Edited and with a Preface by Edgell Rickword* Christopher CAUDWELL (pseud.), Edgell Rickword, 1949 *The Return of Nature* John Bellamy Foster, 2021-06-01

Winner 2020 Isaac and Tamara Deutscher Memorial Prize. A fascinating reinterpretation of the radical and socialist origins of ecology. Twenty years ago John Bellamy Foster's *Marx's Ecology: Materialism and Nature* introduced a new understanding of Karl Marx's revolutionary ecological materialism. More than simply a study of Marx, it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas. Now with *The Return of Nature: Socialism and Ecology*, Foster continues this narrative. In so doing, he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies. *The Return of Nature* begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s. Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham, Rachel Carson, and Stephen J. Gould sought to develop a dialectical naturalism rooted in a critique of capitalism. In the process, he delivers a far-reaching and fascinating reinterpretation of the radical and socialist origins of ecology. Ultimately, what this book asks for is nothing short of revolution: a long ecological revolution aimed at making peace with the planet while meeting collective human needs.

Studies and Further Studies Christopher Caudwell, 1972. In 1938, a year after his death in Spain at the age of thirty, Christopher Caudwell's *Studies in a Dying Culture* was published. To be followed eleven years later by a second volume, *Further Studies in a Dying Culture*. This volume makes available both important works by one of the foremost Marxist

critics of the thirties The first book consists of eight essays on George Bernard Shaw T E Lawrence D H Lawrence H G Wells Sigmund Freud and on pacifism and violence love and liberty The second is divided into five essays The Breath of Discontent A Study in Bourgeois Religion Beauty A Study in Bourgeois Aesthetics Men and Nature A Study in Bourgeois History Consciousness A Study in Bourgeois Psychology and Reality A Study in Bourgeois Philosophy 'That paralysing apparition. British Marxist Criticism Victor N. Paananen, 2021-12-12 British Marxist Criticism provides selective but extensive annotated bibliographies introductory essays and important pieces of work from each of eight British critics who sought to explain literary production according to the principles of Marxism **Raymond Williams** John Higgins, 2013-06-17 Raymond Williams prolific output is increasingly recognised as the most influential body of work on literary and cultural studies in the past fifty years This book provides the most comprehensive study to date of the theoretical and historical context of Williams thinking on literature politics and culture John Higgins traces Williams intellectual development the related growth of a New Left cultural politics the origins of the theory and practice of cultural materialism Raymond Williams is an astonishing achievement and will challenge many received ideas about Williams work *Criticism and Literary Theory 1890 to the Present* Chris Baldick, 2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world The Dialectics of Ecology John Bellamy Foster, 2024-04-01 Explores ecological socialism's potential against capitalist environmental degradation Today the fate of the earth as a home for humanity is in question and yet contends John Bellamy Foster the reunification of humanity and the earth remains possible if we are prepared to make revolutionary changes As with his prior books The Dialectics of Ecology is grounded in the contention that we are now faced with a concrete choice between ecological socialism and capitalist exterminism and rooted in insights drawn from the classical historical materialist tradition In this latest work Foster explores the complex theoretical debates that have arisen historically with respect to the dialectics of nature and society He then goes on to examine the current contradictions associated with the confrontation between capitalist extractivism and the financialization of nature on the one hand and the radical challenges to these represented by emergent visions of ecological civilization and planned degrowth on the other The product of contemporary ecosocialist debates The Dialectics of Ecology builds on earlier works by Foster including Marx's Ecology and The Return of Nature aimed at the development of a dialectical naturalism and the formation of a path to sustainable human development Marx's Ecology John Bellamy Foster, 2000-03-01 Progress requires

the conquest of nature Or does it This startling new account overturns conventional interpretations of Marx and in the process outlines a more rational approach to the current environmental crisis Marx it is often assumed cared only about industrial growth and the development of economic forces John Bellamy Foster examines Marx s neglected writings on capitalist agriculture and soil ecology philosophical naturalism and evolutionary theory He shows that Marx known as a powerful critic of capitalist society was also deeply concerned with the changing human relationship to nature Marx s Ecology covers many other thinkers including Epicurus Charles Darwin Thomas Malthus Ludwig Feuerbach P J Proudhon and William Paley By reconstructing a materialist conception of nature and society Marx s Ecology challenges the spiritualism prevalent in the modern Green movement pointing toward a method that offers more lasting and sustainable solutions to the ecological crisis

Das literarische Subjekt Peter V. Zima, 2024-10-14 Dieser Band zeichnet Peripetien individueller Subjektivität in der spätmodernen und postmodernen Literatur nach Während in der Spätmoderne bei Mallarmé Valéry Adorno Negativität das Schöne und das Erhabene der Stärkung subjektiver Autonomie dienten schließlich in nachmodernen Texten etwa in Pynchons *Gravity's Rainbow* das Erhabene in Subjektnegation umso verwandelt sich das Schreiben das im Modernismus Prousts Virginia Woolfs *Svevos* zur Subjektkonstitution beitrug in der Postmoderne Jürgen Beckers Oswald Wieners oder Maurice Roches in eine Subversion individueller Subjektivität Zima zeigt wie in einigen nachmodernen Texten bei Robbe-Grillet S. Skind Del Giudice Subjektivität auf reine Körperlichkeit reduziert wird Diese Reduktion prägt auch das Werk Foucaults das im Mittelpunkt des neuen Schlusskapitels steht Sie bewirkt dass das Individuum als Körper in verschiedene durch Diskontinuitäten voneinander isolierte Kontexte integriert werden kann
