Living and Dying in Mesopotamia Alhena Gadotti, Alexandra Kleinerman, 2024-11-14 Exploring life death and the afterlife in Mesopotamia Alhena Gadotti and Alexandra Kleinerman examine how life and death experiences continually developed over the course of nearly three millennia of Mesopotamian history To achieve this the book follows the life cycle of the people of the Tigris and Euphrates River valleys from 3000 BCE to 300 BCE from birth through death and beyond This book is the first to interrogate the relationships between living and dying through case studies and primary evidence Including letters written by both women and men the book allows readers to enter the minds of the ancients First the authors focus on life through topics such as the rituals surrounding birth marriage and religion The authors then examine the common causes of death the rituals associated with death and the Mesopotamian views of the netherworld its gods and inhabitants Concepts of gender fluidity both in life and death are considered alongside evidence from epigraphic data Illustrating daily life as a multifaceted subject affected by time space location socioeconomics and gender this book creates a window into the conditions and concerns of the Mesopotamian people

conversation matters and why it is in decline Miller explores the conversation about conversation among such great writers as Cicero Montaigne Swift Defoe Lady Mary Wortley Montagu and Virginia Woolf He focuses on the world of British coffeehouses and clubs in *The Age of Conversation* and examines how this era ended Turning his attention to the United States the author traces a prolonged decline in the theory and practice of conversation from Benjamin Franklin through Hemingway to Dick Cheney He cites our technology iPods cell phones and video games and our insistence on unguarded forthrightness as well as our fear of being judgmental as powerful forces that are likely to diminish the art of conversation

Karen Armstrong,2011-05-31 There is widespread confusion about the nature of religious truth For the first time in history a significantly large number of people want nothing to do with God Militant atheists preach a gospel of godlessness with the zeal of missionaries and find an eager audience Tracing the history of faith from the Palaeolithic Age to the present Karen Armstrong shows that meaning of words such as belief faith and mystery has been entirely altered so that atheists and theists alike now think and speak about God and indeed reason itself in a way that our ancestors would have found astonishing Does God have a future Karen Armstrong examines how we can build a faith that speaks to the needs of our troubled and dangerously polarised world Babylon Religion

David W. Daniels,2011 This is a history of goddess worship Written like a graphic novel this well researched book shows how goddess worship morphed through the centuries until it climaxed in its present most common form the worship of the Virgin Mary In different cultures the names were different but the goddess was the same She was the Queen of Heaven the mother of the god She became the Mediatrix through whom all must go to reach their god Author David Daniels is a stickler for research so no one will be surprised to find a 30 page section of End Notes as well as annotated bibliography You can check out his facts for yourself It's a heavy subject but the illustrations by Jack T Chick help to make the story flow and a lot easier for the casual reader to understand Books on Turkey ,2005
