**The Early Modern in South Asia** Meena Bhargava,Pratyay Nath,2023-01-05 Did modernity arrive in South Asia with British colonialism Or was South Asia already modern by then What might have that modernity looked like The Early Modern in South Asia engages with these questions It brings together ten chapters which collectively trace the contours of South Asia s early modernity between the sixteenth and eighteenth centuries They do this by examining the nature of historical change in various domains including philosophy warfare law environment politics violence religion and society The chapters argue that in all these fields there were noticeable developments during this period marking a shift from the medieval to the early modern The introductory chapter contextualizes this by analysing the politics of periodization in history writing across the world It discusses the meanings of the relatively new concept of early modernity and the implications of its use for how we understand historical change and continuity in South Asia

**Power, Administration and Finance in Mughal India** John F. Richards, 2024-10-28 From the mid 16th to the early 18th centuries the Mughal empire was the dominant power in the Indian subcontinent Contrary to what is sometimes suggested John Richards argues that this centralised state was dynamic and skillfully run The studies here consider its links with the wider early modern world and focus on three related aspects of its history The first concerns the nature of imperial authority in terms both of the dynastic ideology created by Akbar and his successors and the extent to which this authority could be enforced in the countryside The second aspect is that of fiscal and monetary policy and administration how did the Mughals collect track and expend their vast revenues and what effects did this have Finally the author asks why the system could not cope with the changes it had helped engender and what were the weaknesses and pressures that led to the breakup of the empire in the first decades of the 18th century

**Bankrolling Empire** Sudev Sheth, 2023-11-15 By the 1660s the mighty Mughal Empire controlled the Indian subcontinent and impressed the world with its strength and opulence Yet hardly two decades would pass before fortunes would turn Mughal kings and governors losing influence to rival warlords and foreign powers How could leaders of one of the most dominant early modern polities lose their grip over empire Sudev Sheth
