**Education and Development in Zimbabwe** Edward Shizha,Michael T. Kariwo,2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of

Education University of British Columbia      **Primary School Achievement in English and Mathematics in Zimbabwe**

Levi M. Nyagura, Abby Rubin Riddell, 1993 In Zimbabwe's primary schools higher achievement in math is associated with the amount of teacher training and instructional time as well as the pupil teacher ratio Higher achievement in English is associated with the pupil teacher and textbook to pupil ratios as well as the amount of teacher training      Teacher in Zimbabwe ,2014      **International Handbook of Mathematical Learning Difficulties** Annemarie Fritz, Vitor Gerald Haase, Pekka Räsänen, 2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there's still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it's time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society      *Problems of teaching in Mathematics in Zimbabwean schools* Chrispen Mawarire, 2023-05-24 Akademische Arbeit aus dem Fachbereich Didaktik Mathematik Sprache Deutsch Abstract This paper aims to explore on Mathematics teachers' understandings of the Mathematics curriculum in the Zaka West cluster due to an outcry over poor Mathematics passes from both urban and rural schools in Zimbabwe A study was undertaken to explore and illuminate the complexities faced by O Level Mathematics teachers in the implementation of a Mathematics curriculum so that necessary recommendations that would help improve the teaching and learning of Mathematics would be made to all participating schools and other teachers across the country The major aim of the study was to stimulate Mathematical thinking in teachers and to revitalize the teaching of the subject in Zimbabwean Secondary Schools The following research questions will be answered What do the teachers perceive to be the aims of the 4008 ZIMSEC O Level Mathematics syllabus What are the pedagogical strategies that the teachers use in Mathematics lessons How are these pedagogical strategies methodology and REACT related to the nature of O Level Mathematics What do O Level Mathematics teachers perceive as the challenges faced in the teaching and learning of 4008 Mathematics How can these challenges be eliminated or reduced
