Bound by War Christopher Capozzola, 2020-07-28 A sweeping history of America's long and fateful military relationship with the Philippines amid a century of Pacific warfare Ever since US troops occupied the Philippines in 1898 generations of Filipinos have served in and alongside the US armed forces In *Bound by War* historian Christopher Capozzola reveals this forgotten history showing how war and military service forged an enduring yet fraught alliance between Americans and Filipinos As the US military expanded in Asia American forces confronted their Pacific rivals from Philippine bases And from the colonial era Philippine Scouts to post 9 11 contractors in Iraq and Afghanistan Filipinos were crucial partners in the exercise of US power Their service reshaped Philippine society and politics and brought thousands of Filipinos to America Telling the epic story of a century of conflict and migration *Bound by War* is a fresh definitive portrait of this uneven partnership and the two nations it transformed **To Suspend Philippine Export Taxes for a Period of One Year** United States. The Federalization of Spain Luis Moreno, 2013-10-11 Traces the origins of the complex system of devolution and regional home rule that currently shapes and directs the Spanish political process **Advancing Regional Autonomy in the Cordillera**, 1994 *A Better Metro Manila?* Teresa S. Encarnacion Tadem, Maria Ela L. Atienza, 2023-02-28 This book contributes to efforts in furthering the democratization and development processes in the Philippines by examining the decentralization efforts in Metro Manila It explores existing as well as proposed development models for governance with focus on the effective and efficient delivery of social services bringing forth growth with equity through development efforts and addressing national local concerns to promote political and socio economic stability in the country In doing so the book examines the strong and weak governance points in the National Capital Region of the Philippines and identifies areas for reform **Province Building and the Federalization of Immigration in Canada** Mireille Paquet, 2019-01-01 Most accounts of the provincial role in Canadian immigration focus on the experience of Quebec In *Province Building and the Federalization of Immigration in Canada* Mireille Paquet shows that between 1990 and 2010 all ten provinces became closely involved in immigrant selection and integration This considerable change to the Canadian model of immigration governance corresponds to a broader process of federalization of immigration by which both orders of government became active in the management of immigration While Canada maintains its overall positive approach to newcomers the provinces developed and continue to develop their own formal immigration strategies and implement various selections and integration policies This book argues that the process of federalization is largely the result of provincial mobilization In each province mobilization occurred through a modern iteration of province building this time focused on immigrants as resources for provincial economies and societies Advocating for a province centred analysis of federalism *Province Building and the Federalization of Immigration in Canada* provides key lessons to understanding the contemporary governance of immigration in Canada

Federalism in Asia Baogang He, Brian Galligan, Takashi Inoguchi, 2009-01-01 This book is a collection of 13 articles which grew out of a workshop on federalism and democratisation in Asia. But unlike a great many of the publications which have their origins in conferences, this volume has a clear theme running through its contributions, almost all of which are excellent. The individual country studies are highly informative, most making imaginative use of the country's history and current politics to illustrate the theme of the tension between nationalising centralisation and pressures for regional decentralisation. Many of these chapters have innovative conclusions about ways in which this tension can be understood. This is a serious book, very well produced and indexed. Its chapters are well written with useful notes and lists of references. The volume will be of great interest to specialists on the countries concerned and has much to offer for anyone with an interest in federalism and the relationship between regionalism and democratisation. Campbell Sharman, *The Australian Journal of Public Administration*. *Federalism in Asia* provides a valuable resource both for scholars of Asia in general and for political theorists of federalism. In an academic climate where edited volumes are often assumed to be a lightweight option, *Federalism in Asia* demonstrates how rewarding this form of publication can be. Graham K Brown, *Political Studies Review*. Until now there have been few attempts to examine the different models of federalism appropriate in Asia, let alone to trace the extent to which these different perspectives are compatible, converging or mutually influencing each other. This book redresses the balance by demonstrating the varieties of Asian federalism. *Federalism in Asia* explores the range of theoretical perspectives that shape debates over federalism in general and over territorial, multinational, hybrid and asymmetric federalism in particular relation to Asia. The contributors share their understanding of how federal or quasi-federal institutions manage ethnic conflicts and accommodate differences, how democratization facilitates the development of federalism and how federalism facilitates or inhibits democratization in Asia. Their conclusion is that hybrid federalism or quasi-federalism is more prevalent in some Asian countries than others and the need and potential for greater federalism in more Asian countries makes this sortie into this area worthwhile. While federalism is relevant to Asia, the working pattern of Asian federalism does not necessarily follow a Western style. Hybrid federal institutional design can be seen as an Asian strategy of managing ethnic conflicts through federal arrangements. This unique book will be of great interest to a wide range of scholars and researchers who work on issues of federalism, political economy, public policy, ethnic relations, cultural diversity and democratization in the Asian region. Policymakers and activists dealing with issues of minority rights and ethnic conflict in the region, government officials and NGOs within Asia and officials in international agencies and organizations will also find much to engage them. **The Diliman Review**, 1987 **To Inspire and to Lead** Vicente Lim, 1980 **Permit Certain Resident Oriental Veterans in Armed Forces of United States During the World War to Apply for Citizenship** United States. Hearings United States. Congress. House, 1935 Constitutionalizing Secession in Federalized States Miodrag A.

Jovanović, 2007 This book is a thorough and professional study about secession Starting from the perspective of contemporary political philosophy the book explores the relevance of this issue for the theory and practice of federalism as well as its status under current public international law and concludes with a comparative constitutional analysis of the subject matter In the final chapter it provides a constitutionalized procedure of secession based on fundamental liberal democratic values The book argues that a liberal democratic response to the secession controversy might consist of the constitutionalization of a right to secession While a number of recent works in political theory point to the fact that under certain circumstances the moral right of a group to secession should be recognized only a few of them are ready to defend the institutionalization of that right through the instruments of constitutional law This topical and thought provoking book is a welcome contribution to the ongoing debate on secession and will be of interest to academics in a variety of disciplines such as law history politics international relations philosophy and applied ethics and to politicians and constitution drafters

From Aquino II to Duterte (2010-2018) Imelda Deinla, Björn Dressel, 2019-06-10 The Duterte administration is often considered a rupture in Philippines politics Yet how different is Duterte s programme of change from the past governments particularly from its predecessor the Aquino II administration Is there a shift in regime orientation and policy preferences from Aquino II to Duterte What will this mean to the future direction of Philippine democracy its economic development peace and security and relations with other countries This volume focuses on four critical areas politics and governance economic governance Mindanao peace process and international relations to illustrate continuities or discontinuities in policies and governance of institutions to explain the dynamics of change in the Philippines It pays particular attention to the crucial period between Aquino II and the early years of Duterte The reason is that Aquino II represents an important period for rebuilding and consolidating institutions of governance and accountability after two previous tumultuous administrations Yet Aquino II also demonstrates the inherent flaws of Philippine democracy and unravels the contradictory forces vying for state power that sets the scene for Duterte s rise Reflecting on the crucial transition period between the two presidencies while also providing a much needed update on the most noteworthy policy changes since Duterte s inauguration the book fills an important scholarly gap in understanding Asia s oldest and most puzzling democracy
