Externe Unternehmensrechnung Alfred Wagenhofer, Ralf Ewert, 2014-12-19 Die externe Unternehmensrechnung befasst sich mit der konzeptionellen Gestaltung und den Einsatzbedingungen von Informationssystemen, die an externe Adressaten wie Investoren, Kreditgeber, Arbeitnehmer, Geschäftspartner und die Öffentlichkeit gerichtet sind. Sie umfasst die Rechnungslegung hier vor allem Jahresabschluss sowie weitere verpflichtende und freiwillige Finanzberichterstattung. Im Mittelpunkt dieses Lehrbuches stehen Konzeptionen, Strukturen und Anzeigeneffekte der Rechnungslegung, die dem Verständnis der ökonomischen Wirkungen vorherrschender Institutionen dienen. Methodisch stehen informationsökonomische Ansätze und internationale empirische Studien im Vordergrund. Als spezifische Themen werden die Informationsfunktion und Kapitalmarktwirkung der Rechnungslegung, Ausschüttungsbemessung, Bilanzierung und Bewertung, Vorsicht Fair Values, Bilanzpolitik, Publizität und Wirtschaftsprüfung umfassend behandelt. Die dritte Auflage beinhaltet eine umfangreiche Bearbeitung und Aktualisierung sowohl der im Detail behandelten Themen des regulatorischen Umfelds als auch der Literatur. **Die IFRS im Deutschen und Europäischen Rechtsraum** Marvin Barnecki, 2021-01-18 Die von einem privatrechtlich organisierten Standardsetter entwickelten International Financial Reporting Standards (IFRS) gewinnen weltweit zunehmend an Bedeutung. Die vereinfachte Übernahme in europäisches und deutsches Recht wirft daher rechtsstaatliche Bedenken auf, die unlängst auch durch den Maystadt-Bericht gestärkt wurden. Der Autor widmet sich im Schwerpunkt der Auslegung von Normen eines privaten Standardsetters, die deutliche Bezüge zum angelsächsischen Recht haben. Daneben wird geprüft, inwieweit die rechtsverbindlich anzuwendenden Standards der gerichtlichen Kontrolle unterliegen und ob eine Einstrahlung der IFRS auf die handelsrechtliche Rechnungslegung denkbar ist. In die Untersuchung einbezogen ist die Meinungsherrschaft der Wirtschaftsprüfer, die jüngst wieder in die Kritik gerückt ist. The International Financial Reporting Standards (IFRS) developed by the standard setter organized under private law are becoming increasingly important worldwide. The simplified incorporation into European and German law therefore raises concerns about the rule of

law which were also recently reinforced by the Maystadt report The author focuses on the interpretation of norms of a private standard setter which have clear similarities to Anglo Saxon law In addition it is examined to what extent the legally binding standards are subject to judicial control The research also includes the domination of auditors opinion which has recently come under fire Managing Risk and Decision Making in Times of Economic Distress Simon Grima,Ercan Özen,Inna Romānova,2022-03-28 Managing Risk and Decision Making in Times of Economic Distress adds much needed scholarly analysis of the fledgling decision control approach arguing the merits of its empirical content to shed light on the structure of capital contracts and rationale for diversity of objectives *Methodological issues in accounting research* Zahirul Hoque,2018-03-26 What is my theory How do I choose a theory Why and how should I employ a particular method for collecting the empirical data These basic questions concern everyone involved in research A research study can be a voyage of discovering or choice of theoretical perspective as well as gathering empirics or facts on a problem or situation This book provides a good guideline as to why and how to choose a particular theory or method to study an organisational phenomenon such as accounting All the chapters provide both retrospective and contemporary views by scholars in the field Each chapter documents the latest developments and research in accounting and control systems and provides valuable insights into methodological perspectives in accounting research This second edition has also introduced a number of new chapters covering strategy management control as practice grounded theory approach institutional logic and rhetoric social interaction theory actor network theory and practice theory The book is primarily intended for research students and academic researchers It can also be used for undergraduate Honours course as well as postgraduate accounting and business methodology courses Research organisations and consulting firms in accounting and business fields may also find this book useful The principal aims of this second edition are 1 to update the chapters previously published in 2006 and 2 to introduce new chapters documenting recent developments in accounting research **Social and Environmental Disclosure by Chinese Firms** Yingjun Lu,Indra Abeysekera,2024-11-01 Given the increased social and environmental problems in China this book looks into the social and environmental disclosure practices of socially responsible Chinese listed firms by constructing a stakeholder driven three dimensional disclosure index The book contains a three part study the first part explores the current status of social and environment disclosure practices The second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics The third part empirically examines the link between corporate social responsibility CSR reporting i e publishing a CSR report and the quality of the CSR report and socially responsible reputation The book finds that the CSR report provided more stakeholder relevant social and environmental disclosure than the annual report It also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing the social and environmental disclosure of the Chinese firms studied Shareholders significantly influenced

firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance The final part of the study reports that publishing a CSR report and CSR reporting quality had a positive influence on firms socially responsible reputations and that the CEO chairman duality negatively influenced firms socially responsible reputation This book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of Chinese firms

Accounting for Sustainability Anthony Hopwood, Jeffrey Unerman, 2010-09-23 If businesses and other organizations are to meet the many and complex challenges of sustainable development then they all both public and private need to embed sustainability considerations into their decision making and reporting However the translation of this aspiration into effective action is often inhibited by the lack of systems and procedures that take sustainability into account Accounting for Sustainability Practical Insights will help organizations to address these issues The book sets out a number of tools and approaches that have been developed and applied by leading organizations to embed sustainability into decision making

extending beyond an organization's boundaries to take into account suppliers, customers and other stakeholders, measure and link sustainability and financial performance, integrate sustainability into mainstream reporting both to management and external stakeholders. In depth case studies from Aviva, BT, the Environment Agency, EDF Energy, HSBC, Novo Nordisk, Sainsbury's and West Sussex County Council show in detail how accounting for sustainability works in practice in a wide range of organizational contexts. Published with The Prince's Charities, *Accounting for Sustainability*.
