

The background image is a photograph of a grand, historic interior space, likely a museum or a large hall. The ceiling is a high, vaulted dome with a grid-like pattern of ribs. A large, ornate chandelier hangs from the center of the ceiling. The walls are dark and feature several arched doorways. In the foreground, a large group of people is gathered, some standing and some sitting, looking towards the camera. The overall atmosphere is one of a grand, historic interior.

Western Europe Economic And Social Change Since 1945:

Western Europe Max Schulze, 2016-07-22 This major new text offers a clearly structured introduction to the economic and social development of Western Europe since the Second World War. A team of experts explore key aspects of postwar Europe's economy and society in a number of thematic chapters with a regional and strongly comparative focus and these are followed by specific national studies. Themes in Modern European History Since 1945 Rosemary Wakeman, 2003 Twelve chapters consider the key political, cultural and economic changes of post 1945 Europe. *Western Europe* Max-Stephan Schulze, 1999 This major introductory survey of modern Europe provides a history of economic and social change in the period, thematic discussions of the main topics arising and detailed studies by nation and area. *An Economic and Social History of Western Europe since 1945* Anthony Sutcliffe, 2014-09-19 This is the ideal companion text to *A Political History of Western Europe Since 1945*. It is an introductory survey which explains how western Europe built up its postwar prosperity and is moving towards continental integration. Themes treated include the origins of the EC, consumerism, youth culture and protest, immigration, the oil crisis and its aftermath and the contrasting experience and expectations of the Nordic world and the Mediterranean south. The book ends with the consequences of Soviet collapse. Designed for general history students, it assumes no formal knowledge of economics and is notably accessible and user friendly in its approach.

Western Europe Max Schulze, 2014-07-10 This major new text offers a clearly structured introduction to the economic and social development of Western Europe since the Second World War. A team of experts explore key aspects of postwar Europe's economy and society in a number of thematic chapters with a regional and strongly comparative focus and these are followed by specific national studies. *Sozialgeschichte Europas* Hartmut Kaelble, 2007 *The European Way* Hartmut Kaelble, 2004 A good social history of Europe has yet to be written though given the developments over the last few decades this seems more urgent than ever before. This volume presents an important step forward in that it brings together eight internationally known social historians from Europe and Israel, each of whom offer an overview of some key themes in European history during the last two centuries. While dealing with the great changes of this period, the authors reveal the commonalities that link European societies together but also important differences at a national level. **A Social History of Twentieth-Century Europe** Béla Tomka, 2013 A Social History of Twentieth-Century Europe offers a systematic overview on major aspects of social life including population, family and households, social inequalities and mobility, the welfare state, work, consumption and leisure, social cleavages in politics, urbanization as well as education, religion and culture. It also addresses major debates and diverging interpretations of historical and social research regarding the history of European societies in the past one hundred years. Organized in ten thematic chapters, this book takes an interdisciplinary approach, making use of the methods and results of not only history but also sociology, demography, economics and political science. Béla Tomka presents both the diversity and the commonalities of European societies, looking not just to Western

European countries but Eastern Central and Southern European countries as well A perfect introduction for all students of European history **Transnationale Geschichte** Gunilla Budde, Sebastian Conrad, Oliver Janz, 2010-10-27 Die Internationalisierung der Geschichtswissenschaft schreitet voran Zunehmend orientiert sie sich an transnationalen Fragestellungen und globalen Zusammenhängen Dieser Band zieht eine Zwischenbilanz der aktuellen Entwicklung Vom historischen Vergleich über die europäische Geschichte und die Postcolonial Studies bis zu globalgeschichtlichen Perspektiven stellen die Autoren die wichtigsten Konzepte einer transnationalen Historiographie vor Daneben werden Felder der Geschichtswissenschaft behandelt in denen transnationale Perspektiven eine lange Tradition haben wie die jüdische Geschichte die Intellectual History die Geschichte multinationaler Unternehmen und die Konsumgeschichte oder vergleichende und beziehungs geschichtliche Fragen in den letzten Jahren erheblich an Bedeutung gewonnen haben wie die historische Nationalismusforschung die Arbeitergeschichte die Geschichte der Zivilgesellschaft oder die Geschichte kollektiver Erinnerungen Schließlich werden Ansätze wie die Kulturgeschichte oder die Mikrogeschichte die sich gegen internationalisierende Zugriffe zu sperren scheinen in ihrer transnationalen Dimension diskutiert **Wiederaufbau, Wirtschaftsplanung und Südförderung** Christian Grabas, 2020-06-08 Die Untersuchung widmet sich dem Zusammenhang von Industriepolitik und wirtschaftlicher Entwicklung zwischen 1943/45 und 1975 in Italien Planung und Praxis der staatlichen Industrieförderung werden erstmals auf der Grundlage umfangreicher Quellenbestände und archivgestützter Datenerhebungen historisch rekonstruiert sowie ihr Beitrag für Wachstum und Strukturwandel der italienischen Volkswirtschaft differenziert analysiert Die weitverbreiteten Negativurteile hinsichtlich der mangelnden Steuerungseffizienz der italienischen Industriepolitik werden durch die Ergebnisse dieser Studie relativiert **Western Europe**, 19?? *The Democratic Transition of Post-Communist Europe* M. Petrovic, 2015-12-04 Tracing both economic and political developments through the prism of history as well as more recent developments this book casts new light on the role of communist history in setting the different regional successes in post communist transition **Stapellauf für ein neues Zeitalter** Tobias Gerstung, 2016-07-11 Tobias Gerstung untersucht den Wandel klassischer Industriestädte in neue urbane Zentren deren wirtschaftliche Kraft auf einem breiten und vielgestaltigen Dienstleistungssektor aufbaut Am Beispiel der schottischen Industrie und Hafenstadt Glasgow analysiert er die unterschiedlichen Einflüsse und Prozesse die diesen Umbruch herbeigeführt haben und zeigt wie Stadtpolitiker Planer und Sozialwissenschaftler aber auch die Stadtgesellschaft insgesamt auf die damit verbundenen Herausforderungen reagierten Der ökonomische Strukturwandel hinterließ in Glasgow Produktionsanlagen und Verkehrsflächen die ihre Funktion im stadtstrukturellen Gefüge verloren hatten Tobias Gerstung befasst sich mit den Prozessen zur Wiederaufnahme dieser Branchen Kündeten diese zunächst vom ökonomischen Niedergang wurden sie jedoch schon bald zu Schauplätzen für neue Zukunftsvisionen der Verantwortlichen in Verwaltung und Wirtschaft sowie von Bürgerinitiativen Auf alten Fabrikarealen Gebäuden und Hafenanlagen entstanden Technologie Medien und Kulturzentren

