Ugliness and Judgment Timothy Hyde, 2023-01-31 A novel interpretation of architecture ugliness and the social consequences of aesthetic judgment When buildings are deemed ugly what are the consequences In Ugliness and Judgment Timothy Hyde considers the role of aesthetic judgment and its concern for ugliness in architectural debates and their resulting social effects across three centuries of British architectural history From eighteenth century ideas about Stonehenge to Prince Charles's opinions about the National Gallery Hyde uncovers a new story of aesthetic judgment where arguments about architectural ugliness do not pertain solely to buildings or assessments of style but intrude into other spheres of civil society Hyde explores how accidental and willful conditions of ugliness including the gothic revival Houses of Parliament the brutalist concrete of the South Bank and the historicist novelty of Number One Poultry have been debated in parliamentary committees courtrooms and public inquiries He recounts how architects such as Christopher Wren John Soane James Stirling and Ludwig Mies van der Rohe have been summoned by tribunals of aesthetic judgment With his novel scrutiny of lawsuits for libel changing paradigms of nuisance law and conventions of monarchical privilege he shows how aesthetic judgments have become entangled in wider assessments of art science religion political economy and the state Moving beyond superficialities of taste in order to see how architectural improprieties enable architecture to participate in social transformations Ugliness and Judgment sheds new light on the role of aesthetic measurement in our world

National Railroad Adjustment Board, **The Dictionary of National Biography, Founded in 1882 by George Smith**, 1922 **The Environmental Imagination** Dean Hawkes, 2019-11-07 The Environmental Imagination explores the relationship between tectonics and poetics in environmental design in architecture Working thematically and chronologically from the eighteenth century to the present day this book redefines the historiography of environmental design by looking beyond conventional histories to argue that the environments within buildings are a collaboration between poetic intentions and technical means In a sequence of essays the book traces a line through works by leading architects of the nineteenth and twentieth centuries that illustrate the impact of new technologies on the conception and realisation of environments in buildings In this a consideration of the qualitative dimension of environment is added to the primarily technological narratives of other accounts In this second edition the book has been substantially rewritten and restructured to include further research conducted in the decade since the first edition A number of important buildings have been revisited in order to extend the descriptions of their environments and studies have been made of a number of newly studied significant buildings A completely new essay offers an environmental interpretation of Luis Barragán's magical own house in Mexico City and the earlier studies of buildings by Peter Zumthor have been gathered into a single extended essay that includes a body of new research On the fiftieth anniversary of the publication of Reyner Banham's *The Architecture of the Well tempered Environment* the book concludes with a critical tribute to that seminal text The Environmental Imagination will appeal to academics and practitioners with interests in the history theory and technology of architecture

In Search of Civilization John Armstrong, 2011-03-29 A self-effacing humane and unparanoid call to change our wealthy yet often barbaric world for the better In this provocative cri de coeur the philosopher John Armstrong rescues the idea of civilization from irrelevance and connects it to our search for individual happiness Civilization once referred to a society's technological prowess its political development or its cultural achievement In the modern era however the word became burdened by the legacy of colonialism and connotations of elitism For it to have value once again according to Armstrong we must understand that a society balances material prosperity with spiritual prosperity if it is to merit the term
