Wild An Elemental Journey:

Wild Jay Griffiths, 2007-05-31 WINNER OF THE ORION BOOK AWARD Part travelogue part manifesto for wildness as an essential character of life Wild is a one of a kind book from a one of a kind author Undefined untameable profound and extraordinary Observer _____ I took seven years over this work spent all I had my time money and energy Part of the journey was a green riot and part a deathly bleakness I got ill I got well I went to the freedom fighters of West Papua and sang my head off in their highlands I met cannibals infinitely kinder and more trustworthy than the murderous missionaries who evangelize them I found a paradox of wildness in the glinting softness of its charisma for what is savage is in the deepest sense gentle and what is wild is kind In the end a strangely sweet result I came back to a wild home Wild describes an extraordinary odyssey courageous and sometimes dangerous It is by turns funny touching and harrowing and offers a poetic consideration of the tender connection between human society and wildlands _____ Easily

Beyond Climate Breakdown Peter Friederici, 2022-10-11 The importance of telling new climate stories stories that center the persistence of life itself that embrace comedy and radical hope How dare you asked teenage climate activist Greta Thunberg at the United Nations in 2019 How dare the world s leaders fiddle around the edges when the world is on fire Why

is society unable to grasp the enormity of climate change In *Beyond Climate Breakdown* Peter Friederici writes that the answer must come in the form of a story and that our miscomprehension of the climate crisis comes about because we have been telling the wrong stories These stories are pervasive they come from long narrative traditions sanctioned by capitalism Hollywood and social media and they revolve around a myth that the nation exists primarily as a setting for a certain kind of economic activity Stories are how we make sense of the world and our place in it The story that the economy takes priority over everything else may seem foreordained but Friederici explains actually reflect choices made by specific people out of self interest So we need new stories stories that center the persistence of life rather than of capitalism stories that embrace contradiction and complexity We can create new stories based on comedy and radical hope Comedy never says no hope sprouts like a flower in cracked concrete These attitudes require a new way of thinking an adaptive attitude toward life that slips the narrow yoke of definition

Weaving Words into Worlds Caroline Durand-Rous, Margot Lauwers, 2023-10-10 *Weaving Words into Worlds* comes as the third spinoff of the international ecopoetics conference organized in Perpignan in 2016 Reflecting upon how the many stories we tell directly influence the world we live in each of the contributions in this international volume directs our attention to the constant ecopoetic weaving of word to the world at work via the many entanglements between mind matter and meaning whether on a local or a global scale It encapsulates how the words stories and concepts we humans articulate as we try to make sense of the world we inhabit give part of its shape to the web of ecological relations that we depend on for survival It seeks to cast light on the disenchanting and reenchancing powers of stories and poesis in general as stories retain the power to make us either become oblivious to and destroy or to feel and honor the many complex ties between the multitudinous nature cultures intertwined within the fabric of a multispecies world always in the making This book offers a total of fourteen articles written by international scholars in ecocriticism and ecopoetics who by their analyses of literature and or films and the political subtext they thus render visible aim at showing how the study of environmentally minded media may renew our attention to the entangled agencies of the human and the more than human realm Thus this work offers to counter a reproach ecocriticism has often been met with namely the over presence of US scholars and the lack of diversity in subjects in the field since the articles presented provide a wide variety of approaches and topics with examples of UK and Native American literature Polynesian myth graphic novels or haiku In doing so the book expands on the fields of ecocriticism and ecopoetics adding to this branch of study and enriching it with high quality academic studies
