Friday Or The Other Island Michel Tournier:

Friday, Or, The Other Island Michel Tournier, 1984 **Michel Tournier's Metaphysical Fictions** Susan Petit, 1991-01-01 This study of the fictional themes and techniques of Michel Tournier reveals his profound radicalism as a social critic and novelist despite the seeming conventionality of his works Guided by Tournier's essays and interviews Petit examines his fiction in light of plot sources philosophical and anthropological training and his belief that fiction should change the world Close study of *Vendredi ou les limbes du Pacifique* *Le Roi des aulnes* *Les Metéores* *Gaspard Melchior et Balthazar* and *La Goutte d'or* as well as the short fiction in *Le Coq de bruyère* and *Le Medianoche amoureux* shows Tournier's revolutionary conception of plot structuring as he develops key themes whether religion sensuality or prejudice in more than twenty years spent reconceiving the nature of fiction Michel Tournier Michael Worton, 2014-09-19 This volume of essays brings together critical analysis and commentary on the literary work of Michel Tournier The Postmodern Chronotope Paul Smethurst, 2000 The Postmodern Chronotope is an innovative interdisciplinary study of the contemporary It will be of special interest to anyone interested in relations between postmodernism geography and contemporary fiction Some claim that postmodernism questions history and historical bases to culture some say it is about loss of affect loss of depth models and superficiality others claim it follows from the conditions of post industrial society and others cite commodification of place Disneyfication simulation and post tourist spectacle as evidence that postmodernism is wedded to late capitalism Whatever postmodernism is or turns out to have been it is bound up in rethinking and reworking space and time and Paul Smethurst's intervention here is to introduce the postmodern chronotope as a term through which these spatial and temporal shifts might be apprehended The postmodern chronotope constitutes a postmodern world view and postmodern way of seeing In a sense it is the natural successor to a modernist way of seeing defined through cubism montage and relativity The book is arranged as follows Part 1 is an interdisciplinary study casting a wide net across a range of cultural social and scientific activity from chaos theory to cinema from architecture to performance art from IT to tourism Part 2 offers original readings of a selection of postmodern novels including Graham Swift's *Waterland* and *Out of this World* Peter Ackroyd's *Hawksmoor* and *First Light* Alasdair Gray's *Lanark* J M Coetzee's *Foe* Marina Warner's *Indigo* Caryl Phillips *Cambridge* and Don DeLillo's *The Names* and Ratner's *Star* **Yesterday's Bestsellers** Brian M. Stableford, 1998-01-01 A study of the popular fiction of the past **Foucault on the Arts and Letters** Catherine M. Soussloff, 2016-10-06 As one of the most important philosophers of the 20th century Michel Foucault's reputation today rests on his political philosophy in relation to the contemporary subject in a neo liberal and globalized society This book offers insight into the role of the arts in Foucault's thought as a means to better understanding his contribution to larger debates concerning contemporary existence Visual culture literary film and performance studies have all engaged with Foucauldian theories but a full examination of Foucault's significance for aesthetic discourse has been lacking until now This book argues that Foucault's particular

approach to philosophy as a way of thinking the self through the work of art provides significant grounds for rethinking his impact today The volume moves across as many disciplinary boundaries as Foucault himself did demonstrating the value of Foucault's approach to aesthetic discourse for our understanding of how the arts and humanities reflect upon contemporary existence in a globalized society *Handbook of Experiential Learning and Management Education* Michael Reynolds, Russ Vince, 2007-11-15 While Experiential Learning EL has been an influential method in the education and development of managers and management students it has also been one of the most misunderstood This Handbook explores current thinking on EL ideas and examples of EL in practice and the importance of EL to the future of management education

Rewriting Crusoe Jakub Lipski,2020-09-17 Published in 1719 Defoe's Robinson Crusoe is one of those extraordinary literary works whose importance lies not only in the text itself but in its persistently lively afterlife German author Johann Gottfried Schnabel who in 1731 penned his own island narrative coined the term Robinsonade to characterize the genre bred by this classic and today hundreds of examples can be identified worldwide This celebratory collection of tercentenary essays testifies to the Robinsonade's endurance analyzing its various literary aesthetic philosophical and cultural implications in historical context Contributors trace the Robinsonade's roots from the eighteenth century to generic affinities in later traditions including juvenile fiction science fiction and apocalyptic fiction and finally to contemporary adaptations in film television theater and popular culture Taken together these essays convince us that the genre's adapt ability to changing social and cultural circumstances explains its relevance to this day Published by Bucknell University Press Distributed worldwide by Rutgers University Press

