*World Myth or History?* J.G. Cueva, Deborah Beam Shelley, 2020-05-15 This volume offers eight approaches to myth its uses and purposes from viewing personal narrative as a form of healing myth to observing the atrocities committed daily arising from the most destructive form of myth The authors of the eight chapters here note that myths have existed from the beginning of the human race in a myriad of forms and serving a myriad of functions Indeed the shared observation of these scholars is that humans have always been storytellers and always will be because myths are a part of the lives of every single person they are the story of us **Translating Cultures in Search of Human Universals** Ikram Ahmed Elsherif, 2021-01-11 Informed by the anthropological research of Professor Donald E Brown on human universals this book compiles 10 articles exploring the representation of common human cultural practices and concerns in literature cinema and language The book as a whole demonstrates not only that Brown's human universals are shared by different cultures but most importantly that they have the potential to form a basis for inter and intra cultural communication and consolidation bridging gaps of misinformation and miscommunication both spatial and temporal The contributors are Egyptian scholars who cross temporal and spatial boundaries and borders from Africa and the Middle East to Asia Europe and the Americas and dive deep into the heart of the shared human universals of myth folklore and rituals dreams trauma cultural beliefs search for identity language translation and communication They bring their own unique perspectives to the investigation of how shared human practices and concerns seep through the porous boundaries of different cultures and into a variety of creative and practical genres of fiction drama autobiography cinema and media translation Their research is interdisciplinary informed by anthropological social psychological linguistic and cultural theory and thus offers a multi faceted and multi layered view of the human experience **World Mythology: An Anthology of Great Myths and Epics** Donna Rosenberg, 2001-02-12 World Mythology is a compilation of over 50 great myths and epics Your students will gain an appreciation and understanding of ancient and modern cultures through myths and epics from the Middle East Greece and Rome the Far East and Pacific islands the British Isles Northern Europe Africa and the Americas An introduction and historical background supplement each myth Questions at the end of each selection prompt analysis and response *Taking Sacred Back* Nels Linde, Judith E.