International Trade in the 1970s Giuseppe La Barca, 2013-06-06 Explores the trading relationship between the United States and European Community in the 1970s and the rise of protectionism

The US, the EC and World Trade Giuseppe La Barca, 2016-06-16 The period between the close of the Kennedy Round and the opening of the Uruguay Round replaced a decade of fast growth in world output and trade and of prevailing harmony in trade relations across the Atlantic with twenty years of currency and trade turmoil and strains between the US and the EC Giuseppe La Barca provides a comprehensive account of these trade developments and the measures adopted by the US and the EC to cope with them in doing so he draws a wider picture of international trade policy making during the period The aftermath of the Kennedy Round witnessed the undoing of the Bretton Woods regime but the consequent overheating of the world economy resulted in an acceleration of international trade while settlement in the currency area contributed to the launching of the Tokyo Round negotiations The first oil shock heralded an unprecedented slump along with a jump in unemployment and inflation rates The Tokyo Round resulted only in a first step in eliminating non tariff barriers leaving contentious issues between the two transatlantic trading partners unsettled The second oil shock led to growing calls for protectionism and unilateralism particularly in the US and the Reagan administration pressed for the launch of the Uruguay Round only partially supported by the EC Providing an in depth analysis of trade developments involving the two most important economic actors and placing these developments in a multilateral international context this book offers new insights to scholars of economic history and international political economy

The Oxford Handbook of Postwar European History Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the 35 chapters of this book As well as diplomatic political institutional economic and social history the The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the thirty five essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by acknowledged experts as well as stimulating and novel approaches to newer topics Combining empirical rigour and

adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe Modern Europe, 1789-Present Asa Briggs, Patricia Clavin, 2014-06-06 Now covering the whole of Europe from the French Revolution to the present day this major new edition has been completely revised and brought up to date The approach embraces the whole continent from both national and regional perspectives and combines political survey with grass roots people history Bringing this history vividly to life the authors use a very broad range of sources including memoirs archives letters songs and newspapers In particular there is new treatment of the following themes Religion and the modern Papacy Immigration in Europe and relationships between minority and majority groups UNESCO The European Bill of Rights The seeds of conflict in Bosnia and Croatia Europe's relations with the wider world with particular attention to the Middle East and Japan **A Companion to Contemporary Britain 1939 - 2000** Paul Addison, Harriet Jones, 2008-04-15 A Companion to Contemporary Britain covers the key themes and debates of 20th century history from the outbreak of the Second World War to the end of the century Assesses the impact of the Second World War Looks at Britain's role in the wider world including the legacy of Empire Britain's special relationship with the United States and integration with continental Europe Explores cultural issues such as class consciousness immigration and race relations changing gender roles and the impact of the mass media Covers domestic politics and the economy Introduces the varied perspectives dominating historical writing on this period Identifies the key issues which are likely to fuel future debate **Conflicted Memories** Konrad H. Jarausch, Thomas Lindenberger, 2007-05-01 Despite the growing interest in general European history the European dimension is surprisingly absent from the writing of contemporary history In most countries the historiography on the 20th century continues to be dominated by national perspectives Although there is cross national work on specific topics such as occupation or resistance transnational conceptions and narratives of contemporary European history have yet to be worked out This volume focuses on the development of a shared conception of recent European history that will be required as an underpinning for further economic and political integration so as to make lasting cooperation on the old continent possible It tries to overcome the traditional national framing that ironically persists just at a time when organized efforts to transform Europe from an object of debate to an actual subject have some chance of succeeding in making it into a polity in its own right *War and Social Change in Modern Europe* Sandra Halperin, 2004 This book focuses on the interrelationship of social forces industrial expansion and conflict in Europe between 1789 and 1945
