und der Politischen Theorie Der interdisziplinäre Sammelband enthält Aufsätze die sich kritisch mit verschiedenen Mensch-Tier-Verhältnissen befassen **Animal Rights, Human Wrongs** Tom Regan, 2003-11-22 What gives an animal rights What makes product testing on animals wrong In *Animal Rights Human Wrongs* prominent activist and philosopher Tom Regan skillfully puts forth the argument for animal rights through the exploration of two questions central to moral theory What makes an act right What makes an act wrong Taking into consideration moral theories such as contractarianism utilitarianism and Kantian ethics Regan provides the theoretical framework that grounds a responsible pro animal rights perspective and ultimately explores how asking moral questions about other animals can lead to a better understanding of ourselves The necessity of making a transition from moral theory to moral practice becomes startlingly clear as Regan examines the commonplace everyday choices that would be affected by believing in a moral theory that affirms the rights of animals For the many people who have ever wondered what difference does it make if animals have rights *Animal Rights Human Wrongs* provides a provocative and intriguing answer For a discussion of animal rights tailored to a more general audience see *Empty Cages Facing the Challenge of Animal Rights* Rowman Littlefield 2003 **Handbuch Tierethik** Johann S. Ach, Dagmar Borchers, 2018-11-23 Das Handbuch führt ein in zentrale Begriffe Konzeptionen Themen und Problemfelder der Tierethik Neben der Geschichte der Tierethik relevanten Konzepten und Theorien sowie einer Bandbreite unterschiedlicher Anwendungskontexte findet sich auch eine Darstellung der Tierphilosophie und ihrer wichtigsten Fragestellungen Das Handbuch will darüber hinaus auch die sich in aktuellen Diskussionen und Kontroversen abzeichnenden Perspektiven der Tierethik umfassend vorstellen Ziel des Handbuchs ist es das breite Spektrum inhaltlicher und begrifflicher Aspekte der historischen und gegenwärtigen Tierethik zu reflektieren und einen Einblick in den aktuellen Diskussionsstand zu geben **Tierethik transdisziplinär** Björn Hayer, Klarissa Schröder, 2018-12-12 Nur selten zuvor war es um Mensch-Tier-Verhältnisse derart schlecht bestellt wie in der Spätmoderne Insbesondere die Potenzierung des Leidens durch die industrialisierte Landwirtschaft wirft zentrale Fragen der Tierethik auf einem philosophischen Diskursfeld das innerhalb der Human Animal Studies von zentraler Bedeutung ist Die in ihm miteinander im Wettstreit befindlichen Theorien strahlen zum einen direkt in die Gesellschaft aus zum anderen begünstigen sie die Entwicklung neuer Sichtweisen auf Gegenstände der Kultur und Literaturgeschichte Dieser Grundlagenband versammelt Beiträge welche das interdisziplinäre Forschungsfeld wissenschaftlich und didaktisch ausloten **The Rights of Nature** Roderick Frazier Nash, 1989-01-17 Charting the history of contemporary philosophical and religious beliefs regarding nature Roderick Nash focuses primarily on changing attitudes toward nature in the United States His work is the first comprehensive history of the concept that nature has rights and that American liberalism has in effect been extended to the nonhuman world A splendid book Roderick Nash has written another classic This exploration of a new dimension in environmental ethics is both illuminating and overdue Stewart Udall His account makes history come alive Sierra So
