ABSTRACT

Five Libyan medicinal plants *Thapsia garganica*, *Hammada scoparia*, *Euphorbia serrata*, *Hyoscyamus albus* and *Retama rateam* were selected to evaluate their biological activities. Their total phenolic and flavanoid contents were assessed. The antioxidant activity was estimated using 2, 2-diphenyl-1-picrylhydrazyl (DPPH) as free radical scavenger. Their crude extracts showed reducing potential proportional to their concentration. The correlation coefficient (R^2) between antioxidant activity and their total phenolics and flavanoids content is 0.77 and 0.98 respectively. Crude aqueous, methanolic as well as alkaloids extracts of the five plants were tested against a number of G+ve and G-ve sensitive resistant (e.g MRSA) bacteria beside some fungal species. The aqueous extracts displayed weak antibacterial activity whereas methanolic extracts were profoundly effective against both G+ve and G-ve bacteria. The extracts of *E. serrata* and *H. scoparia* were highly effective against *E. coli* in particular. The alkaloid-rich extracts of *H. albus* and *H. scoparia* induced remarkable bacteriostatic and fungistatic effects. The bioactive ingredients of *H. scoparia*, *E. serrata* and *R. rateam* extracts are shown to be potential sources of natural antioxidant and antimicrobial ingredients favoring their possible use in industrial pharmacology on large scale.

Keywords: Medicinal Plants; Flavonoids; Free Radical Scavenging Capacity; Antioxidant; Phenolics; Antibacterial; Antifungal

1. INTRODUCTION

Medicinal plants MP have been used in folk medicine in Libyan rural areas at relatively cheaper expenses than modern medicine. They have been widely used as diuretics, topical anti-inflammants, and haemostatics [1]. Plants generally produce several secondary metabolites like phe-

nols, flavonoids, quinones, tannins, alkaloids, saponins, and sterols which are important sources of biocides and many other pharmaceutical drugs [2-8]. Medicinal plants are important in pharmacological research and drug development [9]. The most important secondary plant metabolites are phenols and flavonoids [10,11], they have distinctive biological activity as natural antioxidants which exceed many other synthetic ones [12].

Antioxidants are used to preserve food quality mainly because they arrest oxidative deterioration of lipids [13, 14]. Moreover, the exploration of naturally occurring antimicrobials for food preservation receives increasing attention due to consumer awareness of natural food products and a growing concern of microbial resistance towards conventional preservatives [15]. These factors have inspired the widespread screening of new plant species for possible medicinal and antioxidant properties, while the isolation and characterization of diverse phytochemicals [16,17].

The relationship between oxidative stress and antioxidants is very often explained in a very simple manner. First, reactive oxygen species (ROS) are reacted together as one functional entity producing destruction compounds such as secondary lipid peroxidation products. However, there are many different ROS that have separate and essential roles in normal physiology and are required for a variety of normal processes. Toxic reactive oxygen (ROS) can be produced by many sources such as ultra violet radiation (UV) and heat from sunlight. These species are substantially reactive and interact with a number of cellular molecules and metabolites thereby leading to a number of destructive processes causing cell damage and neurodegenerative diseases [18]. The aim of this study was to evaluate *in vivo* antioxidant as well as the antibacterial and antifungal properties of crude methanolic and alkaloid extracts of some Libyan medicinal plants.

2. MATERIALS AND METHODS

2.1. Plant Collection and Materials

Shade-dried leaves of *Euphorbia serrata*, *Retama rae-*

Antioxidant And Antimicrobial Properties Of Five Medicinal

Antioxidant And Antimicrobial Properties Of Five Medicinal:

