The Metaphysics of Capitalism Andrea Micocci, 2009-01-16 The objective of this book is to construct an individually emancipatory economic and political philosophy This means a concrete based man centered non hypostatizing anti dialectical approach to the apprehension of the material i e nature in general This constitutes an emancipation from

culture based understandings of reality and in particular from the metaphysically biased type of culture represented by capitalism The proposed philosophical emancipation means individual liberation from the logically flawed massifying character of the dominant mode of thought of capitalist times From these bases the social sciences can also be reformulated Micocci argues that capitalism can be conceptualized as a limited and limiting socialized mode of thought an intellectuality whose dialectical features are effectively identified by using the proxy of political economy both marxist and mainstream Political economy in fact being a most representative instance of dialectical thinking mirrors the dialectical nature of capitalist economic and political relationships According to Micocci non dialectical occurrences in capitalism are simply excluded from normal social economic and intellectual activities which are performed in a metaphysical intellectually isolated environment In capitalism therefore the materials the concrete i e nature itself is not considered as a whole but only as occasional instances Micocci describes capitalism in sum as an intellectually constructed culture a metaphysics which preserves itself and props itself up by means of its iterative market like functioning

opportunity to view nonviolence as a body of principles a system of pragmatics and a strategy for social change This important volume Draws critical distinctions between nonviolence pacifism and related concepts Classifies nonviolence in terms of its scope intrapersonal interpersonal societal global and pacifism according to political and situational dimensions Applies standard psychological concepts such as beliefs motives dispositions and values to define nonviolent actions and behaviors Brings sociohistorical and cross cultural context to peace psychology Analyzes a century s worth of nonviolent social action from the pathbreaking work of Gandhi and King to the Courage to Refuse movement within the Israeli armed forces Reviews methodological and measurement issues in nonviolence research and suggests areas for future study Although more attention is traditionally devoted to violence and aggression within the social sciences Nonviolence and Peace Psychology reveals a robust knowledge base and a framework for peacebuilding work granting peace psychologists activists and mediators new possibilities for the transformative power of nonviolence

**METAPHYSICS FACTS AND FALLACIES**

Andreas Sofroniou,2016-10-04 This book deals with Metaphysics as a branch of philosophy which studies the most general categories concepts and descriptions of ourselves and the world causality substance ontology time and reality Metaphysical questions can ask whether our actions are subject to causality which gives rise to the problem of free will and the question of whether our mental experiences involve a separate substance from body is a major issue in the philosophy of mind Although metaphysics dates back to the ancient Greeks the rise of science led to attempts by philosophers to limit the claims of metaphysics and earlier in the last century scientifically minded philosophers such as the logical positivists claimed that metaphysical assertions were meaningless In modern times the term used for the interpretation of Metaphysics is widely miscomprehended The misunderstanding of the subject of Metaphysics extends to the mystical and esoteric feelings of the oriental religions and conceptions of therapeutic methods

*Constructivism and the Metaphysics of Qualitative Research*

John Paley,2024-09-30 This book challenges the widespread assumption that a necessary preliminary to qualitative research is the formulation of ontological and epistemological beliefs It argues that the metaphysical claims which supposedly underpin different approaches to social research do not make sense Literally Sentences such as There is a single objective reality and There are multiple constructed realities fail to make information providing statements They do not refer or describe Despite appearances they say nothing about reality or realities at a fundamental level so they cannot be used to justify ground or align with methodological decisions The necessary preliminary turns out not to be necessary at all and we can dispense with not just paradigms but metaphysical underpinnings in general whether structured as paradigms or not Drawing on Wittgenstein s later philosophy Carnap s metametaphysics and contemporary linguistics the book suggests that the metaphysical claims of qualitative texts can be reinterpreted as performative Ontological and epistemological beliefs are resolutions and proposals recommendations for the use of language They form part of a creed by means of which researchers enact the joining of an academic community Written in Paley s trademark clear accessible and conversational style the book

points to a revolution in our understanding of the relation between metaphysics and social research It will be essential reading for anyone interested in qualitative research and its philosophical foundations      **Reviving Intellectual Intuition in Metaphysics** Kenneth Rose,2024-11-28 Calling for a revival of intellectual intuition in metaphysics long after its banning by Kant Kenneth Rose overcomes the forgetfulness of being through contemplative ontology Rose argues for the reinstatement of intellectual intuition in metaphysics long after its banning by Kant His claim is not merely the conclusion of a thought experiment or of an exercise in conceptual analysis It is the result of the contemplative recognition of being with a meditatively concentrated intellect nous in Greek and buddhi in Sanskrit Recognizing intellectual intuition as a long neglected faculty of philosophical insight Rose shows how it can result in an immediate intuitive discerning of being He discusses how being parcels itself out into the intellectual forms providing the underlying nonphysical arrangement of the physical and mental worlds By reviving the use of intellectual intuition in metaphysics Rose draws upon historical sources across multiple Asian and Anglo European philosophical schools This is a work of contemplative constructive philosophy that breaks down divisions between science philosophy and religion and between diverse cultures and divergent worldviews

*Complexity and Organizational Reality* Ralph D. Stacey,2009-12-18 Offers an alternative way of thinking about management that is based on the management experience of uncertainty      *Collaborative Strategies and Multi-organizational Partnerships* Tharsi Taillieu,2001 Contains a collection of papers which were presented at the Seventh International Conference The aim is to advance the understanding of the nature of such partnerships and strategies by providing an international platform for the exchange of novel ideas experiences and practices The conference focused most of its attention on experiences and methodologies regarding multiparadigmatic approaches      *Research Anthology on Mental Health Stigma, Education, and Treatment* Management Association, Information Resources,2021-02-05 In times of uncertainty and crisis the mental health of individuals become a concern as added stressors and pressures can cause depression anxiety and stress Today especially with more people than ever experiencing these effects due to the Covid 19 epidemic and all that comes along with it discourse around mental health has gained heightened urgency While there have always been stigmas surrounding mental health the continued display of these biases can add to an already distressing situation for struggling individuals Despite the experience of mental health issues becoming normalized it remains important for these issues to be addressed along with adequate education about mental health so that it becomes normalized and discussed in ways that are beneficial for society and those affected Along with raising awareness of mental health in general there should be a continued focus on treatment options methods and modes for healthcare delivery The Research Anthology on Mental Health Stigma Education and Treatment explores the latest research on the newest advancements in mental health best practices and new research on treatment and the need for education and awareness to mitigate the stigma that surrounds discussions on mental health The chapters will cover new technologies that are impacting delivery modes for

treatment the latest methods and models for treatment options how education on mental health is delivered and developed and how mental health is viewed and discussed It is a comprehensive view of mental health from both a societal and medical standpoint and examines mental health issues in children and adults from all ethnicities and socio economic backgrounds and in a variety of professions including healthcare emergency services and the military This book is ideal for psychologists therapists psychiatrists counsellors religious leaders mental health support agencies and organizations medical professionals teachers researchers students academicians mental health practitioners and more *Judaeo-Arabic Studies* Society for Judaeo-Arabic Studies.
