 the dialogic relationship between myths and places in the historically geographically and culturally diverse context of India
 Given its ambiguous relationship with facts and empirical reality myth has suffered an uncertain status in the field of
 professional history with the latter s preference for scientifism over more creative orders of representation Myths and Places
 rehabilitates myth not as history s primeval Other nor as an instrument of socio religious propagation but as communitarian
 mechanisms by which societies made sense of themselves and their world It argues that myths helped communities fashion
 their identities and their habitat habitus and were fashioned by these in turn This book explores diverse forms of territorial
 becoming and belonging in a grassroots approach from across India studying them in culturally sensitive ways to recover
 local life worlds and their self understanding Further challenging the stereotypical bracketing of the mythical with the sacred
 and the material with the historical the multidisciplinary essays in the book examine myth in relation to not only religion but