Essentials of Medicinal and Aromatic Crops Muhammad Zia-Ul-Haq, Arwa Abdulkreem AL-Huqail, Muhammad Riaz, Umar Farooq Gohar, 2023-10-09 Medicinal and aromatic crops MACs are high value crops since the natural products obtained from them are low volume high value commodities that have numerous applications in various sectors such as the food beverage food supplement flavor and fragrance perfumery and cosmetics pharmaceutical and aromatherapy industries In addition the plant biomass is used in the production of teas and medical applications in traditional and also modern medicines MACs are important mainly because they contain plant secondary metabolites such as essential oils alkaloids glycosides saponins tannins vitamins and other bioactives Plant secondary metabolites are differentiated from plant primary metabolites of photosynthesis and respiration since they are directly involved in growth and development of plants Some MACs are used as spices and culinary herbs since they contain mainly essential oils and are used as tonic to the digestive system appetite modification and other systems and may facilitate nutrient uptake and utilization from various foods A significant amount of MACs and their natural products have also demonstrated antimicrobial antifungal and bactericidal activity and significant antioxidant capacity In the past MACs and their natural products have been used as a source for various medicines in food and beverage production and in aroma products *Essentials of Medicinal and Aromatic Crops* summarizes the current knowledge on medicinal and aromatic crops including the agronomical practices of important MACs and their products their beneficial effects and utilization of MAP and their products The chapters provide a comprehensive guide to the most important and used medicinal and aromatic crops and their use in functional foods nutraceuticals and as bioactives against various ailments providing researchers teachers chemists food scientists agronomists and agroecologists in academia industry and government a fully up to date singular source on this important topic **Plants as a Source of Natural**

Antioxidants Nawal Kishore Dubey, 2014-12-18 A comprehensive overview of both traditional and current knowledge on the health effects of plant based antioxidants this book reviews medicinal and aromatic plants from around the world It covers the different sources of antioxidants including essential oils algae and marine microorganisms as well as the role of abiotic and biotic stresses endophytes transgenic approaches in scavenging ROS and antioxidant plants used in different therapeutic systems *Antibacterial Drug Discovery to Combat MDR* Iqbal Ahmad, Shamim Ahmad, Kendra P. Rumbaugh, 2019-11-09

This book compiles the latest information in the field of antibacterial discovery especially with regard to the looming threat of multi drug resistance The respective chapters highlight the discovery of new antibacterial and anti infective compounds derived from microbes plants and other natural sources The potential applications of nanotechnology to the fields of antibacterial discovery and drug delivery are also discussed and one section of the book is dedicated to the use of computational tools and metagenomics in antibiotic drug discovery Techniques for efficient drug delivery are also covered The book provides a comprehensive overview of the progress made in both antibacterial discovery and delivery making it a

