Social-Media und Museum Sarah Maria Ullrich, 2024-04-02 Was passiert wenn Besucher innen von Kunstmuseen die Exponate der Ausstellungsräume fotografieren und die bildlichen Aufnahmen auf Social Media Plattformen neu kontextualisieren? Sarah Maria Ullrich zeigt anhand dichter ethnografischer Beschreibungen, dass diese vermeintlich banalen Praktiken im Kern eines vielschichtigen Spannungsfelds stehen, in dem sich nichts weniger als die Frage verhandelt, wie digitale Medien die moderne Museumserfahrung verändern. Sie illustriert, wie mediale Visualisierungstechniken als neue Formen des Widerstands im Kontext gesellschaftspolitischer Aushandlungsprozesse fungieren und damit nicht zuletzt auch die Deutungshoheit etablierter musealer Institutionen ins Wanken bringen. Reckwitz, 2020-04-21 Our contemporary societies place more and more emphasis on the singular and the unique The industrial societies of the early 20th century produced standardized products cities subjects and organizations which tended to look the same but in our late modern societies we value the exceptional unique objects experiences places individuals events and communities which are beyond the ordinary and which claim a certain authenticity Industrial society's logic of the general has been replaced by late modernity's logic of the particular In this major new book Andreas Reckwitz examines the causes structures and consequences of the society of singularities in which we now live The transformation from industrial to cultural capitalism the rise of digital technologies and their culture machine and the emergence of an educated urban new middle class form a powerful engine for the singularization of the social In late modernity what is singular is valorized and

stirs the emotions while what is general has to remain in the background and this has profound social consequences The society of singularities systematically produces devaluation and inequality winner takes all markets job polarization the neglect of rural regions and the alienation of the traditional middle class The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization This prize winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today *Handbook of Research on Perspectives on Society and Technology Addiction* Sine Nazlı, Rengim, Sari, Gülşah, 2023-06-19 Internet based technologies prevail in most of the world Along with the positive features of digital technologies that permeate our lives in almost every area including lifestyles and daily practices the traces of negative aspects have also become evident Digital addiction is among the most important of these aspects It is obvious that communication which has been maintained in various forms since the beginning of humanity has been shaped by the period in which it is lived The technology based transformation has transformed communication which has been adopted to the internet in the world into a completely different form Communication which has become sustainable at any time and anywhere regardless of location led by the never ending elements of continuity and interaction has turned into an indispensable form *Perspectives on Society and Technology Addiction* examines every subject of digital addiction in an interdisciplinary way It discusses the issues about what technology addiction is how to deal with this addiction how to use the existing technology in a positive way how to deal with this technology for disadvantaged groups and concerns in the fields of social science and communication science Covering topics such as Consumer 5.0 experience design and information markets this premier reference source is an essential resource for sociologists policymakers students and educators of higher education researchers and academicians
