Provide us with a little information and we'll send your download directly to your inbox One of the most important mountaineering books to be written for many years Boardman Tasker Prize See this book trailer for *Freedom Climbers* made by RMB Books its publisher in Canada where the cover is slightly different from the Mountaineers Books U S edition Behind the Iron Curtain Cold War mountaineers found freedom on the world's highest peaks and paid an awful price to achieve it Winner of the Boardman Tasker Prize Banff Grand Prize and American Alpine Club Literary Award *Freedom Climbers* tells the story of Poland's truly remarkable mountaineers who dominated Himalayan climbing during the period between the end of World War II and the start of the new millennium The emphasis here is on their golden age in the 1980s and 1990s when despite the economic and social baggage of their struggling country Polish climbers were the first to tackle the world's highest mountains during winter including the first winter ascents on seven of the world's fourteen 8000 meter peaks Everest Manaslu Dhaulagiri Cho Oyu Kanchenjunga Annapurna and Lhotse Such successes however came at a serious cost 80 percent of Poland's finest high altitude climbers died on the high mountains during the same period they were pursuing these first ascents Award winning writer Bernadette McDonald addresses the social political and cultural context of this golden age and the hardships of life under Soviet rule Polish climbers she argues were so tough because their lives at home were so tough they lost family members to World War II and its aftermath and were so much more poverty stricken than their Western counterparts that they made much of their own climbing gear While *Freedom Climbers* tells the larger story of an era McDonald shares charismatic personal narratives such as that of Wanda Rutkiewicz expected to be the first woman to climb all 8000 meter peaks until she disappeared on Kanchenjunga in 1992 Jerzy Kukuczka who died in a fall while attempting the south face of Lhotse and numerous other renowned climbers including Voytek Kurtyka Artur Hajzer Andrej Zawaka and Krzysztof Wielicki This is a fascinating window into a different world far removed from modernity yet connected by the strange allure of the mountain landscape and a story of inspiring passion against all odds This title is part of our LEGENDS AND LORE series [Click here to learn more](#)

Born to Climb Zofia Reyech,2022-06-16 Climbing is one of the world s fastest growing sports exciting addictive and arguably much more fun than going to the gym In 2021 it made its long awaited Olympic debut but its journey to Tokyo has been anything but traditional And the traditionalists would argue that it s not even a sport at all In Born to Climb anthropologist and climber Zofia Reyech shares with us the fascinating cultural history of rock and competition climbing Zofia offers a fresh perspective on some of the pivotal moments and outstanding individuals of the sport from eighteenth century exploratory forays on rock via the rise of climbing legends such as Emilio Comici Wolfgang G llich and Lynn Hill to the limelight of the Olympic arena for the stars of today Janja Garnbret Adam Ondra Shauna Coxsey and more But Born to Climb is much more than a celebration of the sport s famous people and places it is an examination of modern sporting participation and culture interwoven with the author s own climbing journey While the writing is engaging and often funny Zofia is not afraid to broach sensitive and often overlooked topics including gender divide capitalism and the tension between aesthetic and athletic approaches to climbing in what is a must read for all climbers

Freedom as Non-Constraint George W. Rainbolt,2024-07-08 When is a person free to do something The focus of much of the recent work on this question has been the debate between those who defend freedom as non interference aka liberals and those who defend freedom as non domination aka republicans This book defends a new answer to this question freedom as non constraint According to freedom as non constraint both interference and domination cause unfreedom both human and natural constraints cause unfreedom and both controlled and uncontrolled interference cause unfreedom Compared to

liberal and republican theories freedom as non constraint provides a better account of systemic and structural threats to freedom a better picture of how market forces and governments impact freedom and a better understanding of how the natural world constrains freedom Freedom as non constraint also provides a new account of the scalarity of freedom and points to the limits on our ability to measure freedom with precision