valuable resource for academic researchers as well as those working in the pharmaceutical industry ABSTRACT BOOK of I. INTERNATIONAL CONGRESS ON MEDICINAL AND AROMATIC PLANTS , Dear Academicians Readers and Educators We are pleased to present the issue of the International Journal of Secondary Metabolite as a special issue entitled I International Congress on Medicinal and Aromatic Plants Natural And Healthy Life This special issue contains some of scientific studies presented in the congress Hosting the I International Medical and Aromatic Plant Congress held in Konya on 9-12 May 2017 by the cooperation of the Ministry of Forestry and Water Affairs General Directorate of Forestry and Necmettin Erbakan University was a great honor for us The total number of abstract submission for the congress was 1923 After the scientific evaluation 85 abstracts were rejected and 244 abstracts were withdrawn As a result a total of 1594 abstracts were accepted for presentation 280 of them as oral presentation and 1314 as poster presentation 2604 authors were contributed and 1543 participants were participated to the congress The studies presented in the congress was electronically shared in terms of accessibility The authors of 220 papers presented in the congress submitted to the International Journal of Secondary Metabolite for publication 70 of them were published and 150 full papers were rejected due to revision deadline reviewing process etc after reviewing process I would like to special thank to the Journal founder for publishing and also to the editor editorial board and authors for contributing this issue Best regards Dr Muzaffer EKER Rector of Necmettin Erbakan University TC Orman ve Su leri Bakanl Orman Genel Md r l ve Necmettin Erbakan niversitesi payda l nda Necmettin Erbakan niversitesi ev sahipli inde 9-12 May s 2017 tarihlerinde Konya da ger ekle tirilen I Uluslararası T bbi ve Aromatik Bitkiler Kongresi nin a l program Orman ve Su leri Bakan Say n Prof Dr Veysel Ero lu Sa l k Bakan Prof Dr Recep Akda Milletvekilleri Konya Valisi Yakup Canbolat Konya B y k ehir Belediye Ba kan Tahir Aky rek Afyon Kocatepe niversitesi Rekt r Prof Dr Mustafa Solak Necmettin Erbakan niversitesi Rekt r Prof Dr Muzaffer eker Orman Genel Md r Dekanlar Akademisyenler Daire Ba kanlar renciler ve sekt rde faaliyet g steren i adamlar n n kat l m yla ger ekle tirilmi tir Kongre son y llarda yap lan en geni kat l ml bilimsel organizasyon olma zelli i ta maktad r Kongreye t bbi ve aromatik bitkilerin dahil oldu u pek ok alandan tan nm ve se kin akademisyenler kat lm t r Davetli Konu mac olarak kongreye kat lan Mauritius niversitesi nden Vidushi Neergheen Bhujun Handong Global niversitesi nden Jong Bae Kim Malezya dan ve Ege niversitesi nden emekli Prof Dr M nir zt rk Yeditepe niversitesi nden Prof Dr Erdem Ye ilada Sebahattin Zaim niversitesi nden Prof Dr Adem ELG N T B TAK Marmara Ara t rma Merkezi nden Prof Dr Cesarettin Ala alvar Hacettepe niversitesi nden Prof Dr rem Tatl ankaya ve Cumhurba kan ba dan man Prof Dr brahim Adnan Sara o lu bunlar aras nda say labilir Kongrede g n boyunca yedi ayr salonda a a daki ba l klar alt nda s zl ve poster bildiriler sunulmu ve yo un kat l m g zlenmi tir T bbi Bitki Aromatik Bitki ve Mantar retimi T bbi ve Aromatik Bitkisel r n Sanayii Fonksiyonel G dalar Bitkisel aylar ve Nutras tikler Tabii Kozmetik r nler Aromatik Bitkiler ve U ucu Ya lar Farmakoloji Farmakognozi Toksikoloji Farmakovijilans Tabii Bitki rt s n n Korunmas ve Etnobotanik T bbi ve Aromatik Bitkilerde Antropoloji Sosyo Ekonomi K lt r ve Etik T bbi ve Aromatik

