Employment and Work
 Susanne M. Bruyère, Linda Barrington, 2012-09-05
 This volume in The SAGE Reference Series on Disability explores issues facing people with disabilities in employment and the work environment. It is one of eight volumes in the cross-disciplinary and issues-based series which incorporates links from varied fields making up Disability Studies as volumes examine topics central to the lives of individuals with disabilities and their families. With a balance of history, theory, research and application, specialists set out the findings and implications of research and practice for others whose current or future work involves the care and/or study of those with disabilities as well as for the disabled themselves. The presentational style is concise and engaging, emphasizing accessibility. Taken individually, each volume sets out the fundamentals of the topic it addresses, accompanied by compiled data and statistics, recommended further readings, a guide to organizations and associations, and other annotated resources, thus providing the ideal introductory platform and gateway for further study. Taken together, the series represents both a survey of major disability issues and a guide to new directions and trends and contemporary resources in the field as a whole.
