Idowu,Amr Khafagy,2025-06-24 This volume examines the concept of economic sustainability through the everyday practices of education production distribution consumption economic development and public policy It explores the economic systems and processes shaped by capitalism and how commodification has led to uneven and unsustainable development Particular attention is given to how ideas of sustainability are constructed through education and how without a critique of capitalism these discussions often overlook the exploitation and commodification of both nature and human beings This book advocates for a new paradigm based on socio ecological transition that places sustainability and equity at the core of economic development and the political economy It will be valuable to students and researchers interested in public policy sustainable development and the political economy Los Angeles Magazine ,2004-02 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian The Michigan Alumnus ,1929 In v 1 8 the final number consists of the Commencement annual **Business Arithmetic for College Students** William Storb Schlauch,1947 **Rewriting Leadership with Narrative Intelligence** Greg Morgan,2019-05-22 Rewriting Leadership with Narrative Intelligence draws on a range of disciplines and scholarly traditions to build a compelling case for a new perspective on leadership seeing it as a deeply embodied intuitive skill of curating shared narratives in influence relationships **Supply Chain Governance for Social Sustainability** Nandita Farhad,2019-08-15 This PhD thesis approaches the phenomenon of supply chain governance for social sustainability in the ready made garment industry in Bangladesh This research is based on a study of eight large multinational corporations e g clothing brands and retailers and their ready made garment suppliers The purpose of this research is to understand how supply chain governance mechanisms and governance structures improve social sustainability performance when stakeholders are engaged The study identifies four main governance systems namely market based hierarchical controlbased collaborative multi stakeholder based and relational cross sectoral based These governance systems are employed in the supply chain by the multinational corporations in combination with different stakeholders such as suppliers multi stakeholder initiatives and non government organisations The study focuses on the challenges faced by the multinational corporations to ensure social sustainability whilst at the same time incorporating suppliers viewpoints on the

consequences of different governance systems for social sustainability This research shows the choice of governance structures from market based hierarchy based collaboration based and relational based depend on the cost of managing relationships with the stakeholders and potential risks of governance in a given situation An effective governance structure for a multinational corporation in a particular context is determined by how well the structure supports governance mechanisms to reduce associated transaction risks that results from potential opportunistic behaviour of the suppliers In this research it is argued that governance structure provides the platform for practicing a set of governance mechanisms The study claims that social sustainability governance incorporates three mechanisms with separate outcomes one consists of buyer driven control based mechanisms which include codes of conduct supplier assessment and monitoring and supplier training for regular social compliance the second consists of multi stakeholder based governance mechanisms for structural compliance when unexpected problems occur for example building collapse electrical and fire safety risks emerge and the third comprises cross sectoral governance mechanisms when the multinational corporations involve with non government organisations for social development of the garment workers and community by facilitating drinking water health hygiene education and so on This thesis contributes to the Sustainable Supply Chain Management literature by expanding knowledge of supply chain governance through bringing an understanding of governance mechanisms governance structures and stakeholder engagements for social sustainability As the demand for supply chain governance for social sustainability are growing this thesis can help responsible corporate sourcing managers to develop a deeper understanding of how supply chain governance can affect social sustainability Denna doktorsavhandling tar sig an fenomenet leverantörsstyrning för socialt hållbarhet i kläddindustrin i Bangladesh Forskningen baseras på en studie av två stora multinationella företag tillika terföreläsningsföreläsningar och videoinspelningar Syftet med studien är att först hur leverantörsstyrningsmekanismer och styrstrukturer kan förbättra socialt hållbarhetsarbete när flera aktörer är engagerade och samverkar Resultatet av studien indikerar att multinationella företag de facto engagerar sig med andra aktörer för att förbättra sin förmåga att bedriva socialt hållbarhetsarbete Studien identifierar fyra olika typer av leverantörsstyrssystem ett marknadsbaserat ett hierarkiskt kontrollbaserat ett kollaborativt multi intressentbaserat samt ett relationellt sektorsvergränsande system Dessa styrningssystem tillämpas i leverantörskedjan av de multinationella företagen i samarbete med andra aktörer såsom leverantörer multi intressentinitiativ och icke statliga organisationer Studien fokuserar dels på de utmaningar som föreligger för de multinationella företagen när det gäller att säkerställa socialt hållbarhet dels på hur leverantörer uppfattar konsekvenserna av de olika styrningssystemen för socialt hållbarhet Denna forskning visar att valet av styrstruktur från marknadsbaserad hierarkibaserad kollaborativ och relationell beror dels av kostnaden för att hantera och upprätthålla relationer med de olika aktörerna dels av de potentiella riskerna som föreligger i en viss situation Vad som utgör en effektiv styrstruktur för ett multinationellt företag i en viss given kontext avgörs av hur väl strukturen stödjer styrningsmekanismer för att reducera

