Multinational Management Rien Segers, 2016-01-29. This casebook

demonstrates that the future of global business lies in how well the multinational landscape is charted and how the importance of Asian market leaders is deeply embedded in it. It offers international management students and researchers an extensive guide to the business history, strategy development and foreign market entry modes used by emerging Asian multinationals. The cases focus on well-known companies such as Lenovo, Alibaba, Infosys, Huawei, Panasonic and Rakuten. These companies, all of which generate huge revenues in their own countries (e.g. in China, India, South Korea, Taiwan, Vietnam) are now becoming increasingly sophisticated and striving to become global brands while also enjoying the active support of their governments in terms of their international business. Readers will learn about the current multinational landscape in Asia, the management challenges and the future implications for traditional western companies seeking to retain their market share. Chapters on corporate entrepreneurship, human resource management and intercultural competence and current branding trends in Asia will provide a cutting edge update on international business strategy for students and practitioners alike.

An Emerging Asian Model of Governance and Transnational Knowledge Transfer Ting-Yan Wang, Hong Liu, 2020-06-29. Although Asia has a long history of governance practices, its modern governance systems have been profoundly influenced by the Western models. This book explores how the declining economic and political influences on the global stage of the USA and Europe have significantly reduced developing countries' confidence in the public governance models promoted by the Western world. As academics have begun to challenge the assuredness of the conventional logic of Western Global Best, scholarship has also grown on the contextualized governance experiences in Asia. This timely volume explores the emergence of Asian models of governance, taking into account the shifting global political

economic landscape and the region's rapid growth in recent decades Could there be Asian models of governance that are distinct from the Western ones If so what are the key characteristics The authors examine the potentials and challenges of Asian models of governance based on empirical studies from various Asian societies ranging from Singapore and South Korea to Myanmar and Vietnam As well as theoretical explorations the book also provides rich empirical evidence on the contextualized lessons accumulated in Asia offering a more nuanced understanding of Asian governance experience through comparative case studies This book was originally published as a special issue of the Journal of Asian Public Policy which was supported by the Singapore Ministry of Education AcRF Tier 2 Grant entitled Transnational Knowledge Transfer and Dynamic Governance in Comparative Perspective
