all of us play a part in making change happen For the past four years Ed Miliband has been discovering and interviewing

brilliant people all around the world who are successfully tackling the biggest problems we face transforming communities and pioneering global movements Go Big draws on the most imaginative and ambitious of these ideas to provide a vision for the kind of society we need A better world is possible the solutions are out there We can all make a difference We just need to know where to look and have the courage to think big Go Big shows us how Enthralling PHILIP PULLMAN Such a hopeful book ELIZABETH DAY Should be the rallying cry of progressives around the world RUTGER BREGMAN Alec Karakatsanis, 2019-10-29 From an award winning civil rights lawyer a profound challenge to our society s normalization of the caging of human beings and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish For example it is a crime in most of America for poor people to wager in the streets over dice dice wagerers can be seized searched have their assets forfeited and be locked in cages It's perfectly fine by contrast for people to wager over international currencies mortgages or the global supply of wheat wheat wagerers become names on the wings of hospitals and museums He is also troubled by how the legal system works when it is trying to punish people The bail system for example is meant to ensure that people return for court dates But it has morphed into a way to lock up poor people who have not been convicted of anything He s so concerned about this that he has personally sued court systems across the country resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional Karakatsanis doesn't think people who have gone to law school passed the bar and sworn to uphold the Constitution should be complicit in the mass caging of human beings an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification Usual Cruelty is a profoundly radical reconsideration of the American injustice system by someone who is actively wildly successfully challenging it Index of Patents Issued from the United States Patent Office United States. Patent Office, 1971 **Security Entrepreneurs** Alexandra Gheciu, 2018-05-10 Focusing on four East European polities Bosnia Serbia Bulgaria and Romania this book examines the dynamics and implications of processes of commercialization of security that have occurred following the collapse of communist regimes These processes have been central to post communist liberalization and have profoundly shaped those states and their integration into European institutional structures and global economic and political circuits They have also affected and been shaped by the behaviour and power of regional and global actors e g European institutions regional and global corporations in Eastern Europe By virtue of the fact that they combine in complex ways local national regional and global dynamics and actors processes of security commercialization in the former Eastern bloc can be seen as instances of glocalization Several aspects of security commercialization are particularly important To begin with private actors specifically private security companies PSCs have been reconstituted as partial agents of public power As such they have come to be systematically involved in performing security practices traditionally associated with the state In addition a potent commercial logic has come to permeate public security institutions This has led

to redefinition of the relationship between the state and its population in ways that defy conventional wisdom about the role of the state and pose difficult normative challenges More broadly processes of security commercialization in Eastern Europe which involve important performative dimensions have led to the emergence of complex hybrid networks of security providers that transcend domestic international public private boundaries and behave in many ways as entrepreneurs
