Norris, 2017-08-01 Achieving success as a professional woman doesn't have to be hard With over 30 years of experience rising through the ranks of the male dominated world of finance author Marja Norris knows all too well the challenges females continue to encounter in today's business culture Over the decades she's learned how to expertly navigate the rules and expectations of the workplace many of which remain unclear unspoken or unstated to females trying to make their mark In *The Unspoken Code* Norris equips young professional women with the tools they need to succeed by shining a spotlight on the subtle sometimes controversial norms they face as soon as they set foot in an office The Unspoken Code contains no nonsense advice to help women climb the corporate ladder with confidence as well as valuable insights from successful businesswomen reflecting on their own journeys to the top The book's three sections guide readers towards their professional goals by awakening their own power within perfecting both verbal and nonverbal communication skills in aggressive business environments and showing the significance of how their dress impacts future career opportunities Today's business culture is shifting towards equality but it's not shifting fast enough The Unspoken Code empowers women to push through barriers with moxie and gives them confidence to achieve their professional dreams Rise Gina Miller, 2018-08-30 Gina Miller came to prominence when she brought one of the most significant constitutional cases ever to be heard in the British Supreme Court Gina successfully challenged the UK government's authority to trigger Article 50 the formal

notification to leave the European Union without parliamentary approval For standing up for what she believed was right Miller became the target of not just racist and sexist verbal abuse but physical threats to her and her family One question she kept being asked was how could she keep going at the cost of so much pain and aggravation To her the answer was obvious she d been doing it all her life In *Rise* Gina Miller draws on a lifetime of fighting injustice and looks at the moments that made her the trauma failures and successes that gave her the confidence in her voice the ability to know how to use it and the strength not to let others diminish it even when it came at incredible cost To those who say one person cannot make a difference this memoir demonstrates irrefutably how you can

**Full-Scale** Anthony W. Richardson,2014-11-18 The biggest secret of the startup industry is that bad marketing is the 1 cause of startup failure This secret exists for two reasons one marketers are adept at shifting blame to the product the market the user the management etc and two many of the great startup marketing minds are holding their cards close In Full

Scale startup growth consultant and entrepreneur Anthony W Richardson reveals the exact framework that he has built over the course of his career that enables him grow any startup client of any industry without as much as a marketing plan or a yearly budget. Some say as many as 90% of startups fail yet 83% of Anthony W Richardson's clients are either still in business or have already been acquired. Richardson begins with a bold scientific premise: What if we could say with literal certainty that we are spending our money, time, and resources on the marketing tasks that will have the greatest impact? What if we build a formula that measures these things directly against the causes of startup failure? What if the growth marketer is not only responsible for scaling a startup but also any items that would prevent growth? Growing a startup isn't difficult when you start with a great framework. The methodology found in Full Scale goes even further beyond growth marketing and demonstrates how the principles found within this book will also indicate when and how to make other big decisions like feature development, hiring and firing, pivoting, fund raising, getting acquired, and more. Suddenly, growth drives the entire operation, and the startup is moving at Full Scale from the top down without tips or tricks. Full Scale presents a new, proven way to grow startups as well as a comparative look at the pitfalls of existing marketing methodologies and why a consultant is needed, something stronger than simply startup marketing, growth hacking, full stack, or even traditional methods. What if you could actually make that claim using scientific principles and back it up with data? What if you could say words like best, fastest, and most efficient and mean them literally? The Full Scale method does just that. After adopting the principles outlined in this book, you will be able to say it and mean it. Praise for Full Scale: Absolutely worth the investment. Full Scale has my highest recommendation. David B. A must read for any business owner or marketing professional. Amir S. Anthony is a genius; his methodology combats the resource drain that occurs in startups as entrepreneurs struggle to make the best decisions with limited resources. Nathan C. This is now my go-to recommendation when anyone asks me about startup marketing. Anthony proves that he's got enough skin in the game to know what it's really about. Can't recommend this enough.
