The Evolution of Song and Dance in Hindi Cinema Ajay Gehlawat, Rajinder Dudrah, 2020-05-21 Exploring the evolution of song and dance in the popular Hindi film this book examines how these quintessential elements have been and continue to be theorized. As song picturizations as they are frequently called have evolved shifting from little more than impromptu moves around tree trunks to highly choreographed affairs featuring scores of professional dancers and exotic backgrounds their theorization has also developed beyond the initial peremptory dismissals of earlier critics. Featuring a landmark collection of essays from leading theorists as well as newer contributions from up and coming scholars this book develops new and exciting ways of thinking about song and dance in Hindi cinema and in turn explores how these elements work to re define popular Hindi cinema in the twenty first century. This collection will be of interest to students and scholars of Hindi cinema musicals and global popular cultures. It was originally published as a special issue of South Asian Popular Culture.
