Everyone Loves Live Music Fabian Holt, 2021-01-27 For decades millions of music fans have gathered every summer in parks and fields to hear their favorite bands at festivals such as Lollapalooza Coachella and Glastonbury How did these and countless other festivals across the globe evolve into glamorous pop culture events and how are they changing our relationship to music leisure and public culture In *Everyone Loves Live Music* Fabian Holt looks beyond the marketing hype to show how festivals and other institutions of musical performance have evolved in recent decades as sites that were once meaningful sources of community and culture are increasingly subsumed by corporate giants Examining a diverse range of cases across Europe and the United States Holt upends commonly held ideas of live music and introduces a pioneering theory of performance institutions He explores the fascinating history of the club and the festival in San Francisco and New York as well as a number of European cities This book also explores the social forces shaping live music as small independent venues become corporatized and as festivals transform to promote mainstream Anglophone culture and its consumerist trappings The book further provides insight into the broader relationship between culture and community in the twenty first century An engaging read for fans industry professionals and scholars alike *Everyone Loves Live Music* reveals how our contemporary enthusiasm for live music is more fraught than we would like to think New York Alrun

This Must Be the Place Jesse Rifkin, 2023-07-11 Winner of the New York City Book Awards A Kirkus Best Book of July An InsideHook Book You Should Be Reading This July A fascinating history that examines how real estate gentrification community and the highs and lows of New York City itself shaped the city's music scenes from folk to house music Take a walk through almost any neighborhood in Manhattan and you'll likely pass some of the most significant clubs in American music history But you won't know it almost all of these venues have been demolished or repurposed leaving no record of what they were how they shaped music scenes or their impact on the neighborhoods around them Traditional music history tells us that famous scenes are created by brilliant singular artists But dig deeper and you'll find that they're actually created by cheap rent empty space and other unglamorous factors that allow artistic communities to flourish The 1960s folk scene would have never existed without access to Greenwich Village's Washington Square Park If the city hadn't gone bankrupt in 1975 there would have been no punk rock Brooklyn indie rock of the 2000s was only able to come together because of the borough's many empty warehouse spaces But these scenes are more than just moments of artistic genius they're also part of the urban gentrification cycle one that often displaces other communities and eventually the musicians themselves Drawing from over a hundred exclusive interviews with a wide range of musicians deejays and scenesters including members of Peter Dinklage and Mary White Zombie Moldy Peaches Sonic Youth Treacherous Three Cro Mags Sun Ra
