*Developing the Global Bioeconomy* Technical Market and Environmental Lessons from Bioenergy brings together expertise from three IEA Bioenergy subtasks on pyrolysis international trade and biorefineries to review the bioenergy sector and draw useful lessons for the full deployment of the bioeconomy Despite the vast amount of politically driven strategies there is little understanding on how current markets will transition towards a global bioeconomy The question is not only how the bioeconomy can be developed but also how it can be developed sustainably in terms of economic and environmental concerns To answer this question this book s expert chapter authors seek to identify the types of biorefineries that are expected to be implemented and the types of feedstock that may be used They also provide historical analysis of the developments of biopower and biofuel markets integration opportunities into existing supply chains and the conditions that would need to be created and enhanced to achieve a global biomass trade system that could support a global bioeconomy As expectations that a future bioeconomy will rely on a series of tradable commodities this book provides a central accounting of the state of the discussion in a multidisciplinary approach that is ideal for research and academic experts and analysts in all areas of the bioenergy biofuels and bioeconomy sectors as well as those interested in energy policy and economics Examines the lessons learned by the bioenergy industry and how they can be applied to the full development of the bioeconomy Explores different transition strategies and how the current fossil based and future bio based economy are intertwined Reviews the status of current biomass conversion pathways Presents an historical analysis of the developments of biopower and biofuel markets integration opportunities into existing supply chains and the conditions that would need to be created and enhanced to achieve a global biomass trade system

**Sustainable Commodity Use** Maximilian Eduard Oehl, 2021-12-07 This open access book examines the governance and legal landscape of the global commodity sector For that purpose the author conceptualises both Global Commodity Governance GCG as well as Transnational Commodity Law TCL He defines the key terms of Global Commodity Governance delineates the underlying legal framework of Transnational Commodity Law and assesses the effectiveness of Transnational Commodity Law in fostering a functional commodity sector Sustainable Commodity Use is based on a comprehensive analysis of over 250 international agreements standards and guiding documents The author distils the main findings into a conceptualisation of Transnational Commodity Law and provides the reader with a succinct overview of its normative configurations as well as regulatory gaps Moreover he elaborates a taxonomy of International Commodity Agreements In addition an outline of the normative substance of Transnational Commodity Law features in an appendix to the main text The author concludes by making concrete suggestions on how rules regulating commodity activities de lege ferenda could and should be designed to improve the effectiveness of law regulating transnational commodity activity In doing so he demonstrates the application of the sustainable use principle as the overall

objective and purpose of Transnational Commodity Law and discusses International Commodity Agreements as future regulatory instruments This book may assist lawmakers practitioners civil society advocates and academics worldwide in developing a legal framework for sustainable global commodity activity      *Understanding Energy and Energy Policy* Timothy Braun,Lisa Glidden,2014-11-13 Activists scientists and policymakers around the world have long argued that we need to find sustainable and secure solutions to the world s energy demands At issue for citizens worldwide is whether we are scientifically literate enough to understand the potential policy choices before us *Understanding Energy and Energy Policy* is a one stop resource for understanding the complexities of energy policy and the science behind the utilization of energy sources The multidisciplinary perspective presented in this book is necessary for readers to be able to weigh the advantages and disadvantages of potential energy policies The book draws on case studies from the global North and South from countries that are resource poor and resource rich while providing explanations of the science and politics behind burning fossil fuels and power created through nuclear energy solar energy geothermal energy wind energy biofuels and water      **American Global Leadership** G. Doug Davis,Michael Slobodchikoff,2024-07-26 In *American Global Leadership Ailing US Diplomacy and Solutions for the Twenty First Century* G Doug Davis and Michael O Slobodchikoff present a selection of fifteen essays that trace the history of American diplomacy from Eisenhower to Trump Penned by American statesmen among them James A Baker III General Wesley Clark Thomas Pickering and Michael McFaul these essays illuminate US foreign policy through the Cold War the Iraq and Afghan wars the economic crisis of 2008 and the instability that arose during Trump s presidency Each chapter reflects the wisdom and experiences of its author to illustrate the realities of diplomacy in the United States and the difficulties diplomats military leaders and foreign policymakers encounter today Among other themes the discussions in this volume explore the relevance of diplomacy in resolving global crises the use of military policy and force as diplomatic tools skills diplomats should possess and current obstacles facing US foreign policy Through the lens of their professional service as US diplomats the authors examine American mistakes and successes of the past seventy years to assess how the role of diplomacy within US foreign policy has changed over time and how it must continue to evolve to meet future challenges One conclusion proves recurrent the US can no longer afford to rely only on might and force but must rededicate itself to diplomatic strategies to achieve its long term goals *American Global Leadership* is not just a valuable resource for scholars of diplomatic history and political science it is also an important work for current diplomats and those aspiring to careers in the US Foreign Service      *A Geopolitical Europe in the Making?* Marek Neuman,Ramses A. Wessel,Thijs de Zee,2025-08-02 This edited book investigates whether and if so to what extent the European Union began to turn its recently uttered ambition of becoming a geopolitical Union into practice It does so by bringing a range of scholars from various institutions and disciplines among others political science European law European studies together asking them whether in their specific field they can observe a geopolitical turn in the European Union s