Beyond Babar Sandra L. Beckett,Maria Nikolajeva,2006-08-19 All too often attention is paid only to those children's novels that were written in English with non English language works being passed over and neglected Beyond Babar The European Tradition in Children's Literature examines eleven of the most celebrated European children's novels in substantial critical essays written by well known international scholars This approach provides a comprehensive discussion of the selected works from a variety of theoretical perspectives Each essay offers a critical introduction to the text that can serve as a point of departure for literary scholars professors of children's literature primary and secondary school teachers and librarians who are interested in texts that cross languages and cultures Beyond Babar is especially meant to assist instructors of children's literature who would like to use

these texts in the classroom in order to begin to redress the English language dominance of many children's literature courses This volume will also be of interest to the general public as its ultimate aim is to bring to the attention of all English speaking readers the literature from other parts of the world in this case from Europe Beyond Babar helps to facilitate the border crossings of these European masterpieces of children's literature into the English speaking world **Liberalism**

an informa company **Sex Sounds** Danielle Shlomit Sofer, 2022-07-05 An investigation of sexual themes in electronic music since the 1950s with detailed case studies of electrosexual music by a wide range of creators In Sex Sounds Danielle Shlomit Sofer investigates the repeated focus on sexual themes in electronic music since the 1950s Debunking electronic music's origin myth that it emerged in France and Germany invented by Pierre Schaeffer and Karlheinz Stockhausen respectively Sofer defines electronic music more inclusively to mean any music with an electronic component drawing connections between academic institutions radio studios experimental music practice hip hop production and histories of independent and commercial popular music Through a broad array of detailed case studies examining music that ranges from Schaeffer's musique concrète to a video workshop by Annie Sprinkle Sofer offers a groundbreaking look at the social and cultural impact sex has had on audible creative practices Sofer argues that electrosexual music has two central characteristics the feminized voice and the climax mechanism Sofer traces the historical fascination with electrified sex sounds showing that works representing women's presumed sexual experience operate according to masculinist heterosexual tropes and presenting examples that typify the electroacoustic sexual canon Noting electronic music history's exclusion of works created by women

people of color women of color and in particular Black artists Sofer then analyzes musical examples that depart from and disrupt the electroacoustic norms showing how even those that resist the norms sometimes reinforce them These examples are drawn from categories of music that developed in parallel with conventional electroacoustic music separated segregated from it Sofer demonstrates that electrosexual music is far more representative than the typically presented electroacoustic canon

Crusoe and His Consequences James Dunkerley, 2019-11-07 300 years after it was first published Daniel Defoe's Robinson Crusoe remains hugely influential and hotly debated Since its initial release in 1719 discussions have surrounded the novel's depiction of individual solitude and work colonial and racial relations and mankind's relationship with the rest of the animal world To this day Crusoe's depiction of self reliance and rugged individualism is often idealized in economics textbooks mainstream politics and popular culture But many have also criticized this approach most notably Karl Marx who was one of the first in decrying the efforts of classical economists to extract the rational actor and marginalist calculator from the island castaway without reference to social history Alongside a precis with surprising revelations for those not familiar with the detail of the story and a rich biographical sketch of its creator Crusoe and His Consequences draws on a range of writers including Adam Smith Jean Jacques Rousseau Jacques Derrida and Jurgen Habermas to bring the debates surrounding Defoe's first novel vividly to life

Theorising Literary Islands Ian Kinane, 2016-11-16 Theorising Literary Islands is a literary and cultural study of both how and why the trope of the island functions within contemporary popular Robinsonade narratives It traces the development of Western islandomania or our obsession with islands from its origins in Daniel Defoe's Robinson Crusoe right up to contemporary Robinsonade texts focusing predominantly on American and European representations of fictionalized Pacific Island topographies in contemporary literature film television and other media Theorising Literary Islands argues that the ubiquity of island landscapes within the popular imagination belies certain ideological and cultural anxieties and posits that the emergence of a Western popular culture tradition can largely be traced through the development of the Robinsonade genre and through early European and American fascination with the Pacific region
