

Financial Highlights

More than 30 years ago, IKEA founder Ingvar Kamprad was considering different options to finance future growth. He wanted total independence and an ownership structure that would support a long-term perspective. He believed that the resources needed for future IKEA development had to be based on savings and what had been created through the IKEA business. Therefore, the stock market was not an option. Instead, the IKEA franchise operation was established in the early 1980s. The idea was developed to be able to always act and react in the best interest of the IKEA Concept and the many people.