policy making The result of this intellectual endeavour can be found in this book a book that makes a first attempt at empirically testing the Union's ability to effectively respond to ever and rapidly changing conditions for conducting international politics in a rule based system The volume is divided into two separate yet mutually informing parts Part I consists of a series of empirical chapters assessing the EU's actorness vis vis other regional powers regional and international organisations This is followed by several empirical snapshots looking into specific policy areas in Part II As we combine the insights from both parts we attempt to contribute to the debate on the changing nature of the European Union in challenging times Our approach then is primarily an empirical one And yet building upon these conclusions we are able to also draw conceptual conclusions about the EU's increasing geopolitical nature or the lack thereof These conclusions make this a relevant read not only for academics but also for practitioners of European law and European integration Marek Neuman is Assistant Professor in EU Foreign Policy and Jean Monnet Chair of European Politics and Governance at the Faculty of Arts of the University of Groningen The Netherlands Ramses A Wessel is Professor of European Law at the Faculty of Law of the University of Groningen The Netherlands Thijs de Zee is a PhD Candidate at the Faculty Campus Fryslân of the University of Groningen The Netherlands Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

*The EU and its Member States' Joint Participation in International Agreements* Nicolas Levrat, Yuliya Kaspiarovich, Christine Kaddous, Ramses A Wessel, 2022-02-24 EU law has developed a unique and complex system under which the Union and its Member States can both act under international law separately jointly or in parallel International law was not set up to deal with such complex and hybrid arrangements which raise questions under both international and EU law This book assesses how EU law has been adapted to cope with the constraints of international law in situations in which the EU and its Member States act jointly in relations with other States and international organisations In an innovative scholarly approach reflecting this duality each chapter is jointly written by a team of two authors The various contributions offer new insights into the tension that continues to exist between EU and international law obligations in relation to the joint participation of the EU and its Member States in international agreements

**Asian Worlds in Latin America** Stefania Paladini, 2015-12-22 There has been increasing Asian interest in Latin America in recent years beginning with Japanese investment in the 1980s and continuing into the present decade when there is growing investment by China This book examines the nature and extent of Asian business and related activity in Latin America It shows how investment is not just from Japan and China with Korea and India also involved and with Taiwan directly competing with China It explores activity in the minerals and energy sector and also in trade and other areas It demonstrates how Asian activity has a wide impact on the countries of both South America and the Caribbean making them less exclusively the United States backyard how different countries are affected differently by Asian activity and how the growing links with Asia increasingly open up the possibility of greater Latin American activity in Asia

**Scenarios as Tools for Strategy Development** Ulf Pillkahn, 2008-07-14 Is my enterprise really prepared for future business What can I do to become more competitive Ulf Pillkahn's book is directed at all of those seeking answers to these questions executives in strategic positions business analysts consultants trend scouts marketing and product managers and research engineers The book presents the two most powerful tools for future planning environmental analysis based on the use of trends as well as the development of visions of the future through the use of scenarios While scenarios are generally regarded as a classical management tool it is expected that the importance of trends will gain tremendously in the coming years Pillkahn demonstrates how to build robust strategies by aligning the results of environmental and enterprise scenarios thereby offering entirely new insights Using Trends and Scenarios as Tools for Strategy Development convincingly illustrates why efficient observation of the environment of an enterprise is an absolutely essential factor for strategy development and why strategy development only works if it is institutionalized as a permanent enterprise process It also addresses the issue of what information is needed to keep both processes running The book further describes how trends can be categorized and offers advice on how to glean the essential information from the vast variety of trends Information is provided on how scenarios are used as a holistic instrument for creating visions and pictures of the future and how the results of trend research and scenario techniques find their way into entrepreneurial strategy development An optimized strategy development process is also outlined Practical examples and real life pictures of the future round off Pillkahn's insightful discussion of future business planning

*Shifting Patterns of Agricultural Trade* Vasilii Erokhin, Gao Tianming, Jean Vasile Andrei, 2021-08-06 This book is a pivotal publication that seeks to improve food security in the conditions of escalating protectionism in global agricultural trade The authors argue that global trade systems have been increasingly distorted by emerging trade tensions between major actors such as the US China the EU and Russia as well as trade policies in many other countries In view of the most recent disruption of global food supply chains due to the outbreak of the COVID 19 the book examines the effects of administrative restrictions tariff escalations and other forms of protectionism on food security Over the decades food security concerns have been emerging along with the growth of the world population More than two billion most impoverished people in the world spent up to 70% of their disposable income on food In 2020 the running pandemic has unraveled accumulated problems As many countries rely on agricultural imports lockdowns and disrupted food production and supply chains tremendously threaten food security of those nations Agricultural trade was already slowing in 2019 before the virus struck weighed down by trade tensions and decelerating economic growth The spread of the virus and strict quarantine measures trigger economic decline that results in food prices rises and volatilities Due to the pandemic nearly all regions will suffer double digit decline in trade volumes 2020 The virus will be defeated but the effects of the protectionism outbreak would have a much longer lasting impact on agricultural production international supply chains and food security worldwide In this publication the authors probe into many of the choices that link national regional and global

