Eccentric Objects Jo Applin, 2012-10-30 In America during the 1960s sculpture as an artistic practice underwent a series of radical transformations Artists including Lee Bontecou Claes Oldenburg Lucas Samaras H C Westermann and Bruce Nauman offered alternative ways of imagining the three dimensional object The objects they created were variously described as erotic soft figurative aggressive bodily or in the words of the critic Lucy Lippard eccentric Looking beyond the familiar and canonic artworks of the 1960s the book challenges not only how we think about these artists but how we learn to look at the more familiar narratives of 1960s sculpture such as Pop and Minimalism Ambivalent and disruptive the work of this decade articulated a radical renegotiation rejection even of contemporary paradigms of sculptural
