book accordingly is to present a systematic outline of the logic of Boolean equations in the hope that Boole's methods may prove useful in solving present day problems Two Logical Languages Logic seeks to reduce reasoning to calculation Two main languages have been developed to achieve that object Boole's algebra of logic and the predicate calculus Boole's approach was to represent classes e.g. happy creatures things productive of pleasure by symbols and to represent logical statements as equations to be solved His formulation proved inadequate however to represent ordinary discourse A number of nineteenth century logicians including Jevons 94 Peirce 159 Schröder 178 Venn 210 and Whitehead 212 213 sought an improved formulation based on extensions or modifications of Boole's algebra These efforts met with only limited success

**Interstellar** Christopher Nolan, Jonathan Nolan, 2014-11-24 In Interstellar a group of explorers make use of a newly discovered wormhole to surpass the limitations on human space travel and conquer the vast distances involved in an interstellar voyage The screenplay of Interstellar is written by Christopher Nolan and his frequent collaborator Jonathan Nolan In addition to the screenplay this screenplay book also contains over 200 pages of storyboards and an Introduction featuring a conversation about the film with Christopher Nolan and Jonathan Nolan The screenplay book is based on the film from Warner Bros Pictures and Paramount Pictures Interstellar and all related characters and elements are trademarks of and Warner Bros Entertainment Inc s14 Pure and Applied Science Books, 1876-1982, 1982 Over 220 000 entries representing some 56 000 Library of Congress subject headings Covers all disciplines of science and technology e.g. engineering agriculture and domestic arts Also contains at least 5000 titles published before 1876 Has many applications in libraries information centers and other organizations concerned with scientific and technological literature Subject index contains main listing of entries Each entry gives cataloging as prepared by the Library of Congress Author title indexes