policies extensively with the provision of food security for all in the new era of post virus global trade Since studying global agricultural trade has a multinational application its outcomes might be shared with a broad international network of stakeholders including research institutions universities and individual researches The book is appropriate for government officials policymakers and businesses of many countries Adaptation of research outcomes and solutions to the situation in particular countries and various collaboration formats will let to increase the visibility of the publication and to elaborate new practices and solutions in the sphere of establishing sustainable food security Futures of Black Radicalism Gaye Theresa Johnson,Alex Lubin,2017-08-29 Black rebellion has returned with dramatic protests in scores of cities and campuses bringing with it a renewed engagement with the history of Black radical movements and thought Here key scholarly voices from a wide array of disciplines recalls the powerful tradition of Black radicalism as it developed in the nineteenth and twentieth centuries while defining new directions for Black radical thought In a time when activists in Ferguson Palestine Baltimore and Hong Kong immediately make connections between their movements this book makes clear that new Black radical politics are thoroughly internationalist and redraws the links between Black resistance and anti capitalism Featuring the key voices in the new intellectual wave of Black radical thinking this collection outlines one of the most vibrant areas of thought today With contributions from Cedric Robinson Elizabeth Robinson Steven Osuna Nikhil Pal Singh Damien Sojoyner Franoise Vergs Fred Moten Stefano Harney Jordan T Camp Christina Heatherton George Lipsitz Greg Burris Paul Ortiz Darryl C Thomas Avery Gordon Shana L Redmond Kwame M Phillips Ruth Wilson Gilmore Angela Davis and Robin D G Kelley

**Chokepoints** Edward Fishman, 2025-02-25 AN INSTANT NEW YORK TIMES BESTSELLER Deftly written Chokepoints is a compelling and dramatic narrative about the new shape of geopolitics Daniel Yergin The Wall Street Journal Remarkable One of the most important books on economic warfare ever written Paul Kennedy author of The Rise and Fall of the Great Powers The epic story of how America turned the world economy into a weapon upending decades of globalization to take on a new authoritarian axis Russia China and Iran It used to be that ravaging another country's economy required blockading its ports and laying siege to its cities Now all it takes is a statement posted online by the U S government In Chokepoints Edward Fishman a former top State Department sanctions official takes us deep into the back rooms of power to reveal the untold history of the last two decades of U S foreign policy in which America renounced the gospel of globalization and waged a new kind of economic war As Vladimir Putin Xi Jinping and Ayatollah Khamenei wreaked havoc on the world stage mavericks within the U S government built a fearsome new arsenal of economic weapons exploiting America's dominance in global finance and technology Successive U S presidents have relied on these unconventional weapons to address the most pressing national security threats for good and for ill Chokepoints provides a thrilling account of one of the most critical geopolitical developments of our time demystifying the complex strategies the U S government uses to harness the power of Wall Street Silicon Valley and Big Oil against America's enemies At the center of the narrative is an eclectic group of policy innovators the diplomats lawyers and financial whizzes who've masterminded America's escalating economic wars against Russia China and Iran Economic warfare has become the primary way the United States confronts international crises and counters rivals Sometimes it has achieved spectacular success other times bitter failure The result we live with today is a new world order an economic arms race among great powers and a fracturing global economy Chokepoints is the definitive account of how America pioneered this new hard hitting style of economic war and how it's changing the world

**How China is**

**Reshaping the Global Economy** Rhys Jenkins, 2022-06-16 China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites They also point to negative socio economic political and environmental consequences How China is Reshaping the Global Economy Development Impacts in Africa and Latin America throws more light on these controversies through a comparative study of China's impact on the two regions It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from North America and Western Europe to Asia This book looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing commodity markets the international presence of Chinese

companies and financial flows. It examines the different forms of Chinese economic involvement in Sub-Saharan Africa and Latin America, the main drivers, and economic, social, political, and environmental consequences. It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China. Since the first edition of *How China is Reshaping the Global Economy Development Impacts in Africa and Latin America*, China's role in the global economy has continued to expand, and the Chinese government's foreign policy has become more assertive. The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China, as well as increased Western concerns over the activities of major Chinese companies such as Huawei. This new edition documents these changes and their implications for SSA and LAC.

**Digital Economy Report 2024** United Nations Conference on Trade and Development (UNCTAD), 2024-07-10

The *Digital Economy Report 2024* turns the attention to the environmental footprint of digitalization. The Report discusses environmental impacts along the life cycle of digital devices and information and communications technology infrastructure with regard to raw material extraction and processing, manufacturing, distribution, use, and the end of life phase. The direct effects on natural resources, including transition minerals, energy, and water, as well as greenhouse gas emissions and waste-related pollution, can be said to constitute the environmental footprint of the ICT sector. There are also indirect environmental effects from the use of digital technologies and services in different sectors of the economy, and the Report includes a dedicated chapter on e-commerce. The report underlines the need to maximize the positive impact of digitalization while minimizing the negative impacts on environmental sustainability.
