ABOUT THE BOOK Our nation has taken great pains to cover up the history of the Black man Africans and the significance of Melanin in humans Even our White forefathers politically ran this country from before the Declaration of Independence to this very day the twenty first century When Thomas Jefferson constructed the Declaration of Independence other persons such as John Adams and Benjamin Franklin made several changes Ben Franklin even denoted in his writings the no more Africans should be brought from Africa because Whites were already out numbered in this country All men created equal included only White people since African slaves were brought to this country America only for the labor the slaves could produce as well as their knowledge talents and expertise in building this nation All people are given air to breathe as a gift from God and must value themselves and all others It appears that we will struggle for justice and equality for a lifetime and let a moral voice be heard for generations to come Black Lives Matter and All Lives Matter are a starting point There are many changes coming no situation is perfect but with our faith and willingness to accept each other s talents as gifts from our Creator we will prevail as a whole nation God has his finger print on us He s not pleased with us but He has the power and love to rebrand us in His own image

Spencer,2000-08 Most Americans remain oblivious of a new racial phenomenon that may radically alter the political landscape of the United States In recent years dramatic increases in racial intermarriage have given birth to a generation of

mixed race children whose interracially married parents refuse to allow them to be shoehorned into neat pre existing racial categories The parents through organizations they have founded or joined have lobbied aggressively for the category multiracial to be added to official racial classifications at the state and federal levels including the United States census Since a nonracial society is one of the stated goals of the multiracialists Spencer suggests that the undoing of racial classification will come not by initiating a new classification which will only give Americans the impression that mixed race people can be neatly classified but by our increased recognition that there are millions of people who simply defy classification

Black History Should Be Taught 365 Days A Year Jasper Cephus,2021-06-08 Black history is unknown to so many people just me alone cannot reach them all with my book Black humans have more historical information than any other people in the world The study of Black history has become a branch of knowledge that feeds the world religious and spiritual life Control media use deceptive words or actions to coverup the truth about Black history There have been intentional destructions of ancient Black historical statues art and documents written in stone Fortunately some of the Black history survived and that proved much of Black history is hidden then falsely recreated in the images of white people This is damaging to the young Black and White children 1 White children are living a false sense of superiority complex for life 2 Black children living haven their identity stolen from them is psychologically depressing I wrote this book to heighten the awareness around the world what has been done around to over 150 000 years of civilized Black history 1 recreating ancient statues in the images of white people 2 Changing the color of ancient art 3 Stop defacing ancient statues 4 Remove racist lies in the good book That is why I wrote Black History Should Be 365 Days A Year

Most by Nature E. Asamoah-Yaw,2016-09-15 The book is about the authenticity of the conventional wisdom of nature and nurture It engages the readers attention on moments of drawing a line between nature and the environment when establishing which of the two practically manages human beings The popular belief that environmental forces count most in determining who why and what we are is challenged vigorously by this unique book The author has demonstrated clearly with modern scientific revelations that it is firstly the content of all organic matters that controls directs and supervises our actions nurture is the second added force The book emphasizes that human similarities equalities and differences do exist because it is the unique biological constitution that gives energy to act The similarity equality and differences among black people and nonblack people exist firstly because of the natural contents of body chemistry The environment plays an insignificant part The book traces human history from prehistoric times to the present to show the purpose of life the maintenance of life and the progress through adaptation and control of our environment The book concludes that there exists excessive melanin segments in most Negroes blood chemistry neurons and brain organ compared to those in most nonblacks This excessive difference in the natural black pigment is responsible for most of the black peoples insensitivities in life management and progress based on evolutionary human history of life and progress