transaktionsrisker som bottnar i ett potentiellt opportunistiskt beteende hos leverantörerna. I denna forskning argumenteras det för att struktur ger en plattform för att tillämpa ett antal styrningsmekanismer. Studien visar att styrning av social hållbarhet omfattar tre typer av mekanismer med olika utgång. En består av kparstyrda styrningsmekanismer som omfattar uppförandekoder, leverantörskontroll och leverantörsutbildning. Den andra består av multi-initiativbaserade styrningsmekanismer av hur det strukturella arbetet för att hantera oönskade problem, t.ex. bygg- och brandsäkerhetsrisker, efterföljs. Det tredje omfattar sektorsvergräpande styrningsmekanismer där de multinationella företagen samverkar med lokala icke-statliga organisationer i projekt som syftar till social utveckling, tillgång till rent vatten, hälso- och utbildningsinsatser etc. för fabriksarbetarna och det omgivande samhället. Denna avhandling bidrar till Sustainable Supply Chain Management-litteraturen där den utvidgar kunskapen om leverantörsstyrning för social hållbarhet genom en analys av hur styrningsmekanismer styr strukturer och olika aktörers engagemang för social hållbarhet. I takt med att behovet av leverantörsstyrning för social hållbarhet ökar, kan denna avhandling hjälpa ansvariga corporate sourcing managers att utveckla en fördjupad förståelse för hur leverantörsstyrning kan påverka social hållbarhet.

Critical Race Theory in Education Laurence Parker, David Gillborn, 2020-07-15 Critical Race Theory (CRT) is an international movement of scholars working across multiple disciplines, some of the most dynamic and challenging. CRT takes place in Education. This collection brings together some of the most exciting and influential CRT in Education. CRT scholars examine the race-specific patterns of privilege and exclusion that go largely unremarked in mainstream debates. The contributions in this book cover the roots of the movement, the early battles that shaped CRT, and key ideas and controversies such as the problem of color blindness, racial microaggressions, the necessity for activism, how particular cultures are rejected in the mainstream, and how racism shapes the day-to-day routines of schooling and politics. Of interest to academics, students, and policymakers, this collection shows how racism operates in numerous hidden ways and demonstrates how CRT challenges the taken-for-granted assumptions that shape educational policy and practice. The chapters in this book were originally published in the following journals: *International Journal of Qualitative Studies in Education*, *Race Ethnicity and Education*, *Discourse Studies in the Cultural Politics of Education*, *Critical Studies in Education*.

Ghost Knights Of New Orleans David Althouse, 2022-01-10 After orchestrating a string of daring train raids, Confederate scout Drouet Broussard is inducted into a secretive group only known as the Knights of the Golden Circle. Shrouded in a world of agents and assassins, Broussard is soon assigned the ultimate mission: assassinating the President of the United States. But as dubious motives surface and the league begins to unravel, can he engineer an escape from the deadly secret society?

Musical America, 1915 *Elderly People and the Environment* Irwin Altman, M. Powell Lawton, Joachim F. Wohlwill, 2013-06-29 The present volume in our series follows the format of the immediately preceding ones in dealing with a topical theme of considerable importance preceding ones in the environment and behavior field. In view of current and projected demographic trends, it is a certainty that a broad-ranging set of issues concerned with the elderly and the physical

environment will continue to be of focal pertinence if not of increasing importance in the remaining decades of this century The present volume also follows in the tradition of earlier volumes in the series in being eclectic with respect to content theory and methodology and in including contributions from a variety of disciplines such as anthropology economics psychology geography and urban and regional planning To have encompassed the whole array of disciplines and topics in this emerging field in a single volume would have been impossible We trust that the sample of contributions that we have selected is provocative and that it will illustrate the range of problems and topics and point to promising areas of study and analysis We are pleased to have M Powell Lawton as a guest co editor for this volume His broad ranging expertise perceptive judgment and fine editorial talents have contributed enormously to the volume **The Underwriters Review** ,1896
