## **Weimar And Nazi Germany Finding Primary Sources:**

*Neudeutschland, German Catholic Students 1919-1939* Ronald Warloski, 2013-03-08 This study is of a modest segment of Germany's experience in the Weimar and Nazi periods. Its purpose is to throw light on one small part of that experience in order to add it to the larger puzzle. It is a study of Neudeutschland, a German Catholic youth organization for students. The membership of the Bund, as it was known, is primarily from the German secondary schools, those which are equivalent to the last two grades of grade school plus high school and two years of college in the United States. Two ancillary sections of the organization are the Jungvolk, the segment for the youngsters of pre-secondary school age, and the Lerenbund for those who have graduated and are pursuing careers in business, the university, and such. The organization was founded in 1919. Its course was relatively stormy until 1924, after which a short respite occurred in which an attempt was made at a unique synthesis. That synthesis can be summarized in the phrase: Catholic youth movement. Neudeutschland sought to catholicize the healthy aspects of the German youth movement which had grown after 1900 and which had swept through the secondary schools of Protestant northern Germany prior to the First World War. After the war, the impetus towards youth movement greatly enhanced by the shattering of the old restricting authority spread among the Catholic students in the secondary schools.

World War II and the Holocaust are presented as logical outcomes of the ideology of Hitler and the Nazi movement. This new edition contains more information on the Kaiserreich, Imperial Germany, as well as Nazi complicity in the Reichstag Fire and increased discussion of consent and dissent during the Nazi attempt to create the ideal Volksgemeinschaft, people's community. It takes a greater focus on the experiences of ordinary bystanders, perpetrators, and victims. Throughout the text, it includes more discussion of race and space, and the final chapter has been completely revised. Fully updated, the book ensures that students gain a complete and thorough picture of the period and issues. Supported by maps, images, and thoroughly updated bibliographies that offer further reading suggestions for students to take their study further, the book offers the perfect overview of Hitler.

**Teaching a Dark Chapter** Daniela R. P. Weiner, 2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist

atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them **Dance History**
