**Regulation and Capital Markets Union** Patrizio Messina, 2019-06-19 With the European Commission's announcement of the Capital Markets Union in 2016 a major step was at last taken to provide for the special needs of small and medium enterprises (SMEs). This book presents the first in-depth legal analysis of the challenges that SMEs have to face when managing their balance sheets and trying to attract investors: what alternative financing tools are most effective and how recent legislation reaches fair and convenient conditions for SMEs. The analysis focuses specifically on the Capital Markets Union structure and on other European initiatives that support and enhance SMEs raising money on capital markets in order to better diversify their investments and plan a growth and development strategy. An updated description of the European framework is provided together with references to relevant national systems. Issues and topics covered include the following: need for long-lasting access to funds; securitization for SMEs; SME Z-score; crowdfunding and peer-to-peer minibond and accounts receivables financing. Case study analyses furnish a deep understanding of the financial structures and their main features. Appendices include English texts of the main European Union (EU) legal documents pertaining to SMEs. For SMEs discouraged by over-regulation designed for larger businesses and who find themselves in difficulties when they have to face the required process, this book will prove to be of immeasurable practical value. This book represents one of the first publications on SMEs and finance and contains data and information resulting from a deep and well-focused research on the topic. The added value of this study will allow the academics to understand the main issues related to this topic and will provide for a steady basis for further research and analysis with regards to law and economics for SMEs. Furthermore, it will be also warmly welcomed by practitioners in the area of SME financing and will be useful to support them in the selection of the most appropriate tools for their clients. Banks and interested EU officials will also value its clear and straightforward approach to the subject.

*Financing SMEs and Entrepreneurs 2020: An OECD Scoreboard* OECD, 2020-04-22 The 9th edition of the Scoreboard on Financing SMEs and Entrepreneurs report provides data from 48 countries around the world on SME lending, alternative finance instruments and financing conditions, as well as information on policy initiatives to improve SME access to finance.

[SME and Entrepreneurship Policy in Indonesia 2018](#) Collectif, 2018-10-10 SMEs play an important role for economic growth and social inclusion in Indonesia. Based on data from the Ministry of Cooperatives and SMEs, Indonesian SMEs account for nearly 97% of domestic employment and for 56% of total business investment. Indonesia has a Micro, Small and Medium Enterprise (MSME) Law and a specific ministry dedicated to cooperatives and SMEs. The wealth of public programmes for SMEs could be streamlined and more could be done to support innovative companies able to generate productive jobs and participate in international markets. The development and implementation of an SME strategy would be instrumental to improve the overall coherence of national policy measures, objectives and measurable targets. The review of SME and entrepreneurship policy of Indonesia is part of a peer-reviewed series by the OECD Working Party on SMEs and Entrepreneurship which aims to improve the design, implementation and effectiveness of national SME and entrepreneurship

policies      Unlocking SME Finance in Asia Naoyuki Yoshino, Farhad Taghizadeh-Hesary, 2019-07-01 There is limited access for small and medium sized enterprises SMEs to bank credit This book proposes new and sustainable models to help ease the access of SMEs to finance and boost economic growth and job creation in Asia This book looks at the difficulties of SMEs in accessing finance and suggests ways on how to mitigate these challenges It suggests how we can develop credit information infrastructures for SMEs to remedy the asymmetric information problem and to utilize credit rating techniques for the development of a sustainable credit guarantee scheme The book provides illustrations of various Asian economies that implemented credit guarantee schemes and credit risk databases and is a useful reference for lessons and policy recommendations

*SMEs in Public Procurement* Collectif, 2018-10-26 The relevance and economic implications of public procurement which represents 12% of GDP and one third of government expenditures in the OECD area make it a powerful tool for improving public service delivery At the same time governments are increasingly using their purchasing power to pursue strategic objectives in different policy areas such as sustainability innovation or providing support to small and medium sized enterprises SMEs Making it easier for SMEs to access public procurement opportunities improves the general economic environment promotes inclusive growth and supports principles such as equal treatment open access and effective competition This report takes stock of the approaches adopted in 37 OECD and non OECD countries to help SMEs perform better in public procurement markets including removing barriers to their participation The report also describes the main features of a public procurement system that benefits both the public sector and SMEs      **Ekonomi, İdari ve Sosyal**
