Surgery, Section 2: Comprehensive Vivas Sri Ganeshamurthy Thrumurthy, Sacheen Kumar, Arnab K Bhowmick, Mohamed Baguneid, Muntzer Mughal, Muhammad Rafay Sameem Siddiqui, 2024-11-30

FRCS General Surgery Section 2 Comprehensive Vivas is an indispensable revision guide designed to thoroughly equip trainees with the necessary knowledge and skills to excel in the FRCS General Surgery Section 2 examination. The comprehensive text is aligned with the examination syllabus as prescribed by the Joint Committee on Higher Surgical Training (JCHST), ensuring it is a valuable resource throughout the higher surgical training rotations. The book meticulously covers a wide array of key topics, including critical care, emergency surgery, general surgery, research methodologies, basic statistics, and data analysis. The inclusion of numerous well-conceived hypothetical scenarios, many of which incorporate useful images to enhance explanation and interpretation, reflects the clinically oriented nature of the FRCS examination. The scenarios are presented in a concise, structured manner, adhering to a question and answer format that is conducive to both solo and group study sessions. Candidates are encouraged to actively engage and articulate their knowledge effectively while also identifying areas that require further study. The content has been carefully compiled to reflect the most recent changes in the examination format and includes newer cases that candidates may encounter, such as those relevant to the clinical challenges posed by the COVID-19 pandemic. The text is further enhanced by drawing on the latest research and providing extensive recommendations for further reading across a broad spectrum of resources. This guide is the result of contributions from a team of highly experienced surgical trainers and educators, all of whom are actively involved in postgraduate medical education and have a wealth of experience in preparing candidates for this demanding examination. It is an invaluable tool for anyone committed to achieving success in the FRCS General Surgery examination.

Frcs Section 1 General Surgery Roland Fernandes, 2019-11-15

This revision book is an aid to those preparing for the FRCS General Surgery Section 1. The topics and chapters are taken directly from the Intercollegiate Surgical Curriculum. The philosophy of this book is to focus on the level of knowledge and the approach that would be expected of the better candidates as they approach the end of their training and make the transition into consultants. In addition to the acquisition of knowledge through the process of tackling questions, the book will hopefully identify to the reader areas gaps in their knowledge base for which further study is required. Various techniques, including the use of diagrams and tables, are utilised to explain key facts. As per the curriculum, the book is organised into chapters in accordance with the syllabus, allowing less familiar topics such as relevant aspects in urology and gynaecology to be covered. Topics such as Gastrointestinal, HPB, Vascular, Breast, and Endocrine Surgery are understandably covered in greater depth given their common occurrence in the examination. Questions are presented in a single best answer and extended matching

item format mirroring those that the candidate will encounter during the examination This book is useful for candidates in both the early and late stages of their revision for the examination Early familiarity with the range and depth of topics may help guide further self directed learning Those in the latter stages of revision can use the questions to build confidence and reinforce their knowledge Each chapter is written by an authoritative author alongside the book editor to ensure it is relevant and informative for the reader Cracking the Intercollegiate General Surgery FRCS Viva Elizabeth Ball, Stewart
