Debtor-creditor Relationships and Financial Reporting Wooseok Choi, 2004 *Contemporary Studies in Social, Economic & Financial Analysis* Julia Dobрева, The chapters included in this volume are composed of some selected contributions from the 8th International Conference of Political Economy ICOPEC 2017 held in Belgrade on June 28-30 2017 with the main theme of Institutions National Identity Power and Governance in the 21st Century All chapters are peer reviewed by both the editors and independent scholars from the fields relevant to the manuscript's subject area The purpose

of the volume is to provide and enhance our understanding of the recent trends in the social economic and financial analysis. Therefore this volume includes chapters that focus on the importance of these three disciplines of social sciences which interact heavily with almost every other social science as well as the normative sciences. In this sense this volume aims at providing a contemporary update to the literature from various different perspectives and tries to contribute to our knowledge in an effective manner. The chapters do not only present analysis of certain topics but also help to build the mindset for further studies that would be helpful in looking for answers to some of the remaining questions in these three crucial social sciences disciplines. Hence we are glad to put together a volume that would be useful to a large audience rather than just the technical experts.