sektör uzmanlarının yer aldıkları disiplinlerden müteekkil bir komite kurulmalıdır. Bu belirlenen bitkilerin gerekli toplanması gerekse kiltürel olarak retılması için gerekli organizasyonlar ve destekler sağlanmalıdır. 3. İklimimiz çok zengin doğasıyla her türlü bitkiyi yetiştirebilir. Ancak iklimimizi bir bitki ihracatı olmaya devam ettirmektedir. İklimimizde bitkisel ila sanayinin gelişmesi bunun yanında parfümeride kullanılan sentetik ürünlerin daha ucuz olması gibi nedenlerle doğanın ucuzlaştırılması ikinci planda kalmıştır. Bitki ve aromatik bitkilerin retim olanaklarının genişletilmesi ve 6. 4. T. Bitki ve aromatik bitkilerin mevcut durumunu korumak ve artan pazarda yer almasını sağlamak için piyasanın istediği ürünleri istediği miktar ve kalitede sunmamız önem arz etmektedir. Doğal zenginliklerimizin sürdürülmesi ve gelecekteki araştırmaları için gen kaynaklarının korunması insitu ve ex situ önemlidir. Ancak bitki ve aromatik bitki retimini doğadan toplayarak karlı olmamız mümkün değildir. Yeterli miktarda standart ve kaliteli ürün retmek için bu bitkilerin kiltürel olarak retilmesi ve sürdürülmesi önem arz etmektedir. T. Bitki aromatik bitkilerde iklimimiz endemik bitkilerinin isimlendirilmesinde terminoloji birlikteliği ve bölgesel coğrafi farklılıklar tanımlayıcı temel bilgilerin netleştirilmesi gerekmektedir. Ayrıca iklimimiz florası için uygun ekim için uygun alanlar için proje alanları yapılmıştır. Gerektiler kiltürel olarak adaptasyon sağlanabilir. 5. T. Bitki ve aromatik bitkilere ait düzenli istatistiksel veriler bulunmamaktadır. Bu arz talep ilişkisi dikkate alınarak retim yapmayla zorlaştırılmaktadır. Bu nedenle bitkilerle ilgili bilgilerin toplanması ve ulaşılabilecek veri bankaları oluşturulmalıdır. Ülkemiz ve yurt dışında ticareti yapılan doğa bitkilerinin tam bir listesi toplanarak ihracat eden firma ve ilgili devlet kurumlarıyla birlikte hazırlanmalı ve bir veri tabanı oluşturulmalıdır. T. Bitki ve aromatik bitkilerin doğadan toplanmaları kontrol altına alınmalı nesli tehlikede olanları koruma altına alınmalı özellikle tarımda kullanılması bu bilgiler oluşturulacak veri tabanında yer almalıdır. 6. En çok ihracat yapılanlarındaki bitkisel ürünler ihracat istatistiklerinde diğerleri arasında yer almaktadır. Bu yüzden iklimimizden ihracat edilen ürünlerin tam bir listesine ulaşabilmek mümkün olmamaktadır. Bu bitkiler üzerinde yapılacak çalışmaların bunların ticaretlerinin izlenmesi ihracat ve zellikle retim miktarlarının ve bunların ne kadar doğadan toplama ve ne kadar tarla retiminden geldiğinin istatistiklerde açık ve net olarak yer alması zorunluluğu bulunmaktadır. 7. T. Üretici ve sanayici taleplerine cevap veren kaliteli ve standart ürünlerin sağlanması için geliştirilmesi uygun ekolojik koşulların belirlenmesi doğa bitkilerinin doğaya zarar vermeden zamanında toplanması hasat sonrası işlemler ve işleme teknolojisinin belirlenmesi bitki ve aromatik bitkilerde retim ve pazar olanaklarının artırılmalıdır. B. Gelişlere göre bir karlı ve etken madde retimine geçilmesi retilecek ürünlerin markalaştırılması ve standart oluşturma. 7. Faaliyetlerinin yürütülmesi elzemdir. Ayrıca ham madde retimini ikincil ürünlerle dönüştürecek tarıma dayalı sanayi tesislerinin geliştirilmesi kazandıran olmalıdır. 8. Gıda Tarım ve Hayvancılık bakanlığının fide ve tohum dağıtılması noktasında il düzeyiyle birlikte projeler yapılması çok etkili olacaktır. 9. T. Bitki ve aromatik bitkiler alanlarında faaliyet gösteren üretici toplanarak ihracat sanayici araştırmacı ve diğer tüm paydaşların koordinasyonunu sağlayacak bir sistem ve araştırma sonuçlarının pratik olarak uygulanması için araştırma sanayici üretici arasında bilgi akışını sağlayacak yayın sistemi oluşturulmalıdır. 10. Genetik kaynaklar kullanılarak tarıma ve hıv ekonomisine endemik ve ekonomik değeri olan bitkiler kazandırılmalıdır. Genetik materyal tohumluk fide yetersizliğini gidermek için alanlar yapılmalıdır.

Antioxidant And Antimicrobial Properties Of Five Medicinal Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Antioxidant And Antimicrobial Properties Of Five Medicinal free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Antioxidant And Antimicrobial Properties Of Five Medicinal free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Antioxidant And Antimicrobial Properties Of Five Medicinal free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of

the source before downloading Antioxidant And Antimicrobial Properties Of Five Medicinal. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Antioxidant And Antimicrobial Properties Of Five Medicinal any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Antioxidant And Antimicrobial Properties Of Five Medicinal Books

What is a Antioxidant And Antimicrobial Properties Of Five Medicinal PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Antioxidant And Antimicrobial Properties Of Five Medicinal PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Antioxidant And Antimicrobial Properties Of Five Medicinal PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Antioxidant And Antimicrobial Properties Of Five Medicinal PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Antioxidant And Antimicrobial Properties Of Five Medicinal PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to

fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
